VOL. 78 NO. 57 VICTORIA, B.C., MONDAY, MARCH 9, 1931—20 PAGES PRICE FIVE CENTS

THREE SAFES ROBBED BY CRACKSMEN HERE

Late Winter Storm Over Half Of This Continent

ONTARIO DIGS OUT OF MARCH SNOW BLANKET

More Than Foot of Snow in Ottawa Region; Quebec City Visited by Heavy Storm; Deaths in United States Attributable to Storms Total Thirty-nine; Country From Texas to Far North of Great Lakes Visited by Series of Storms.

Toronto, March 9—With more than a foot of snow in the Ottawa River Valley and that part of old Ontario between Lake Ontario and Lake Huron also under a white blanket welcomed by many farmers, most of this province had a wintry appearance to-day.

The snow in Ottawa, coming after a mild period, was an upset of weather hopes for the formal opening of Parliament next Thursday, but in the farming regions west of here the people were pleased, as the change in the weather relieved a serious water shortage in some districts, assuring full wells.

Canadian Press

Ottawa, March 9.—In devastating mood, king winter returned to south eastern Ontario over the week-end and resumed a reign broken by a fortnight of spring-like weather. Wind from out of the east blew a half-gale and piled snow into drifts ten feet high in spots. Every form of traffic was demoralized.

The storm broke Sunday morning. Wet snow, whipped into blizzard proportions by the gale, continued to pile up this morning with more than a foot already registered.

TRAINS LATE

Train traffic, particularly that from the west, was many hours behind schedule, for no sooner had tracks been cleared by snow-plough crews than the wind covered them with drifts.

When the opening blast of the storm's fury struck Deschenes, Que., close by the capital, a small garage was blown twenty feet from its moorings and a roof of a large street car shed ripped to strips. At Cornwall, Ont., the roof of the athletic field grandstand suffered a like fate.

Only on the main highways was motor traffic possible after snow-ploughs provided paths.

In Quebec the wind reached a velocity of fifty miles an hour.

DEATHS IN U.S.

New York, March 9—Gales on the American side of the Atlantic washed in their own report of tragedy—the wreckage of a boat at Newburyport, Mass. Search was being made to-day for bodies.

Twenty-three were counted dead in accidents attributable to the storm around New York yesterday. Sixteen were left dead in the two-day blizzard of the central states.

Northern New York state was under eight and a half inches of snow this morning.

WARNING TO SHIPS

United States weather officials indicated fresh fury of the elements with a warning to ships to hug shelter from Sandy Hook, N.J., to Eastport, Maine.

B.C. MOTOR OWNERS PAY MOST TAXES

Costs More to Run Car Here Than in Any Other Province in Canada

Fifty Dollars Lowest Contribution in B.C. to Provincial Revenue

British Columbia motorists pay more to provincial revenue than those of any province in the dominion, according to figures from the Dominion Bureau of Statistics. The total is given as $50, the lowest amount which an owner of a car pays to the British Columbia Government every year, a total considerably higher than that of any other province.

The gasoline tax of five cents a gallon, increased from three cents in British Columbia during the 1930 session of the Legislature, was levied with the understanding that the license fee would be reduced. Premier Tolmie, hearing representations from automobile clubs last March, undertook to go into the matter of car license fees thoroughly with the object of reducing them this year.

The Auto Service Club of Vancouver is prepared to take up the battle at this session of the Legislature, and will bring a strong delegation to Victoria to protest against the high car license fees.

According to statistics, this province has the highest per capita ownership of autos in the dominion, one in every five persons owing a car. This would probably average one car in every three homes, it is believed, so that any automobile tax is collectable from a large percentage of the population.

MAKES MOTORIST PAY

It would be difficult to compute exactly what each motorist averages towards government funds yearly, but it is safe to say that it is considerably more than $50.

Every new idea that will levy funds, finds acceptance with Victoria governments. Every time more money is needed, the motorist pays.

(Concluded on Page 2)

SAFE OF DOMINION THEATRE AFTER IT HAD BEEN BLOWN OPEN BY EXPERTS OVER WEEK-END

The above picture gives an idea of the way in which cracksmen can dynamite a safe without destroying its contents when burglars secured $1,095 early Sunday morning. The door was broken sufficiently to knock the locks out of adjustment but the interior was almost unharmed. Curtains used to deaden the sound can be seen at the right.

B.C. Leads Canada In Total Divorces

More Granted in This Province Last Year Than Any Section of Dominion

One Hundred and Fifty-nine Wives and Ninety-six Husbands Applied to Court

British Columbia still retains its title of the Reno of Canada, according to statistics on divorces received in Victoria to-day, showing more divorces were granted in this province during 1930 than any province in the dominion.

For the whole of the dominion 875 divorces were granted, fifty-nine more than last year, and of that number 255 were granted in British Columbia. In Ontario 207 were granted, in Alberta 151, in Manitoba 114, in Saskatchewan 62, in Quebec 40, in New Brunswick 27, in Nova Scotia none and in Prince Edward Island none. In the latter place there has been granted only one divorce since confederation.

The largest increases in divorces granted during the year were in British Columbia and Manitoba, in which provinces the 1930 figures shown increases of thirty-three and twenty-five respectively. Quebec with ten, New Brunswick with six and Alberta with four, also showed increases.

Large increases in the number of divorces granted between 1924 and 1930 are attributed to the greater ease with which decrees may now be obtained and partly to a more leniently view of such proceedings on the part of the community.

Of the divorces granted in Canada last year 364 were granted to husbands and 511 to wives. In British Columbia ninety-six husbands secured divorces on their appeals to the courts, and in 159 cases wives made successful appeals to the court for divorces.

JUDGE GREGORY OPENS ASSIZES AT COURTHOUSE

Five Indictments Handed Down By Grand Jurors This Morning

The Spring Assizes of the Supreme Court of British Columbia opened this morning at 11 o'clock at the Court House, with Mr. Justice F. B. Gregory presiding. An exceptionally light docket of charges was placed before the grand jury. E. V. Finland appeared for the Crown, with W. C. Moresby, K.C., representing the federal authorities in an opium selling case.

The grand jury is composed of W. L. McIntosh, foreman; J. B. Acland, H. G. Dalby, S. J. Halls, E. N. Horsey, F. A. Jackson, W. J. Mable, S M. Oliver, H. A. Porter, R. Smith, H E. Tanner, J. T. Taylor and S. L. Partridge.

Before dismissing the grand jury to consider the indictments Mr. Justice Gregory remarked: "It is customary for the presiding justice at Assizes to comment somewhat on matters of public interest. I do not propose to do so on this occasion. You all realize the condition of the country and the difficulties the government must overcome in raising money to carry on the public business."

The following cases were handed to the grand jury for consideration, with instructions to report to-morrow morning at 11 o'clock:

Rex vs. Lee Yow Hem and Chan Quan Yow, charged with attempted murder of Sue Yow Gee by shooting on November 7 last;

Charles Luscombe, wounding Harry Dunnett with intent to maim and on a second count with unlawfully wounding Dunnett;

Haydn Sagar, assault and attempted robbery with violence of Robert James Duncan;

Reginald Clough, manslaughter of Elmer Plaxton when hunting at Goldstream on November 13.

Leong Sue, sale of opium.

FINE CHINESE FOR GAMBLING AFTER RAID

Nineteen Orientals Plead Guilty to Charges; Thirty-nine Others Released

Following a police raid Saturday night on premises at 555½ Fisgard Street, nineteen Chinese were each fined $8 in City Police Court this morning after pleading guilty to charges of being found in a common gaming house.

Thirty-nine Chinese were taken from the premises and were charged, but prosecution was dropped against twenty when it was revealed they were found in a room adjoining the place where gambling was alleged to have taken place.

W. C. Moresby, K.C., appeared for the accused.

Inspector John T. Boulton and squad raided the premises about 8 o'clock Saturday night.

EARTHQUAKES IN BALKANS

Complete Reports in Jugoslavia and Bulgaria May Bring Deaths to 150

Canadian Press

Belgrade, Jugoslavia, March 9.—Between eighty and 150 dead were counted to-day in eastern Jugoslavia and adjacent Bulgaria, rocked before dawn Saturday and yesterday by severe earthquakes. More than 900 buildings and other structures in eastern Jugoslavia were demolished and 500 persons are estimated to have been injured.

Shaken from their beds, and panic-stricken after Saturday morning's quakes, residents of the border country were afraid to go back to their homes until late Saturday. At 4 a.m. Sunday they were driven in the open again in their bedclothes, screaming and making for the woods, which afforded some shelter from the bitter weather without the danger of falling masonry.

LARGE AREA SHAKEN

The quakes, both Saturday and yesterday, extended from eastern Jugoslavia across Bulgaria to the shores of the Black Sea. The epicentre was near Drama, Bulgaria. The quakes were felt in Greece, where seventy houses were destroyed in the village of Kavallion, and in eastern Thrace and about Adrianople. The more severe shocks knocked the seismograph needles from the drums at the observatory here. Chimneys fell over the entire area.

King Alexander and Premier Zivkovitch to-day were in southern Serbia superintending relief operations. Trains were sent with food, shelter, medicines and drinking water. Before departing from Belgrade yesterday the King gave orders that such soldiers as had homes

Flier Who Left This City Injured In Seattle

Pilot W. Thompson Rescued When Forced Down in Slough in Sound City; Two Other Planes Make Forced Landings

Canadian Press

Seattle, March 9. — William Thompson, twenty-five, transport pilot, was in a hospital here to-day with serious injuries received when he made a forced landing in a slough in the south end of this city late yesterday.

He was returning alone after piloting several passengers to Victoria and his plane's gasoline line became clogged as he neared the airport. As he brought the plane down on the slough, the landing gear caught in bull rushes, somersaulting the machine.

WADED TO RESCUE

Half wading and half swimming through the deep water of the slough, G. W. Johnson, telegraph operator in a Northern Pacific tower near by, made his way to the wrecked plane a few moments after it had fallen.

Johnson pulled the unconscious pilot from the wreckage and waded out with the aviator bundled across his shoulders.

Three other men who waded to the rescue included Malcolm Higgins, contractor of Longview, Wash.

MOSCOW TRIAL COMES TO END

Fourteen Who Plotted Against Soviet Given Prison Sentences

Moscow, March 9.—Fourteen Mensheviks on trial here for treason since Sunday of last week were sentenced to-day to prison for terms running to ten years.

The men were charged with plotting to overthrow the Soviet Government. Death sentences had been asked for seven, two of whom declined yesterday during the summation to ask for leniency, saying they deserved to die. Most of the defendants had asked for brief sentences so they might devote their lives to the service of the Soviet Government.

Connecticut Bank Robbed By Two Men

Berlin, Conn., March 9. — Two men held up the Berlin Savings Bank as officers and customers arrived to-day, forced Assistant Treasurer James Fitzsimmons to open the vault and escaped with between $10,000 and $12,000.

SOVIET TESTS U.S. EMBARGO

Moscow, March 9. — The steamship Anversoie was at sea to-day bound from Leningrad for New York, loaded with lumber for the Amtorg Trading Corporation, Soviet trade organization in the United States. The vessel left Leningrad last Friday, it was announced.

February 10 Andrew Mellon, Secretary of the United States Treasury, placed an embargo on Russian lumber and wood pulp from the four districts on the White Sea of northern Russia, holding convict labor was used in their production.

Advices from Russia thereafter said the Soviet Government, through the lumber trust, would send a shipment of lumber to the United States to provide a test case of the Treasury Department's ruling.

Secretary Mellon's finding places the burden of proof on the importer to show that goods are not produced by convict labor.

Mail Plane Makes Landing on Farm

Saskatoon, Sask., March 9.—To-day's mail plane from Moose Jaw to Saskatoon was forced by fog to make a landing at Craik at 7.30 a.m. The landing was made without damage to the plane on a farm three miles southwest of Craik, and Pilot Farrel awaited orders from headquarters.

Theatre Strong-box Blown Two Others Yield to Drill; Loot Totals Over $4,000

Professional Safe-blowers Make Clean-up of Saturday's Takings at Dominion and Capitol Theatres and Kirkham's Ltd. Fort Street Store; More Than $1,000 Taken in Each Case; Dominion Safe Door Opened by Blast.

BROKEN BRACE AND BIT LEFT AT THEATRE.

Escape Through Chamber of Commerce After Kirkham Robbery and Ransack Committee Room; Police Believe Work Done by Outsiders; Dropped Through Skylight Into Manager's Office at Kirkham's.

Dynamiting one strong box and prying open two others, safe-crackers over the week-end took more than $4,000 in loot from this city. The places entered were:

H. O. Kirkham Ltd., retail store, safe cracked and $1,701 stolen.

Dominion Theatre, safe door wrecked by blast and $1,061.45 secured.

Capitol Theatre, safe cracked and $1,214.50 taken.

Police believe the jobs were done by professional safe-blowers, from the outside, indications in each case being that the cracksmen were familiar with that type of work. It is considered certain that the three burglaries were performed by the same men.

Only one tangible clue was left, a broken brace and bit found at the Dominion Theatre.

All the robberies took place between midnight Saturday and daylight Sunday, it is believed.. The wrecked theatre safes were discovered yesterday morning but Kirkhams was not found until the store opened shortly before 8 o'clock this morning.

At the theatres entry was gained through windows, while at Kirkham's the safe-crackers dropped in through a skylight.

WORK OF EXPERTS

Detective Inspector Jack McLellan, who is in charge of the cases, expressed the definite view that the burglaries were the work of experts. The main point indicating this was the neatness with which the Dominion Theatre safe was blown open.

Finger-prints were obtained by detectives in two cases, but it was doubtful whether they would have a bearing on the jobs. The main hope of those investigating rests with the brace and bit found at the Dominion.

The brace is of ordinary type, apparently several years old, all metal parts being rusty. The wooden handle, broken at some time, has been wired together. The bit, about three-eighths of an inch in diameter, was fairly new and had been broken off about half way from the end when the cracksmen were at work on the safe.

Detectives Charles Cremer, William Stark and T. H. Bamford are at work on the cases as well as Chief Thomas Heatley and Inspector McLellan.

A police net all over the Pacific Northwest has been set for the yeggs, who, it is believed, would have immediately left the city. All rooming houses in the city were visited by detectives to ascertain description of strangers.

Chief Heatley said certain clues in connection with the matter were being followed up and might prove fruitful. Suspicious characters known to have been in the city at the time of the robberies have been checked.

CAR SEEN OUTSIDE

Police have investigated a report by Fred Wright, 1640 Gladstone Avenue, that a Chevrolet coupe was seen parked on Yates Street, not far from the Capitol Theatre, about 3.30 o'clock Sunday morning with two men in it. It is not considered likely the cracksmen would leave a car outside the premises, however.

The most daring theft of the three was at the Capitol Theatre, where the safe was located in the box office, right next to the street. Entry was apparently gained to the building through an unlocked window backstage leading off the rear alley. From this room, used by theatre employees, they proceeded right through the theatre to the front. The office door was "jimmied."

QUICK JOB

Apparently the Capitol safe gave the cracksmen little trouble. The combination knob was knocked off with a hammer or some heavy object, snapping the bolt, and the tumblers were

WOMAN PASSES IN FAIRFIELD UNITED CHURCH

Mrs. E. Jalland, Pioneer Member, Died Just Before Service Started Sunday

Had Hurried to Hear Pastor Who Conducted Husband's Burial Service

As the result of a heart attack brought on by hurrying to Fairfield United Church, of which she was one of the founders and pioneer members, to hear Rev. Dr. C. T. Scott, who conducted the burial services for her husband sixteen years ago, Mrs. E. Jalland, elderly member of the congregation, died in the church yesterday evening. She passed away just before the service started at 7.30 o'clock, leaning on the shoulder of her friend, Miss Thelma Schroeder.

Dr. M. W. Thomas, who was in the church at the time, pronounced life extinct when the body was carried into a room in the vestibule.

According to a member of the congregation, Mrs. Jalland hurried into the church and took her seat beside Miss Schroeder. She appeared to be slightly out of breath, but was otherwise normal and carried on a short conversation.

PASSED AWAY SUDDENLY

After speaking for a few minutes, she turned to her friend and, saying "I must have hurried too much," lapsed into unconsciousness. She was immediately placed on the seat and appeared to regain consciousness once or twice, before she again returned to a

RUMORS STATE MISS BENNETT SOON TO WED

Canadian Press

Ottawa, March 9.—Miss Mildred Bennett, sister of the Prime Minister of Canada, would neither confirm nor deny to-day rumors of her engagement to the new Canadian Minister at Washington, Major W. D. Herridge, K.C., Ottawa.

"When I have anything to say," Miss Bennett stated, "I will give it to the press."

PLAN CHANGES IN NIGHT WORK OF POLICE HERE

More Effective Patrol Will Be on Duty, Says Chief Heatley

Following the series of safe-crackings in the city over the week-end, Chief of Police Thomas Heatley announced this morning that changes in the system of police work here at night are under consideration.

The Chief pointed out that since his appointment a number of alterations in the routine work of the force have been made and there has been need for changes in the method of handling the night shifts, giving a more effective patrol.

In connection with the safe-blowings, the Chief referred to the practice of several cities in the United Kingdom where banks provide special slots, leading to their vaults, where large sums of money taken by stores and other businesses after bank hours, are deposited. This eliminates the possibility of large sums being kept on hand in insecure places, offering a temptation to burglars. There was an opening for such a method in this city, he pointed out.

SHIP DAMAGED AT HALIFAX AS GALE BLOWS

Canadian Press

Halifax, N.S., March 9.—Caught in the sweep of a fifty-knot gale, the Cunard liner Alaunia took a sharp bump on her port forward quarter as she was docking at the ocean terminals here this morning. A plate at the waterline was damaged and a small amount of water was shipped before the airtight compartment was closed, the damage being later repaired with cement.

A survey was underway at noon, and it was said the mishap would not prevent the Alaunia sailing for Plymouth and Havre to-morrow.

ROBBERS BUSY IN TERMINAL CITY

Canadian Press

Vancouver, March 9.—Burglars who broke into Purdy's Limited at 675 Granville Street here Sunday cracked the safe and obtained nearly $400, according to reports.

Entry was forced by removing a panel from the rear door and springing the lock. They chiseled the combination off the strong box and shot the tumblers back to get at the cash box.

Numerous other robberies, including two armed holdups, were reported to police over the week-end.

A diamond-studded watch valued at $1,000 was stolen from the suite of Mr. and Mrs. L. A. Weinreb at 2095 Beach Avenue Saturday evening. The thieves missed a quantity of valuable jewels.

Four Per Cent Sales Tax Is Now Rumored

Montreal, March 9.—The Montreal Gazette to-day published the following dispatch from its Ottawa correspondent:

"A turnover tax of two per cent on sales of manufacturers to wholesalers and on sales from wholesalers to retailers, or an increase in the sales tax to a maximum of four per cent, an increase in the corporation income tax from eight to ten per cent and an increase in the postage charge on newspapers from 1 cent a pound to 1½ or 2 cents are regarded as the present best guesses on the proposals of the Bennett government to solve the problem, in the fiscal year which will commence three weeks hence, of dropping revenues and increasing outlays.

"It is estimated a two per cent impost on turnover would yield a revenue of $80,000,000 with little additional cost of collection as the machinery for such work already exists in connection with the direct taxation resulting from the war. It is also computed by experts that every one per cent increas in the sales tax would mean about $25,000,000 more for the treasury, so that an increase from the present rate of one per cent to four per cent would mean about $75,000,000 more revenue."

BROTHER OF SLAIN WOMAN COLLAPSES

P. Franklin in New York Hospital Following Vivian Gordon Funeral

Canadian Press

New York, March 9.—On the lifesheet of the family of Vivian Gordon, murdered Broadway butterfly, fate today added "nervous collapse" to the entries of "murder" and "suicide," for to-day Pierre Franklin of Montreal, brother of the late Vivian and uncle of the self-slain Benita Bishoff, was carried from his hotel to the Bellevue Hospital, strapped to a stretcher, after a violent struggle.

Hotel employees and a nurse who had struggled with Franklin for hours before police were called said he was suffering with "nervous collapse."

Eleven days ago his sister, born Benita Franklin, was strangled and her body tossed into a gutter in Van Cortlandt Park. Two days later, her daughter, Benita Bishoff, ended her life with gas through shame over the revelations that followed her mother's death.

Saturday, at the funeral of Vivian whose body he had saved from burial in the potter's field, Pierre kissed the dead lips that knew Broadway at its vilest and gayest and vowed vengeance. In his room at the hotel to-day police found a stack of newspaper clippings recounting day-by-day developments of one of Broadway's great tragedies.

Pierre is a powerful man. He weighs about 200 pounds. House detectives at the hotel, summoned by his nurse, had to exert all their strength to restrain him in his room and finally the police were called.

At the hospital physicians said his condition was not serious. It was a nervous breakdown, caused by grief and worry, they said.

Vivian Gordon claimed she had been "framed" by police and sent to a reformatory eight years ago. She had offered recently to testify at the inquiry into New York magistrates' courts, which already has put a number of policemen on trial on vice extortion charges.

FLIER WHO LEFT THIS CITY INJURED IN SEATTLE

(Continued From Page 1)

Spectators said they had heard the motor of the plane stall as the ship flew over, and then had seen it go into a dive. Without regaining a normal keel, the plane plunged like a rocket, striking the water nose first.

The plane is a tri-motored machine. machine.

Thompson suffered a fracture of the skull.

Two other airplanes flying above Seattle yesterday made forced landings as a result of engine trouble.

Ted Morris, Western Airways pilot, landed on Harbor Island. He told friends the engine "did not sound right," so he came down.

Golfers on the Jefferson Park Municipal Links dashed for cover when Fred Whaley of the Continental Airways landed on a green. Both Morris and Whaley carried two passengers each and were flying single-motored open cockpit biplanes. Both were forced down by choked gasoline feeds. Their two planes were repaired and flown to Boeing Field.

Thompson's tri-motored plane proved a source of interest to many Victorians at the Lansdowne Field yesterday afternoon. The ship made a couple of landings at the local airport after arriving from Seattle with its passengers. It was while returning from Victoria the ship crashed.

DOUKHOBOR FINES REPAID

B.C. Appeal Court Makes Order Following Upsetting of Produce Marketing Act

Canadian Press

Vancouver, March — Fines totaling $1,600, together with costs amounting to $132, to-day were ordered by the B.C. Court of Appeal to be repaid to the Doukobor organization, known as the Christian Community of Universal Brotherhood.

When five appeals from convictions for alleged infractions of the B.C. Produce Marketing Act were called, neither the government nor counsel for the Interior Tree, Fruit and Vegetable Committee of Direction appeared to oppose them. The appeals thereupon were allowed by the judges. The convictions were quashed and the fines and costs ordered to be repaid.

This disposition of the cases followed from the recent judgment of the Supreme Court of Canada, holding the Produce Marketing Act ultra vires in so far as it purported to deal with inter-provincial trade and to impose levies. Last week, on the opening of its Vancouver sittings, the Court of Appeal requested time to peruse the judgment of the Supreme Court of Canada.

All cases directly concerned the question of extra-provincial marketing.

WITHOUT LICENSES

C. H. O'Halloran appeared for the Doukobor organization, which carries on business at Brilliant and Grand Forks.

The appeals included four from Judge W. A. Nisbet, of the County Court of East Kootenay, who affirmed convictions for marketing, refusal to permit inspection of records and failing to make returns to the committee of direction. The fifth was a stated case which came before Mr. Justice Murphy in the B.C. Supreme Court, where the judge upheld a conviction for shipping without a license.

MAJ. HERRIDGE PREPARES FOR POST IN U.S.

(Continued From Page 1)

my utmost to deserve it and to serve the country faithfully," said Maj. Herridge.

HIGH STANDARD TO MEET

Vancouver, March 9.—The Vancouver Sun, commenting on the appointment of Maj. William D. Herridge of Ottawa as Canadian Minister to the United States, to-day said:

"Major Herridge has many qualifications for office. His test will of course come in actual service. It is an important diplomatic post, and he has a high standard to meet—the standard set by Mr. Massey.

"Premier Bennett has set up the principle that Canada's ministers abroad must be 'men in the confidence of the government.' That principle should be broadened to the 'confidence of the country.' It would then make for continuity of service and the building of a real diplomatic career service which would be definitely above political or partisan consideration."

SEVERAL QUESTIONS

The Vancouver Daily Province, after speaking of the St. Lawrence waterways discussion, said:

"There are, however, plenty of other issues. There are questions of trade between the two countries. The United States tariff commission is in session and Canadian industries have what amounts to a standing invitation to present to the commission their case for tariff reductions. There is the Salmon Treaty, ratified by the Dominion Parliament, but still hanging fire in the United States Senate.

"There are boundary disputes over immigration and there are vexing problems like those which have arisen through the zeal of the American coastguards in firing on such vessels as the I'm Alone and the Josephine K."

EAGER FOR TASK

Ottawa, March 9.—"You may say I am looking forward to going to Washington very much indeed," said Major W. D. Herridge, new Canadian minister to the United States, in a talk with newspaper reporters here to-day.

He stated his experience in his work as a patent attorney in meeting United States business men and lawyers in different American cities had been "a most happy and enjoyable one."

ST. LAWRENCE SCHEME

"We understand you have been making a very close study of the St. Lawrence Deep Waterways question," an interviewer ventured.

"I have merely taken a normal, natural interest in that question," Major Herridge replied. "I have taken a very keen interest in many other questions, though."

WAR RECORD

Major Herridge is most modest concerning his enviable war reecord. Asked to give details of how he had won the Distinguished Service Order and the Military Cross, he replied: "Oh, I don't remember, really. Please don't play that up. I'd much rather you would not."

The new minister has no hobbies, but he has a "shack" in the Gatineau Hills, which he makes his headquarters for fising expeditions. A reporter asked if it were true that as a patent attorney he had studied radio so assiduously he could "take down" a radio receiver and put it together again, but the minister denied other than a "smattering" of radio knowledge.

LIQUOR QUESTION

People of Washington, it was suggested, would be particularly interested in whether he would avail himself of the diplomatic privilege regarding liquor at the legation, but the only response the suggestion drew was: "I bet they would."

Major Herridge has two sisters, Mrs. Kenneth McLachlin and Mrs. Eric McLachlin, both of Montreal, but he stated he had not contemplated taking one of them to Washington as his official hostess.

ANNOUNCED BY PREMIER

The announcement of the appointment of Major Herridge was made Saturday evening by Premier Bennett, who explained King George had officially approved the choice. The order-in-council was passed at a meeting of the cabinet Saturday and the approval of the administration, following recognized practice, had to be secured before the announcement could be made.

Major Herridge, it was said, was very reluctant to accept the post when it was tendered to him by Premier Bennett, and the delay in making the appointment was due to that fact.

The new minister succeeds Hon. Vincent Massey, who resigned last spring when he was appointed by the then Premier, Rt. Hon. W. L. Mackenzie King, as High Commissioner in Great Britain. He returned to Canada from the United States to prepare to take his new post, but in the meantime the general election was held. The new Conservative Government took the view the Canadian representative in London "should be a man in the confidence of the government," and as a result Mr. Massey resigned. Later, Hon. G. Howard Ferguson, former Premier of Ontario, was appointed High Comissioner.

AS POLITICAL WORKER

In the dominion general election campaign last year Major Herridge accompanied Mr. Bennett on his 14,000-mile tour of Canada. In the six-week hectic political battle, Mr. Herridge gave advice and assistance to the Conservative leader.

When the Canadian delegates to the Imperial Conference were chosen, Major Herridge was selected as personal adviser to Premier Bennett. Sailing in September last, he accompanied the Prime Minister to London and returned to Canada with him early in December.

On the occasion of Premier Bennett's visit to Washington, in the course of which he met President Hoover, Major Herridge accompanied him along with Col. Hanford MacNider, United States Minister to Canada.

With an international reputation as a corporation and patent counsel, the newly appointed minister is in his early forties. Born in the manse of the historic St. Andrew's Presbyterian Church of this city, Major Herridge is the son of the late Very Rev. W. T. Herridge, D.D., for many years a leading minister of the Presbyterian Church and at one time moderator of the General Assembly.

Dr. Herridge was recognized as one of Canada's foremost preachers and was minister at St. Andrew's Church for nearly thirty years. The new Canadian minister's grandfather was Rev. William Herridge, D.D., a minister of the Methodist Church who served in charges in various parts of Canada. The mother of Major Herridge was formerly Miss Marjorie Duncan, daughter of the late Rev. Dr. Thomas Duncan, minister of the Established Church of Scotland and who was a "household name" in the Maritime Provinces, particularly in Charlottetown and Halifax.

He attended School in Ottawa and graduated from Toronto University in 1909 with the degree of Bachelor of Arts. After pursuing his studies at Osgoode Hall, Toronto, he was called to the Ontario bar in 1913 and was made a King's Counsel in 1928.

WAR SERVICE

The Great War saw Mr. Herridge serving with the Canadian troops in France as early as the summer of 1915. Attached then to the First Canadian Division mounted troops, he was transferred to the Third Canadian Infantry Brigade and in June, 1916, joined the Second Canadian Infantry Brigade, with which he served until March, 1919. Major Herridge was with the Second Canadian Brigade when it entered Germany. During the latter part of hostilities he served as brigade major under Major-General Sir Frederick Loomis, Montreal.

He was mentioned in a number of dispatches for conspicuous bravery.

KNOWN IN U.S.

For several years Major Herridge has been closely associated with United States legal business. In the conduct of his practice, largely as corporation and patent counsel, he has appeared before the Exchequer Court of Canada, the Supreme Court of Canada and the Judicial Committee of the Privy Council in London. He is well acquainted in professional and business circles in various parts of the United States.

Major Herridge was married to Miss Rose Fleck, one of Ottawa's society leaders, shortly after his graduation. She was a granddaughter of the late J. R. Booth, Ottawa lumber king. She died a few years later and Major Herridge has since remained unmarried.

Major Herridge has never contested a political seat.

ACCEPTABLE TO U.S.

Washington, March 9.—Announcement in Ottawa of the appointment of W. D. Herridge, K.C., as Canadian Minister to the United States indicates his selection is acceptable to the United States.

While diplomatic etiquette prevented officials from making any comment which might be quoted, the opinion was privately expressed the government would be very glad to welcome the new minister, who on his visit here with Premier Bennett and on previous occasions made a wide acquaintance.

The ministerial post has been vacant now for almost nine months and United States officials have assumed that before tackling the largest matter in Canadian-United States affairs—the St. Lawrence waterway — whatever policy should be decided on by the Bennett Government, Ottawa would appoint someone to succeed Hon. Vincent Massey.

Canadian Press

STATEMENT OF VETERANS

Ottawa, March 9.—From his old comrades of the Canadian Legion of the British Empire Service League, through its dominion president, Col. L. R. Lafleche, Canada's new Minister to the United States, W. D. Herridge, was given strong support to-day.

"The appointment of Major Herridge as Canadian Minister at Washington, just announced by Premier Bennett," Col. Lafleche stated, "marks the first occasion on which a front-line soldier of the Great War has been called to such an important post in the diplomatic services, and the significance of this action by the Dominion Government will be most heartily appreciated by all the new minister's war-time comrades of the Canadian Corps and of the Legion.

"Major Herridge's war record requires no embellishment. It speaks eloquently for itself and makes him eminently suitable to continue to serve Canada's interests in peace time.

AID IS APPRECIATED

"The returned men of this country and their dependents already owe a debt of deep gratitude to Major Herridge. Speaking on behalf of the Canadian Legion, I am extremely pleased to pay tribute and to express thanks to him for his invaluable assistance rendered many times when very difficult problems faced us. For his sound constructive advice in those moments of crisis, we are very grateful for services so freely given. It is not going too far to say the credit for some of the Legion's most outstanding successes is due in large part to him.

"I am sure this appointment will be a very popular one, as I have already received a number of telegrams from prominent Legion members expressing their very great pleasure in this respect.

Major Herridge is a man of very wide sympathies, broad experience and knowldge of Canada and of the British Empire, and undoubtedly will represent Canada most creditably. He has the very best wishes of the Canadian Legion."

SOUTH ENGLAND IS STORM SWEPT

Low Temperatures and Snow; River Floods in Several Regions of Europe

Canadian Press

London, March 9.—Bitter winter weather which swept most of Europe over the week-end closed in on London and southern England to-day with the temperatures very low. A high wind drove a heavy snow before it to-day, with indications it would continue.

Elsewhere in Great Britain the storm abated, leaving eastern Scotland deep in the year's worst snow. Northeastern England also was under a thick white blanket, with the most bitter weather of the winter prevailing.

Northern France, Germany, Belgium, Scandinavia, Austria and Poland all were affected by the usual cold. Snowdrifts blocked highways and delayed trains, while where it was warmer swollen rivers threatened serious flooding.

LANDS FLOODED

The river Seine at Paris was one foot above alarm level at the Austerlitz Bridge yesterday and lower sections of the city were evacuated. It was not expected to go much higher. The rivers of Burgundy and southeastern France swelled steadily, inundating the meadows and riverside quarters of several towns, but there was no great damage.

Seaside towns were hard struck in some cases. High tides and giant waves swept away structures considered far back from the water line. In the North Sea the steamer Tern collided with the steamer City of Malines and sank, all sixteen of the Tern's crew being saved.

The weather bureau expected no letup in the extreme conditions for several days.

WORST IN TWO DECADES

London's snow storm, the worst in twenty years, tied up traffic, but the children, and even some of the grown-ups, had snowball battles in the shopping centres of the Fleet Street district.

The forecast was for continued cold and more snow.

The trawler Loch Long ran aground near Aberdeen and knocked a hole in its bottom. Lifeboats rescued the crew of ten.

THREE SAFES ROBBED BY CRACKSMEN HERE

(Continued From Page 1)

then knocked into the safe, allowing the door to open. The interior of the safe was ransacked and everything of value taken.

The robbery was discovered by the janitor shortly before 11 o'clock yesterday morning, with the usual night light still burning.

At Kirkham's the procedure was much similar, but a drill was brought into play before the safe yielded. After the knob was knocked off four holes were drilled before the yeggs managed to get to work on the tumblers with a lever. Spurning a large number of one-cent pieces, the cracksmen chose only the bills and larger silver money. They gained entry to the building from the roof, dropping through a skylight into the manager's office.

After leaving the store the same way they entered, the yeggs escaped through the Chamber of Commerce building, entering a committee room window and strewing papers about the place.

SAFE BLOWN

Using curtains from the office windows to plug the hole and deaden the sound of the explosion, the yeggs performed a perfect "job" of safe-blowing at the Dominion. The hole in the door was drilled above the knob in the centre and just enough "soup" was poured in to disarrange the combination and blow out some of the cement in the door. The blast only wrecked one shelf in the interior, so finely was it judged.

The window at the west side of the theatre was forced to gain entry to this building and the manager's office, where the safe was located, was "jimmied" with a fine instrument.

SECOND ATTEMPT

It was the second safe robbery at the Dominion Theatre in the last few months. On the previous occasion, however, it was apparently the work of amateurs, the office door being practically wrecked by the intruders and the safe resisting their attempts despite some intensive drilling.

Although Victoria has had much larger robberies in recent years, Sunday morning's coup was probably the most daring and systematic ever attempted here. It was apparent the yeggs had laid their plans carefully and executed the three jobs thoroughly and deliberately.

PROWLERS AT WORK

While "big-time" yeggs were at work cracking safes, a number of prowlers were also busy in the city over the week-end, police reports indicate.

The Motor House, Yates Street, was entered, but it is believed nothing was taken. A residence in Fairfield was also entered and ransacked, but little value secured. Mrs. Nicholson, 3044 Carol Street, reported her meat safe looted of a roast, butter and bacon.

ENTERED HUMPHRIES

When two members of the sales staff of A. E. Humphries Motor Company, Yates Street, were preparing to leave their office late Saturday night they saw a man trying to pry open the front door.

"He was a large, husky type of man, wearing a cap, light suit and no overcoat," one of the salesmen said. "When he saw the light turn on from the inner office and the two of us, he stopped his work and quickly moved away.

"We did not think much about it until yesterday when we learned that after we had gone and finally locked the office and garage for the night, the place had been broken into. Apparently this man had come back after he saw us all leave."

When the attendant at the gas pump nearby arrived and opened up Sunday morning, he found that the lock had been smashed off the main entrance door from the Humphries showrooms. He notified the members of the firm. They found that pries had been used to lever the lock off. The inner office had also been entered, but as nothing of value had been left overnight, nothing was reported missing.

COMTE SUZANNET'S DAUGHTER RECEIVES LEGACY OF $100,000

New York, March 9.—A bequest of $100,000 to a twelve-year-old grand niece, Jacqueline de Suzannet, daughter of Comte Jean de Suzannet of Victoria, B.C., was included in the will of Mrs. Samuel J. Penniman which was filed for probate to-day. Mrs. Penniman died February 13.

WOMAN PASSES IN FAIRFIELD UNITED CHURCH

(Continued From Page 1)

state of coma, from which she never awakened.

Before her death, she had told friends she was attending the service particularly to hear Dr. Scott, who had conducted the burial service for her husband sixteen years ago.

Mrs. Jalland had previously been in ill-health, but was thought to be recovering.

The late Mrs. Jalland was born in Ontario sixty years ago, and had been a resident of Victoria for twenty-two years. She had been connected with the church for over twenty years, having been a member of the congregation when it was but a mission meeting in a tent on the site of the present church, and being, with her husband, one of the founders of the Fairfield Methodist Church. She was the secretary of the first ladies' aid of the church, and later was an active member of the women's auxiliaries, and her passing will be sincerely mourned by a wide circles of friends. Out of respect to her memory, social functions scheduled for this week at the church, have been postponed.

She is survived by one brother, David Marwood, Treherne, Manitoba. The remains are resting at the parlors of the S. J. Curry & Son funeral home, and funeral services will be held Wednesday afternoon at 2.30 o'clock, from the Fairfield United Church.

EARTHQUAKES IN BALKANS

(Continued From Page 1)

in the devastated area should be allowed to return there at once and aid in caring for relatives.

Not one building was left standing in Pirava, where nineteen persons were killed. The bridge across the Para between Skoplje and Guevgeli, collapsed, interrupting railroad traffic. In one village near Guevgeli, twenty-nine were killed and twenty-two injured. The railway station in Demir Kapa was razed by the shocks, which killed two children and injured two adults in the Bulgarian border village of Leski. Houses were destroyed in Neyrokop.

Afraid as residents were to go back into such homes as were left standing, the quakes occasioned real suffering throughout the stricken area. The shocks yesterday occurred in exceptionally bad weather, in dark hours. Supply and relief work is apt to be slow, inasmuch as the railroads have numerous spread rails and damaged roadbeds. Water mains were broken in may places.

UNCONFIRMED REPORTS

From the Valandovo region to-day came unconfirmed reports that several villages had been razed, with the dead numbering 100 or more.

Geysers spouting hot water and steam appeared in the foothills and as the cold rain fell on them clouds of steam rolled through the valleys.

Six thousand had been driven from their homes and many of the homes destroyed, the reports said. Troops have set up shelter tents and temporary barracks.

The extent of the damage in isolated sections may not be known for days. The newspaper Pravda to-day said the loss of life would be enormous, but the government cautioned against exaggeration in the absence of accurate information.

One report said the town of Strumnitza had been almost destroyed. It figured prominently in the Balkan Wars.

At 5 o'clock this morning the seismograph here registered violent shocks with their epicentre about 5,655 miles away. It began at 1.01 a.m. and lasted until 6.36.

ONTARIO DIGS OUT OF MARCH SNOW BLANKET

(Continued From Page 1)

In Pennsylvania six state highways were closed because of snowdrifts in Susquehanna and Wayne Counties. Snow was still falling to-day in the north central counties.

Twenty-five passengers were marooned in a New York Central passenger train stuck five hours in a snowbank at Rosiere, N.Y., yesterday evening.

An unusually high tide switched the mouth of the Goose Fair River, dividing line of Old Orchard and Saco, Maine, 100 feet to the south. Tons of rocks were washed over beach roads in the vicinity.

Starting Saturday night and continuing unabated through most of Sunday, snow and rain centred their fury on New York State and New England.

The roof of a Bronk church was torn off, endangering the lives of 200 children. Lighting systems were wrenched out of order.

The tide rose almost to the top of the Battery sea wall in New York City for the first time in many years.

It was not entirely all ill wind, however, for the rain dropped billions of gallons of sorely- needed water into New York City reservoirs and put snow shovels in the hands of impoverished men up-state.

In Middlefield, Mass., in the Berkshires snowdrifts ten feet deep in places blocked roads and drifts in Vermont caused motorists to appeal for shelter.

MIDWESTERN U.S.

Chicago, March 9.—The Midwest floundered in snow drifts over the week-end, the parting prank of a malicious winter.

A mad March storm which had dumped its load over the Mississippi Valley states during Friday and Saturday moved east up the ice-bound Great Lakes and whistled out in harmless gusts yesterday.

MOTORISTS AIDED

Kansas City, March 9.—The March snowstorm which swept the prairie states from Texas to the Dakotas Friday and Saturday, had spent itself yesterday in Kansas, Oklahoma, Texas and western Missouri.

In most sections of this area the snowfall, which measured from a few inches to more than a foot on the level, was melting into a soil receiving its first major precipitation in months.

While farmers rejoiced over needed moisture for grain crops, they gave shelter to motorists and bus passengers marooned by blocked highways.

NO CLUES TO JAIL BREAKERS

Police in Vancouver Region Unable to Trace Fraser McDougall and Ellis Wilcox

Canadian Press

Vancouver, March 9—Search for Fraser McDougall and Ellis Wilcox, hold-up men who escaped from the Oakalla Jail last Thursday evening, has proved fruitless. Without clues indicating where the fugitives may be or who assisted them, provincial police are confronted with a difficult task.

Staff Sergeant John Shirras of the provincial police here denies reports the police suspect a woman of being responsible for supplying the revolvers to the two young men.

Although police forces throughout the lower mainland were notified as soon as the escape was achieved, and the main highways leading to the United States border were guarded, it is recognized the prisoners, in a stolen car, could have crossed into Washington State by one of the less used roads.

If the guns the men used in their jail break had been slipped to McDougall and Wilcox while they were prisoners in the cells at the courthouse in Vancouver they would have been used at that time by the young desperadoes, police say. Officers report the possibility, however, for an officer stood on guard three feet away. Both men were searched after leaving the cells.

WAITED THEIR CHANCE

If the bandits obtained the revolvers in the police van, where they might have been placed by confederates, they could have held up the driver and escort, seated in the front seat. But they were handcuffed together and they preferred to wait until the handcuffs were removed after arrival in the jail.

Both McDougall and Wilcox were familiar with the routine of being searched on arrival at the courthouse here from Oakalla and on their departure for the prison. They had been brought to the courthouse a few days previously in connection with cases pending against them.

B.C. MOTOR OWNERS PAY MOST TAXES

(Continued From Page 1)

Under present legislation, this is what the provincial government gathers from each individual car owner.

1. License fee—Highest in Canada, being four times as much as that levied in Ontario.
2. Gasoline tax—Averaging $15 yearly for each car, estimated on consumption of 300 gallons.
3. Registration fee—$10 for every new car purchased or registration of car not formerly on provincial rolls.
4. Transfer fee—Being 75 cents every time a car changes owners, estimated at four times number of new cars.
5. Fee replacement lost registration card, 50 cents.
6. Driver's license $1 fee.
7. Renewal fee—$1 for obtaining driver's white license card after blue or yellow card has been issued.

ALBERTA LOWERS LICENSE

Other provinces have been much more lenient in matter of taxes on motorists. Ontario, a few years ago, instituted a method of a flat license fee of $5, irrespective of kind or age of vehicle. This year Alberta has reduced licenses by $5, bringing such fees as much as $15 lower than here. Manitoba is now considering a plan whereby the license fee will be $2 and a large tax on gasoline, probably ten cents per gallon. This it is believed, will take revenue from the man who uses the roads.

California has a flat $3 fee for all cars, it is stated.

Another matter that is held unfair, concerns $10 registration fee for cars. Cars coming to Vancouver from another province or state and registering for the first time, are subject to this fee, it is said. Incidentally, British Columbia is the only province to levy this tax.

The transfer fee is another fly in the ointment, it is asserted by automobile men. This means that often a car is transferred four or five times a year. It is estimated that this brings in thousands of dollars yearly.

Then there is the driver's license taken out in order that he may operate a car. Contrary to most provinces, B.C. only demands age particulars for this, no attempt being made to ascertain if the applicant is a responsible driver.

BISHOP OF NORTH DIES IN ALBERTA

Msgr. Emile Grouard Succumbs at 91 After Long Missionary Career

Canadian Press

Edmonton, March 9.—Many in the north country were mourning to-day for a missionary who gave his life to the folk of the far frontier. After seventy years of missionary work in the Barren Lands, Msg. Emile J. B. M. Grouard, O.M.I., died Saturday at the age of ninety-one years. The white-bearded prelate spent the failing months of his active life at the little settlement of Grouard, 200 miles northwest of Edmonton.

From the sunny hills of Brulon on the bank of the Huisne in France he came seventy years ago to Canada.

For years he was a missionary while Bishop Toche was head of the St. Boniface, Manitoba, diocese. He went north to minister to the needs of the flock in the vast vicariate aposotolic of Athabasca, to which he was named in 1890, and he lived to speed from end to end of his ecclesiastical domain aboard airplanes, which have conquered the north.

HIS PIONEER WORKS

The life of Bishop Grouard—he was named Titular Bishop of Ibora—is a story of progress hard-earned. To Fort Chipewyan on Lake Athabasca on the edge of the Northwest Territories, he took the first printing press. With his own hands he set the Cree character type and printed 3,000 prayerbooks for the Indians who roam the barren stretches of the prairie provinces' hinterland.

On moosehide and deerskin, for want of canvas, Bishop Grouard painted the crucifixion and Biblical characters for the mission at Chipewyan. He carved, in fine woods, decorations for the little church at Grouard, his headquarters in the Peace River country. And as no other man he knew the dialects of the Indian tribes—Chipewyan, Dog Rib, Beaver, Yellow Knife, Nahani, Rabbitskin, Loucheaux and the rest.

FIRST RIVER STEAMER

He floated the first steamer on the Peace River, where men had "tracked" scows upstream by drawing them from the banks with heavy ropes. He made forced marches to starving people, plodded after dog-sleds to sorrowing families and paddled canoes to dying persons. He toiled through seven decades to become the beloved patriarch of the north.

Werchojansk, Siberia, has the record for the lowest temperature, the thermometer registering 90 degrees below zero on January 15, 1885.

WATER PROBLEM ON ONTARIO'S FARMS ENDED

March Snowstorm Sets People to Work Digging Out Highways

Canadian Press

Toronto, March 9—Fears of a serious water shortage on southern Ontario farms were dispelled over the week-end, dispelled as only Nature and the merry month of March could dispel them. The clank of the snowshovel came as music into the ears of farmers and the unemployed, for it snowed over the week-end. In fact, it snowed so hard in the district that it approached record proportions.

Away back in 1898, the early days of March brought a sixteen-inch snowfall, which tied up the traffic of that day completely. The snow drifted so high in rural districts that telegraph poles were almost concealed beneath the white blanket. And so it is to-day. From all parts of the province, but particularly the western portion of old Ontario, reports came in. "Highways blocked," "fences concealed," they said. "Deepest snow of many years," "traffic completely tied up." At the meteorological observatory here the weathermen reported eleven inches of snow in this area. In parts of the province it was even deeper than that.

MOVED FROM SOUTH

The storm was one of the imported variety. It hovered around the Mississippi Valley on Friday, and then suddenly pulled up anchor and set sail. It gave Chicago a few interesting hours, and then, gathering intensity, it swept into Ontario. Inches and inches of snow piled up and were blown helter-skelter by the northeast wind. When it thaws the water shortage will be over.

In general, highways were not absolutely impassable, but going was very difficult. The snow was soft, and the temperature relatively high.

Railways did not suffer from the heavy snowfall, and trains were on time. Street cars and radials were also able to keep moving. Telegraph and telephone wires were not broken down, and generally, the storm was not an "expensive one" in the light of damage caused.

HEAVIEST OF WINTER

Almost all southern Ontario cities, towns and villages agree, however, that the snowfall was the heaviest of the winter. Windsor, Sarnia, London, Ingersoll, Niagara Falls, Galt, Stratford, Kitchener and other municipalities were unanimous in their reports. So were Peterboro, Belleville, Oshawa and Brockville.

Vancouver Auto Driver Badly Hurt

Vancouver, March 9.—H. Friedman, 3310 Inverness Street, was in the Vancouver General Hospital to-day in a serious condition, suffering from a fractured pelvis, cuts, bruises and shock, received Sunday at 1.40 a.m., in an automobile accident at the corner of Tenth Avenue and Waterloo, according to a police report.

Officers say the car driven by Mr. Friedman was involved in a collision with another automobile. Mrs. Friedman and three passengers in the Friedman car received slight cuts and bruises and three passengers in the other car were also slightly cut by flying glass.

A sponge is the desired city of millions of little gelatinous animals that once inhabited it.

RAILWAY CARS RUIN BUILDINGS

Salineville, Ohio, March 9—Twenty box cars were derailed and damaged and two two-story brick and frame buildings alongside the Pennsylvania Railroad tracks here were destroyed when two cars hurtled into the basement of one of the buildings and upset a coal stove early yesterday. The damage was estimated at $100,000. No one was injured.

FIRE DESTROYS BUILDINGS IN QUEBEC TOWN

School and Homes in Notre Dame de Ham Are Ruined

Notre Dame de Ham, Que., March 9.—Fire which broke out in the schoolhouse partially destroyed this Wolfe County village yesterday and for a time threatened to demolish it. The school, five residences, a garage and many small outbuildings were razed, while two houses suffered heavy damage.

School children, commissioned to look after the school stove during the temporary absence of the teachers, are believed to have been negligent and started the blaze about 1 p.m. Fanned by a strong wind, it soon spread to adjoining buildings and hard work by all available was required to get it under control.

YOUTH FALLS DOWN MOUNTAIN

Vancouver, March 9.—John Upton, 6295 St. Catherines Street, Vancouver, fell sixty feet down a precipice at the top of Grouse Mountain, fracturing his right leg. The accident took place Sunday when Upton, his elder brother and a neighbor were on a hike.

A tree young Upton crashed against saved him from a fall of 300 feet that would have killed him.

It is reported the trio were about to take a picture. John Upton was climbing over the side of the mountain to reach a ledge when he slipped.

A rope was secured from another party of hikers and the injured youth was rescued from his precarious position. He was carried to the Grouse Mountain Chalet on skis. After the leg was put into splints he was taken by car to the Vancouver General Hospital, where to-day he was reported to be resting easily.

Everlasting Flowers

Preserved flowers are in vogue. "Everlastings" or straw flowers, dried grasses, combined with fresh greenery often make a most effective decoration at a minimum cost.

SNOW STORM IN OTTAWA REGION

Canadian Press

Ottawa, March 9—With Parliament opening so much later this year, balmy spring weather was indicated last week for the picturesque ceremonies next Thursday, when Mr. Justice Duff, administrator, will drive up Parliament Hill and read the Speech from the Throne to the two Houses. So often the crowds have waited in biting January and February breezes that the outlook was hailed as a pleasant change.

However, yesterday an easterly gale of almost blizzard proportions tore across the city. Instead of the fast disappearing snow, Ottawa had a new dash of winter and snowploughs were put to work to keep the sidewalks passable.

M.P.'S ARRIVE

Parliamentarians are arriving from the far west and the martimes, but the great influx will come Wednesday. Indications are that no caucuses will be called until after the Speech from the Throne has been read. No new members have to be sworn on this occasion as there have been no by-elections since the emergency session last fall.

There are two vacancies in the Commons, owing to the deaths of a Liberal and a Conservative, but no writs have yet been issued to fill them.

FOUR CHILDREN BURNED TO DEATH

Caribou, Maine, March 9.—Four children were burned to death, it became known to-day, when they were trapped in the blazing farm home of Robert Searles in Woodland, an outlying community northwest of here.

Word of the fire, which occurred yesterday, reached here to-day, when a fifth child, suffering from severe burns and exposure, was brought to a local hospital.

The victims were Robert Jr., fifteen months old, Caspar, three, Bertha, eleven, and Goldie, thirteen.

The fifth child, Marjorie, nine, sleeping in an upper room, was awakened by the flames and attempted to arouse the others. Failing in this, she jumped through a window to the snow below and walked in her bare feet one-half mile to a neighbor's home, where the alarm was given. She was severely burned on her arms and body before she escaped the blazing structure.

The fire occurred from an undetermined origin while Mr. and Mrs. Searles and two other children were attending church in the village. They returned home to find the house in ruins.

RELEASED FROM PRISON

Madrid, March 9—The government has released on parole six men implicated in last December's revolutionary plot. Those liberated are Commandant Antonio Jimenez, Captains Eduardo Medrano and Jose Garcia, Lieutenants Francisco Llopis and Ramon Loepez and a newspaper man, Narciso Molins.

CHILEAN SHIP WRECKED

Santiago, Chile, March 9—The destroyer Hyatt radioed the Ministry of Marine yesterday the naval transport Valdaivia, which grounded near Puerto Refugio, at the entrance of the Gulf of Ponas, Friday evening, was a total loss. The crew was safe on shore. The Valdivia was of 3,000 tons. The gulf is in the province of Magallanes.

24,000 BEING SET FREE FROM INDIA JAILS

New Delhi, India, March 9.—Under the terms of the recent agreement between Lord Irwin, Viceroy of India, and Mahatma Gandhi, 24,000 non-violent political prisoners will be given their freedom this week to begin the task of carrying out the Nationalist leader's pledge of peace.

Never before in the east were so many prisoners given their freedom at one time. The first groups of those who were arrested for their independence campaign were set free Saturday in various jails throughout the country. Five thousand others started home today and the releasing will continue daily until the prisons have been emptied.

This wholesale amnesty for none-violent politcial offenders will lift an enormous administrative burden from the shoulders of authorities as well as save the government the cost of feeding those confined.

TRADE AGENTS VISITING B.C.

Vancouver, March 9. — Eight young Canadians, soon to carry the trade banner of the dominion to far parts of the world as junior trade commissioners, arrived in Vancouver from Prince Rupert early this morning and will spend ten days between here and Victoria before returning to Ottawa.

H. "Les" Brown, a Vancouver boy who was formerly a school teacher and who is slated to go to Mexico City, and A. K. Doull of Vernon, whose first billet is to be in Tokio, are the British Columbians in the party.

SANTO DOMINGO SCENE OF MURDER

Santo Domingo, Dominican Republic, March 9.—Manuel de Jesus Gomez, an attorney and a member of the land tribunal, was shot to death Saturday evening at a reception in the home of John Abbes, Argentine Consul, by Marino Cestero, assistant to the secretary to the President.

The slain official was president of the Union Club and was consul for Czechoslovakia.

10,000 HOMELESS ON MAURITIUS

Port Louis, Mauritius, March 9.—Eleven persons were killed, many injured and 10,000 left homeless in the hurricane which swept this island last week.

Property damage in some districts was very heavy and there will be serious losses in the sugar crop.

Vancouver Thug Knocks Woman Down; Robs Her

Vancouver, March 9.—Three women were attacked by purse snatchers in Vancouver Saturday evening, one of them being knocked to the ground, police records show.

Mrs. J. S. Sills, Roslyn Rooms, Seymour Street, told police two men approached her Saturday night in the 900 block of Jervis St. Suspicious of their actions, she commenced to run. One of them threw himself on her back, knocked her down and snatched her purse, which contained $4.87.

Mrs. A. Harwood, 2036 Triumph Street, had her purse, containing $4, snatched at 7.45 p.m. Saturday at the corner of Semlin Drive and Dundas Street by a young man.

Early Sunday morning Mrs. M. Granville, Granville Mansions, Robson and Granville Street, was victimized by a purse snatcher at the corner of Howe and Robson Street. The man obtained $55.

Miss A. McLean, 4008 Hastings Street E., reported her pocket picked of $2.90.

A quantity of jewelry was stolen by burglars, who entered the home of M. Waters at 124 Thirteenth Avenue West.

FOUR MOTORISTS KILLED

West Haven, Conn., March 9.—Four persons were killed and three injured early to-day when an automobile crashed into a tree on Milford Hill. Those killed were Joseph McGrail, New Haven, E. M. Gormley, New London, and two unidentified persons. The injured are Leonard G. Luft, New Haven; James Vitola, New Haven, and John J. Marlowe, New Haven.

CANADA AT BUENOS AIRES

SOME INDICATION OF THE ENERgetic manner in which Canada is going after the trade of Latin America is reflected by the fact that at the British Empire Exhibition which the Prince of Wales will formally open at Buenos Aires next Saturday no fewer than fifty-two Canadian firms will be showing their wares. In addition to this evidence of the Dominion's productive capacity and enterprise, Canada's interests will be well looked after by the large and representative delegation of businessmen who left Halifax on the Canadian National Steamer Prince Robert last month. The party is headed by Sir George Perley as the official representative of the Canadian Government, and its members, of course, will be present at Saturday's opening ceremony.

The Canadian Pavilion, designed by and constructed under the able supervision of Canadian Government Exhibition Commissioner J. Oscar Turcotte, will, in addition to housing a fine display of comprehensive Canadian products, also contain a collection of paintings from the National Art Gallery at Ottawa. In other words, the cultural as well as the industrial phase of Canadian life will be presented to visitors to the exhibition in a striking fashion. Canada's enterprise, by the way, would appear to be in marked contrast with that of Australia, as on the last report only one firm from the southern Dominion had applied for space. This, of course, is Australia's business; but that country's economic condition suggests that new markets for its products are urgently needed.

Up till now Canada has not secured the share of South American trade which she is entitled to expect. Unquestionably this is principally due to the fact that it has not been gone after as seriously as it might have been. Good times are apt to dull the ardor of the business concern as well as the individual. But the need for new business never was more insistent than it is now. The visit of Mr. F. C. T. O'Hara, Deputy Minister of Trade and Commerce, to Latin America in 1927, however, produced valuable proof that a fine trade field existed in that part of this continent for Canadian business development. On that occasion Mr. O'Hara visited twelve countries and had the honor of being received by nine presidents and many government officials as the representative of Canada. His tour, incidentally, had several important direct results, including the establishment of a regular steamship service from this country to Brazilian and Argentine ports.

Canadian participation on so large a scale at the exhibition which will be opened at Buenos Aires next Saturday, therefore, may be regarded as an indirect result of Mr. O'Hara's tour and his subsequent efforts to impress upon Canadian manufacturers the opportunities for trade expansion which are offered in South American countries. As Minister of Trade and Commerce in the King government, it will be remembered that Hon. James Malcolm developed trade extension policies which were very largely responsible for the growth of Canada's foreign trade in recent years.

One of the interesting features visitors to the Buenos Aires exhibition will witness will be a spirit of friendly rivalry between Canadian and British industrial producers. While the degree to which this will be obvious may not be very considerable, those who are unfamiliar with the manner in which Canada has progressed along manufacturing lines may be surprised at the formidable competition she now is able to put up against older industrialized nations.

WHICH IS WORSE?

THE MORNING PAPER REturned to its criticism of Canadian National Railways finances in a long article yesterday in which it complained particularly of the deficit of the system this year, which it estimated at $40,000,000, and the total cost of the system to the Canadian people since 1928 which it placed at $200,000,000. It attacked what it regarded as waste in unnecessary duplication of services given by the Canadian Pacific Railway and general extravagance, and declared "any policy decreed on the basis that expenditures do not matter because only the taxpayers' money is affected should be put a stop to at once."

Whatever may be the actual situation in regard to the finances of the Canadian National Railways—and it is infinitely better than it was a few years ago—may we suggest that our contemporary would be on much stronger ground if it directed some of its criticism, particularly just now, at the finances of the Tolmie government, instead of approving its record of extravagance, duplication and waste, in contrast with which the administration of the Canadian National Railways is the limit of perfection.

The Canadian National Railways deficit of $40,000,000—assuming that figure is correct—is borne by 10,000,000 people. This amounts to four dollars per capita for the year. The deficit of the provincial government, which is at least $5,000,000, is borne by the 600,000 people of British Columbia and therefore amounts to at least eight dollars per head for the year. If the Canadian National Railways management rolled up deficits like the Tolmie government, of which the morning paper seems to approve, the shortage this year would be $80,000,000 instead of $40,000,000.

Again, our contemporary complains that the Canadian National Railways have cost the Canadian public $200,000,000 since 1928. That works out at twenty dollars per capita for the three years, or slightly under seven dollars per capita a year. The provincial government has spent $110,000,000 since 1928, which amounts to $183 per head for the three years, or $61 per head a year. Why, therefore, attack the Canadian National Railways administration and approve the administration of the provincial government? Charity to the taxpayers ought to begin at home. We certainly need a reform in the administration of our own provincial finances, the whole burden of which must be borne by our own provincial population, more urgently than we do in the administration of the finances of the national railways system, the burden of which is borne by 10,000,000 people.

We note, too, that Mr. Bennett at Ottawa is about to uncork a breezy little deficit of his own, amounting to more than $100,000,000, probably apart altogether from that of the Canadian National Railways, to be followed by new taxation. Will our Tory friends who do not like the administration of the national railways, but approve of that of the Tolmie government, also applaud the Bennett government's financing?

GET ON THE VOTERS' LIST

UNTIL APRIL 4 ALL THOSE ELIgible to vote at a provincial election will be able to get their names on the voters' list if they are not already on, or to make sure that they have not been removed by mistake. The necessary forms, together with a copy of the old list of voters' names, are at the court house on Bastion Street where an official will attend to all who wait upon him.

Many people who have not taken the trouble to get on the voters' list are manifesting a new interest in provincial affairs now that the prospect of higher taxation, as promised in the Tolmie government's budget, is staring them in the face. It is a sad commentary on our electoral system that the only thing which stirs the interest of many of the electors is a raid on their purses. It does not occur to them that they might have avoided many taxes if they had taken more interest in what is, after all, their own business.

It has been truthfully said that we get the sort of government we deserve. People who are qualified to vote and neither get on the voters' list nor vote if they are on it, have no cause whatever to grumble if they do not get the sort of government they like, no matter how high that government may choose to tax them.

There seems to be an attempt to stampede the government into a decision on policy on the fruit marketing legislation before the Committee on Agriculture has completed its inquiry and presented its report. The proper attitude for the government to take is to await the report of the committee. All it should concern itself with is the most effective way of profitably marketing the fruit crop, mainly from the standpoint of the growers.

• • •

In 1929 the majority of the electors of British Columbia got rid of the MacLean government because they thought it was "time for a change." Last year they got rid of the King government, largely for the same reason. They had their "change" but did not hold it long. It is being absorbed by the two governments—and it is not "small change" at that.

WHAT OTHER PAPERS SAY

REDUCTION OF WHEAT ACREAGE

The Providence Journal

Limitation is obviously the proper procedure to adopt when it has become clear that other wheat-producing countries, thanks to virgin land and cheap labor, dominate the world wheat market and that American wheat growers must consequently depend mainly on the domestic market for distribution of their crop.

Twenty-five Years Ago To-day

The Victoria Daily Times, March 9, 1906
(From The Times Files)

The report of the majority on the Kaier Island investigation presented as the views of the Conservative members of the committee is now available. The members of the commission who endorsed this majority report have, it is conceded, subscribed to something which went too far in its praise of the bargain made.

• • •

At last evening's monthly meeting of the Victoria Board of Trade a report was submitted by the special committee on pilotage. It included some interesting recommendations, all of which were passed without opposition.

• • •

The new steamer Indianapolis is now at Moran Bros.' shipyards, Seattle, while oil tanks are being installed. The vessels in the fleet of the Alaska Steamship Company are all being converted into oil burners, and it was recently decided to change the fuel on the steamer Indianapolis before she went into commission on the Victoria and Seattle route.

• • •

The steamer Queen City arrived from the west coast of Vancouver Island last evening, bringing thirty tons of whale products from the Pacific Steam Whaling Company's station at Sechart.

• • •

A largely-attended meeting of the Victoria Board of Trade was held this morning with the object of conferring with Hon. William Templeman, Minister of Inland Revenue, on matters of importance to Victoria and vicinity.

• • •

Weather Forecast—Victoria and vicinity: Decreasing easterly winds, becoming warmer and unsettled, with snow to-night or Tuesday.

Across The Bay

What happened across the Bay last week brings deep gloom out our way—But some profound wisdom on the science of government—And sturdy patriotism from Mr. Pudbury.

By H. B. W.

WE ARE simple, rustic folk out our way. What we think about what they do in the great hall of legislation across the Bay is of no concern to its mighty inmates. Nor can it be of much interest to the more enlightened public of the city. But unfortunately it is all I have to offer after a week-end away from the inspiring presence of our lawmakers, and in the uninspiring presence of my poor neighbors in the country.

• • • •

ORDINARILY THERE is no connection whatever between my neighbors and the Legislature. My neighbors are content to leave it alone if it will do as much for them. But the Legislature last week failed to leave them alone. It decided to tax each and every one of them. So out our way, for the first time, the Legislature has become something very real and personal, and as we are such simple folk we are deeply distressed at the prospect of being taxed. In the city where everyone, I suppose, is eager to pay the new tax, you will scarcely credit it, but my poor neighbors are quite upset. The prospect of paying $10 or $12 a year into the provincial treasury has made them feel so poor, indeed, that I am sure they will reduce their general purchasing at the neighborhood store down the road by at least $100 each. In this way they will be the richer by some $90 a year, as a result of the government's beneficent action, but even at that they don't appreciate it. I ask you to remember that we are simple folk out this way.

• • • •

WE SPENT most of the week-end talking about the new tax. Down by George Pudbury's barn, sitting on his rail fence, we discussed it in great detail and with profound thought, Mr. Pudbury, Mr. Whiffleton, Mr. Beak, old Mrs. Glumby and I. Mrs. Glumby, it seems, had been laboring under a comforting delusion. Not being much of a hand at figuring out percentages, she had estimated that 1 per cent of her husband's usual income of about $1,000 a year would be only $1. She said this was enough, but she supposed she would have to pay it. But she added confidentially that she would be blowed if she would pay a cent on her income from the sale of eggs on the side. She would give up selling them first. When Mr. Beak informed poor Mrs. Glumby that her arithmetic was slightly in error, just slightly, mark you, and that her tax would be $10, not $1, I thought the dear old soul would expire. She was dumb with amazement, but not for long.

• • • •

"WELL," SAID Mrs. Glumby, her large face very red and her breathing very hard, "so they're a-goin' to charge me $10, heh? Ten dollars! Why, do you realize that means three new hats and maybe four, if there's a bargain sale? That means I gets four less 'ats a year, no less! (Which was startling but not quite true, for Mrs. Glumby's habit is to buy one new one every four years. The red roses on the last one have faded into white lilies long ago). "Why," pursued Mrs. Glumby, getting more mathematical and breathing harder every moment, "what do I get for me $10, heh? The right to look at the gover'ment, I s'pose. Do you know I could go to the movie pitchers twenty times—twenty times, mind—for that $10 and see something worth looking at? Well, all I say is that when it comes to an helection, when it comes to choosin' between one look at a gover'mint and twenty looks at Ronald Coleman or one of them jolly movie fellers it won't trouble me none to choose which! Why, no gover'mint ain't worth the price. I'd ruther do without and save the money." With which Mrs. Glumby waddled home in deep distress to tell Mr. Glumby the bad news.

• • • •

MR BEAK was also annoyed. He vowed a mighty oath, his upper and lower plates moving laterally in opposite directions, a sure sign of high emotion, that come what might, and regardless of all consequences, he would be gosh-well-ding-busted if he didn't go out at the next municipal election and vote against Councillor Wriggledown. The logic of this was not quite clear, since Councillor Wriggledown had nothing to do with the tax. But Mr. Beak said sagaciously that Mr. Wriggledown would be the first one to come up for election and would have to take the consequences like a man. For to our rustic minds, Councillor Wriggledown, even though he has never seen the Legislature, symbolizes government in a mystical sort of way, and it is our custom to take all our grievances against all governments, imperial, federal and provincial, out on him. I fear for poor Mr. Wriggledown's re-election in our ward.

• • • •

MR. WHIFFLETON, by a masterpiece of reasoning, finally proved that there was a direct and inseparable connection between Mr. Wriggledown and the new tax, which we had not suspected. He was referring, of course, to our old grievance, the failure of Councillor Wriggledown to put three loads of gravel on our road where it is going to pieces. For the tax of $15, which would be levied on him, Mr. Whiffleton said, it would be possible to put at least five loads of gravel on our road. But instead of that, he would pay the $15 and there would be no gravel at all. Mind you, Mr. Whiffleton, with remarkable generosity, said he didn't mind paying the $15. He hoped he was ready, as a citizen, to do his duty, but felt he should get some return for it, and surely three loads of gravel wasn't much.

• • • •

WE DIDN'T bother to point out that if he didn't mind paying $15, he could easily have put five loads of gravel on the road at his own expense at any time in the last five years. But then, of course, that would have been a violation of our principles, out our way. According to our principles, Councillor Wriggledon should put the gravel on our road, and we would rather have the privilege of voting against him than doing it ourselves. Anyway, once the connection between the three loads of gravel and the new tax became apparent, our wrath was a terrible thing. As a crowning protest Mr. Beak said he might run for the Legislature himself, an awful threat.

• • • •

ANOTHER THING that annoyed Mr. Whiffleton excessively was that no allowance was made in the new tax to cover a man's children. But he did not suggest, as you may suppose, that the parents of children should pay less, but more. What was needed, he said, was an extra tax on parents for the wear and tear of their children on the community as a whole, and he looked very hard at the young father of the little girl next door. And as we all know that the little girl next door invaded the Whiffleton garden yesterday and picked the yellow crocus blooms, of which Mr. Whiffleton is so proud, and brought them excitedly to Mr. Whiffleton, all squeezed in her pockets along with her poker chips, playing cards and green candles—as we knew what had happened to Mr. Whiffleton's spring crocus blooms, we agreed that the tax was most unfair.

• • • •

MR. PUDBURY had been silent through all this. At last he said solemnly that we were wrong. We should be proud, he said, to pay our taxes and should pay them like Britishers and men. Anyway, he said, everybody who paid $10 to the government would get it from somebody else and that person would get it from the next fellow, and in the end we should be just where we were before. Every dollar paid into the provincial treasury would come back somehow, somewhere. It wouldn't be lost. ("A dollar in the hand is worth ten in the treasury any day," said Mr. Beak, gloomily). Well, said, Mr. Pudbury, we must pay our bills and do our duty. "For," added Mr. Pudbury magnificently, "you got to remember that civilization like we got here (he waved his hand vaguely at the green fields and his tumble-down barns and our road all full of holes) "what you might call high civilization like we got here, comes expensive." You have got to admire the sturdy patriotism of Mr. Pudbury. But you should not overlook the fact that, as a farmer, he knows he is exempt from the new tax.

Forecast

Victoria and vicinity for 36 hours ending 5 p.m. Tuesday: Moderate to fresh southerly winds, partly cloudy and mild with showers.

Football Crowd Storms on Field In Mainland Game

Vancouver, March 9.—Barley able to finish the game owing to the antics of a wild crowd which surged on the field in the last ten minutes, Point Grey United eliminated the champion B.C. Telephone eleven of the Second Division, in the second round of the Province Cup football series at Cambie Street grounds Saturday afternoon. It took fifteen minutes to clear the field after more than a 1,000 people had rushed on the ground when a fight threatened. The score was 2 to 1. Renfrew Argyles accompanied Point Grey into the semi-finals by defeating Regents, 1 to 0 in overtime at Wilson Park.

St. Andrew's will play New Westminster at Con Jones Park and South Hill Canadian Legion will travel to Victoria to meet the Esquimalt eleven in the two remaining second round games.

Varsity Defeats Adanacs in First Game of Play-off

Vancouver, March 9.—University of British Columbia won the first game of the final series for the championship of the Vancouver and District Basketball League by defeating New Westminster Adanacs, dominion champions, 17 to 11, here Saturday evening. The series is best three out of five games.

GREAT CENTRAL

Special to The Times

Great Central, March 9.—Mrs. E. Demens was a bridge tea hostess recently, when guests included: Mrs. J. A. McMillan, Mrs. F. G. Weaver, Mrs. D. R. Kelly, Mrs. C. E. Cook, Mrs. J. Dalton, Mrs. G. Stocker, Mrs. Harry Carter, Mrs. W. W. Stevens, Mrs. Bruce Farris, Mrs. C. Y. Robson, Mrs. B. Mann, Mrs. Dick Walsh, Mrs. H. Hadley and Miss Gertrude Ponsford.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the preservation or return to the writers of communications submitted to the Editor.

REGISTER NOW

To the Editor:—The budget is bound to arouse public interest in provincial affairs, to a much greater extent than has heretofore prevailed. It is not beyond the bounds of probability that a provincial election might be hastened thereby.

Should an election be the outcome, there are thousands of people not on the voters' list; they would be unable to express their views. This seems an opportune time to advise all citizens to make certain that their names are on the provincial voters' list. Applications for registration for the current year closes on April 6.

DAVID RAMSAY.

Victoria, B.C., March 6, 1931.

GILBERT K. CHESTERTON

To the Editor:—Mr. Chesterton's visit to Victoria on Wednesday evening is an event of great importance to all who are interested in the things worth while.

In every city throughout the United States, Mr. Chesterton has been received by thousands of admirers of his writings. Chesterton is the critic of large things, and is easily the greatest spiritual and democratic force in the world to-day.

In a world of change, he stands for discipline and order. Whether we agree with him or not, he compels thought, and always commands respect.

Citizens of Vancouver Island should not lose the golden opportunity which is theirs to hear Mr. Chesterton. Throughout his tour of the United States, Chesterton, the "English Crusader," has conducted a campaign which rivals in its influence and interest that of Whitfield and Moody.

Whether as poet, dramatist, author, journalist, humorist, debater or lecturer, he has no peer in the British Empire.

Following his own suggestion in a wire received to-day, Mr. Chesterton will speak on "The Ignorance of the Educated."

HARRY LANGLEY.

THE ESQUIMALT BEER PARLORS

To the Editor:—Would you kindly allow me space in your valuable paper to express my appreciation to R. B. Punnett and his colleagues for the stand they are taking on the above subject. I hope they will get the support of all right-thinking people in Esquimalt, that have the interest of their homes and the municipality at heart. Apart from the objectionable aspect of beer parlors, it vitally touches the pockets of the ratepayers to the tune of over $1,400 per year for policing, directing traffic, etc., at these parlors. During summer months thirty-five per cent of the traffic on Esquimalt Road goes to the beer parlors, and the upkeep of the roads is up to the ratepayers, for which we receive not one cent. But what we do receive is the stigma of being the dump for boosefighters and adjoining municipalities, and the charm of it is the ratepayers take it all lying down. They don't realize the harm it does to the value of their property, for as long as these parlors are tolerated, Esquimalt will continue to be what it is, "just a dump." I will also say that we have building sites in Esquimalt equal to any Oak Bay or the city can produce, and lots of inquiries for them, but when prospective buyers come to know the conditions here, it is all up. In conclusion I would say to the ratepayers of Esquimalt, get out of this somnambulist state and support the gentlemen that are trying to get this hoodoo removed. Also for them to take an interest in the affairs of the municipality, let us form an organization to check up on these people who are paid for and supposed to conduct the affairs of the municipality. It is no use keeping the grouch until you get your tax notice. Do it now.

A TAXPAYER.

671 Drake Avenue, Esquimalt, B.C.

BEATING THE INCOME TAX

To the Editor:—Here are a few ways to beat the new one per cent income tax. To the $15 per week girl, cut out one show per fortnight, one dance per month, or go easier on cosmetics and finery. To the $15 per week youth, cut out one show per fortnight, one dance per month, or go easier on cigarettes and tobacco.

To the higher paid ones, providing the foregoing do not apply, leave that nice car at home one day per week and walk to work, and like it. If too feeble to walk, by virtue of many years on car cushions (and office cushions), take the street car and help the transportation company to pay its heavy taxes. There is one automobile to every five persons in B.C., so few have an alibi. Consider the extra parking space available for those who have real business in the city. There is one fault in this new tax. It is common knowledge that for some years past our modern girls have been taking husbands and yet holding down their jobs, to the detriment of our up and coming girls. Such a young couple, drawing $150 per month and having no family, nor ever likely to have, is taxed but $12 per year. The married man earning $150 per month and having to provide for a raft of children pays $18 per year. The government is missing something like $30,000 per year over this astute arrangement, and the honest man is losing about that much. Otherwise, the tax seems to be O.K. If we live beyond our income we have to pay the shot. Micawber found that out long before Mr. Jones did.

The grumblers should be set back twenty-five years in an old hay-wire buggy on roads hub-deep in mud, with the we" and old oaken bucket anything from 100 to 500 yards from the humble shack and coal oil lamp.

If these simple economies don't nullify the tax, shut off that radio occasionally, and we may even have time to figure out just who really did win that blamed war.

WALTER FOSTER.

Colquitz, B.C.

Leave Your Glasses at the Office ON PURPOSE

There's one good way to beat the game of "runaway glasses"—the kind that are at the office when you're home and somewhere else when you are at the office.

Have two pairs — one for home and one for the office—let them stay there. It means fewer "special trips." Less hunting. Stop in and let us make you an extra pair.

George Simpson Winner of Dash In New Zealand

Christchurch, N.Z., March 9—Despite the handicap of a strained tendon, George Simpson, former Ohio state flier, won the 75-yard scratch event of an athletic programme at Lancaster Park here yesterday. He ran the distance in 7 2-5 seconds to beat two native runners, Jenkins and Leadbetter.

Rufus Kiser, Pacific Coast middle-distance runner, finished second to Bayne of New Zealand in a 4.20 mile. Harlow Rothert, giant weight man from Stanford, easily won the shot put with a heave of 50 feet 6¼ inches.

CHESTERTON WILL SPEAK THIS WEEK

Brilliant English Essayist Will Appear Here Wednesday Evening at Royal Victoria

The announcement that Gilbert K. Chesterton, the famous English essayist, novelist, dramatist and poet will lecture in Victoria during his forthcoming lecture tour has aroused widespread interest. Mr. Chesterton has arranged to speak at the Royal Victoria Theatre on Wednesday of this week. His subject will be "The Ignorance of the Educated." Mr. Chesterton has selected his own subject.

This is a topic which will afford wide scope for Mr. Chesterton's brilliant qualities as a lecturer, and it is also one that has a decidedly popular appeal. Because of his world-wide fame he is certain to be greeted by a large audience. As a platform speaker he excels, by reason of his rare wit, striking originality and versatility. He has been termed the master of epigram and paradox.

Mr. Chesterton is making his second visit to America and the indications are that he will create as much stir as he did some years ago, when even the highest halls failed to accomodate the crowds he attracted. No man in Great Britain to-day is more admired than this profound thinker and inspiring philosopher. His popularity as a writer is shown by the fact that his essays and stories reach millions of English readers through newspapers, weekly publications and magazines. They are also bought with avidity in book form.

By some of his admirers this genial, broad-minded genius has been pronounced more deep than Carlyle, as great as Tolstoy or Ibsen, bigger than Maeterlinck or Bergson, and as a prophet larger in every respect than Bernard Shaw, H. G. Wells or Arnold Bennett. Both as a speaker and writer he is an acknowledged master of English style. Commenting on this, Bernard Shaw said recently: "Mr. Chesterton's words have to mean something to him before he can use them, whereas to the average Englishman they are only noises to express high spirits or ill humor, as the case may be."

Princess Juliana, only daughter of Queen Wilhelmina, and heir to throne of the Netherlands, is reported engaged to Prince Wilhelm von Erbach-Schonberg, scion of one of the most ancient royal houses of Europe, tracing ancestry directly to Charlemagne.

Operetta Will Be Presented Friday At Memorial Hall

On Friday evening at 8 o'clock an operetta will be given in the Memorial Hall by students of the Victoria School of Expression under the auspices of the Christ Church Cathedral Women's Parish Guild. More than forty young girls and boys will take part. The operetta is very tuneful, the music having been written by C. Egerton Lowe, an examiner for Trinity College of Music, London, Eng., who has been twice in Victoria in recent years. Songs, recitations and dances are introduced, as well as charming incidental numbers. The dances have been arranged by Miss Dorothy Cox, and the whole programme is under the direction of Mrs. Wilfrid Ord.

TOUR OF PRINCE

Mars del Plata, Argentina, March 9—The Prince of Wales came here aboard a special train from Buenos Aires to-day for a private visit until he returns to the capital next Saturday to inaugurate the British Empire Trade Exposition.

THIS DOCTOR NOT AFRAID OF THE 'FLU

Dr. Robt. G. Jackson says positively colds, 'flu, pneumonia will not attack him. He says: "For everyone protection is only a matter of properly developing their natuarl defences," as he directs in his book "How to Be Always Well." Formerly, he had colds winter and summer, but he had his last cold in 1913 and declares he will never have another. He escapes by keeping his blood alkaline through eating alkali-forming foods, proper care of the skin, proper breathing, exercising, clothing, etc., but the chief thing is alkaline food. His chief protective food in alkali-forming Roman Meal (the only alkali-forming food made from grains), helped out by other alkaline foods listed in "How to Be Always Well." Eat Roman Meal and write for his free booklet, "HOW TO KEEP WELL," and other literature, also sample of Roman Meal and Kofy-sub, the new alkaline beverage, to ROBT. G. JACKSON, M.D., 507 Vine Ave., Toronto 9, Ont. (Advt.)

CANADIAN TRADE MISSION PAYING VISIT TO BRAZIL

By CLAUDE MELANCON

Pernambuco, Brazil, March 9.—Greetings on behalf of Canada and Canada's business men were extended here Saturday to S. Licio Marques, president of the Pernambuco Chamber of Commerce, by Rt. Hon. Sir George Perley, minister without portfolio in the Dominion Government, and J. H. Woods, president of the Canadian Chamber of Commerce, leading members of the Canadian trade and good-will mission to South America.

Visitors from the northern continent talked over trade possibilities between Brazil and the dominion and were told there was a considerable market available here for apples, flour and canned and manufactured goods.

After five hours in Pernambuco, the Canadian national steamship Prince Robert, on which the mission is traveling, continued on its journey to Montevideo, Uruguay, where it is due on Thursday, the vessel meanwhile skirting the coast of Brazil for four and a half days.

Sons Are Hosts To Fathers At Victoria West

A successful father and son banquet was held in Victoria West United Church on Friday evening. A sing song followed the banquet with Miss Delia Hollins acting as accompanist. Later toasts were proposed with Russell Watson officiating as toastmaster. A highly-appreciated piano solo was given by J. T. Flitcroft, while an amusing ventriloquial entertainment was presented by "Yorky." James Baker gave a Yo-Yo demonstration. A pleasant feature of the evening was the presentation of a bouquet to Mrs. Hadland, who has assisted her husband on several occasions in giving lantern entertainments. On behalf of the boys and their leaders Mr. Caley thanked those who had contributed to the success of the gathering.

Scots Poet King Address Subject For Burns Club

The Burns Club will be addressed by William Mackay, M.A., to-morrow evening in the Chamber of Commerce Auditorium on the interesting topic, "James the First, Poet King of Scotland."

The dramatic circle of the club will present a humorous play entitled "The Pie in the Oven," and Mr. Marr, of Vancouver, will give vocal selections.

Members are reminded that nomination of officers for next season will be filed at this meeting.

LABOR WINS BY-ELECTION IN SYDNEY, N.S.W.

Canadian Press Cable Via Reuter's

Sydney, New South Wales, March 9.—The East Sydney by-election is over and the results, announced on Saturday, reflected a losing victory for the Labor Party. Ward, the Labor candidate, won, with 19,192 votes against 15,285 for Courtenay, Nationalist, but his majority of less than 4,000 votes looked small beside the 13,000 majority obtained by Labor in East Sydney at the last general election.

Every member of the state cabinet of Premier J. T. Lang spoke for the candidate, but the federal cabinet and federal members kept out of the campaign. The platform was Premier Lang's inflation and debt-repudiation policy—a policy which is repudiated by every other state premier and the Federal Labor Party, despite the fact that Mr. Lang is nominally a member of the party.

Premier Lang expressed satisfaction at the result.

MURDER IN MONTREAL

Montreal, March 9.—Stabbed in the head and strangled, Cecile Mondor, aged twenty-eight, was found dead here yesterday. Police arrested a man named Warren, whom they held as a suspect in the crime. Warren was said by police to have been the girl's sweetheart.

SMART WEDDING IN VANCOUVER

Miss Mollie Birch, Well-known Here, Wed to Edward C. Petley

A wedding of much interest to local friends of the bride was solemnized on Saturday morning at 11.30 o'clock at St. Paul's Anglican Church, Vancouver, when Vere Lilian (Mollie), only daughter of Mrs. Birch and the late Major C. W. Birch, was united in marriage to Mr. Edward Carter Petley, eldest son of Mr. and Mrs. C. R. C. Petley of Lausanne, Switzerland, formerly of London, Eng.

The ceremony was performed by Rev. Canon King. Palms, ferns and Oregon grape formed the background for clusters of daffodils and narcissi, making a charming setting for the event.

Given in marriage by her brother, Mr. J. T. Birch, the bride wore a model frock of champagne-tinted Venetian lace and soft-toned crinkled ninon. The long-sleeved bodice and scalloped hip yoke of lace were form-fitting, a narrow belt marking the waistline, while the skirt, falling to ankle length, was fashioned of ninon cut circular and bordered with a wide band of lace. Her picture hat was of transparent mohair of a slightly deeper tone, a narrow wreath of French flowers in Du Barry colorings encircling the head line of the crown at the back and forming a bandeau beneath the brim at the front, while an arm bouquet of Talisman roses tied with cell bleu ribbon completed her wedding attire.

Her only attendant was Miss Beatrice Bartram, who was wearing a Deja model frock of robin's-egg blue flat crepe fashioned with flared skirt and falling to ankle length. The coatee was cut with a peplum in the prevailing mode, while the dainty white voile blouse was finished with a fichu hand-embroidered collar. Her picture hat was of self-toned straw in basket weave, ornamented with white organdie flowers, and her sheaf bouquet was composed of spring flowers tied with streamers. Mr. Walter Roberts acted as groomsman, while the ushers were Mr Arthur Procter and Mr. John Roberts.

During the signing of the register, "O Promise Me" and other appropriate music was rendered on the organ by Mr. Stanley Bligh, who also played the wedding marches on the arrival and departure of the bridal couple.

Following the ceremony, a reception was held at the residence of Mr. and Mrs. A. J. Greathed, Mrs. Birch receiving in a handsome gown of black Chantilly lace in combination with chiffon. Her hat was of black mohair with a transparent lace brim ornamented with a narrow band of velvet and two small gardenias, and she wore a corsage bouquet of Claudius de Pernet roses.

The table, spread with a cloth of Maltese lace, was centred with a three-tier wedding cake ornamented at the top with a small silver vase filled with lily of the valley, while crystal bowls contained orchid-tinted tulips and silver candlesticks holding white tapers lighted the table.

Following the reception, Mr. and Mrs. Petley left for their wedding journey, which will be spent at Santa Barbara. They will remain in Victoria for a short period en route. The bride's traveling frock was a smart imported Patou tailleur model of French-patterned twill, in soft fawn shades, the underblouse of eggshell crepe de Chine while her hat of soft-toned, hand-woven straw was worn off the face and ornamented with a narrow brim binding of spring green ribbon and a small pheasant feather mount. A beige fox fur and matching accessories completed the ensemble.

Upon their return, Mr. and Mrs. Petley will reside in Vancouver.

News of Clubwomen

P.T.A. Bridge Tea—A bridge and whist drive under the auspices of the James Bay Parent-teacher Association, will be held in South Park School on the evening of Friday, March 13, commencing at 8 o'clock. Prizes will be given for both games and refreshments will be served.

Concert Aids Solarium—The directors of the Queen Alexandra Solarium gratefully acknowledge the sum of twenty-five dollars received from Mrs. A. W. Stokes, 336 Arnold Avenue, being the proceeds of the concert given by Mrs. Stokes, assisted by Miss Allan, Messrs Tait and Hicklin, in the Shrine Auditorium on February 27.

Daughters of England.—The social meeting of Lodge Princess Alexandra No. 18, D.O.E., was held on Thursday in the S.O.E. Hall, Worthy Sister Gorton, president, in the chair. Worthy Sister Stevenson, president of Lodge Primrose No. 32, D.O.E., extends a hearty invitation to officers and members of Princess Alexandra Lodge to a silver tea at her home, 1617 Burton Avenue, on March 17, in aid of the special fund. Mrs. C. Smith will hold a card party at her home on March 23 at 2 o'clock in aid of the needle work division. The tombola prize was won by Mrs. B. Bowman, 568 Cecilia Street, ticket 381.

Cramer, Mrs. Hunt, Mrs. Youell, Mrs. Bird, Mrs. Burridge, Mrs. Ralph, Mrs. David Gay, Mrs. Nora Johnson, Miss Mary Cramer and Miss Beatrice Griffin assisted at the tea table.

* * *

To-morrow evening the Empress Hotel will hold another of its popular mid-week dances, which will be staged every Tuesday and Thursday evenings in the ballroom. To add an intimate touch to the occasion, a part of the ballroom will be covered with rugs and arranged with lounge chairs and flowers, making a charming sitting-out rendezvous for dancers and a comfortable point of vantage for those who prefer the role of spectator. Dancing will be from 8.30 to 11.30 o'clock, and the hotel orchestra of five pieces will provide the latest dance music.

* * *

A very enjoyable evening was spent on Saturday night at the home of Mr. and Mrs. W. Swire Mitchell, of 15 Beach Drive, the occasion being the celebration of the birthdays of the host and hostess. Four tables of bridge were in play and the room was prettily decorated in green, with fuchsias, roses and lilies for floral decorations. The host and hostess were the recipients of many tokens of esteem from the guests, who included Mr. and Mrs. A. Youngman, Mr. and Mrs. A. Wyllie, Mr. and Mrs. Moorhouse, Mr. and Mrs. H. Mattock, Mr. and Mrs. Harvey Bole, Mr. and Mrs. J. P. Sinnott, Mr. and Mrs. Hills, and Mrs. T. Hale.

* * *

Mrs. W. C. Smith, Yates Street, entertained recently at a delightful little party. Miss Gay Doncaster gave several selections on the piano. During the evening various games and contests were enjoyed by the guests, the winners of these being Mrs. A. Hockley, Mrs. A. Manson and Miss Winnie Dodd. Dainty refreshments were served by the hostess, the shamrock motif being carried out in the table decorations, which was also centred with a beautiful bowl of vari-colored crouses and greenery. Among those present were Mrs. Hooper, Mrs. Manson, Mrs. Hockley, Mrs. Dodd, Mrs. Carter, Mrs. McDowall, Mrs. Doncaster, Mrs. Smith, and the Misses Lucy Bennallack, Gay Doncaster and Winnie Dodd.

The many friends of Mr. F. W. Reeves, 1176 Oscar Street, will be very sorry to learn that he is a patient at St. Joseph's Hospital.

* * *

Mr. and Mrs. J. P. Townsend, 1979 Argyle Street, sailed Sunday for San Francisco. They took their car and will motor through the southern States and Mexico.

* * *

Mr. and Mrs. Reginald Vernon (formerly Miss Beth Schofield), returned recently from their honeymoon after an absence of over two months, touring across United States and northern Mexico. They left on Saturday afternoon for Seattle and after a week's stay there, will leave for Anchorage, Alaska, where they will make their home.

* * *

A pleasant evening was spent at the home of Mr. and Mrs. W. T. Parke, 2920 Prior Street, on Friday, their guests being members of the Harmony Social Club. The winners of the card game were: First, Mrs. F. Cooke and Mrs. C. H. Smith; consolation, Mrs. S. J. Rumball and Mr. G. Morgan. After refreshments were served by the hostess, dancing was enjoyed, Mr. G. Campbell playing the accordian, after which all joined in singing "Auld Lang Syne" and three cheers for the host and hostess. Those present were Mr. and Mrs. F. Cooke, Mr. and Mrs. G. Campbell, Mr. and Mrs. J. L. Fea, Mr. and Mrs. C. H. Smith, Mr. and Mrs. G. Morgan, Mr. and Mrs. P. E. Beaven, Mesdames M. Coldwell, H. Brown, C. Taylor, H. Smith, H. Baker, S. J. Rumball, Misses D. Coldwell, E. Bragg, Messrs. C. Coldwell and L. Campbell.

* * *

Mrs. L. S. Amery, wife of the former Secretary of State for the Dominions, held an "at home" in London, England, recently in honor of the group of headmistresses who are leaving to visit Canada, including Victoria, at the end of March. Among those present were the High Commissioner for Canada and Mrs. Howard Ferguson, Viscountess Harcourt, Dame Meriel Talbot, Miss Edith Thompson (in charge of the party), Dr. Norwood, Mr. Kenneth Lindsay, Miss Gladys Pott, Miss G. J. McCrea (Stafford Girls' High School), Miss E. Ransford (Croydon High School for Girls), Miss Sparks (Ladies' College, Cheltenham), Miss N. C. Craig (Christ's Hospital), Miss Muriel Davies (County Secondary School, Streatham), Miss Turner (County Secondary School, Sydenham), Miss Barrie (King Edward's High School for Girls, Birmingham), Miss I. M. Drummond (North London College School), and Dr. Brook (Mary Datchelor Girls' School, Camberwell).

* * *

Miss Louise Macdonald, an overseas nurse who went to France with a Canadian hospital unit which was stationed behind the fighting lines for the duration of the war, and who has been at the Halifax Military Hospital ever since, has been appointed to succeed Miss Ethel Saunders, recently transferred to Winnipeg, as nurse at the Military Hospital, Work Point Barracks. She has already taken over her duties here. On Saturday afternoon the Victoria branch of the Overseas Nurses' entertained at a tea at the Empress Hotel in her honor. Miss Franks, the president, welcomed the guests, and Mrs. Brock Smith (nee Gregory Allen), of Cranbrook, presided at the table, which had a centrepiece of narcissi and plum blossom. Those present were Miss Louise Macdonald, Miss Franks, Mrs. Brock Smith, Mrs. J. Gibbs, Duncan; Miss E. Alexander, Miss A. Venvie, V.O.N., Mrs. Macaulay, Mrs. C. E. Ball, Miss Agnes Forbes, Mrs. E. A. Dixon, Miss Beatrice Bradshaw, Miss Craighead and Miss Ethel Morrison.

* * *

Mrs. R. Mercer and Miss Marie Stubbs were joint hostesses at a miscellaneous shower at the home of Mrs. E. Meyers, Speed Avenue, on Friday evening in honor of Miss Anne Borrowman, whose marriage will take place next month. The many gifts were presented to the bride-elect in a prettily decorated basket of mauve and pink. A very enjoyable evening was spent in games, after which a dainty buffet supper was served. The invited guests included: Mrs. E. Meyers, Mrs. Borrowman, Mrs. Stubbs, Mrs. Gillingham, Mrs. R. Mercer, Mrs. J. Mercer, Mrs. Stubbs Jr., Mrs. Cox, Mrs. Bell, Miss Walker, Mrs. Martin, Mrs. Combe, Mrs. Tindall, Mrs. F. Richmond, Mrs. Wilkinson, and the Misses Anne Borrowman, Bessie Borrowman, Margaret Menzies, Alice Findler, Jo Pollard, Peggy McDonald, Evelyn Florence, Freda Rippingale, Olive Rines, Cannie Naillard, Mollie Moon, Audrey Richmond, Verna Richmond, Edna Pearmain, Margaret Sayer, Eileen Fraser, Marjory Tindall, Topsy Ellis, Flo Collins, Dorothy Meyers, Mollie Mercer, Kathleen Forbes, Marie Stubbs.

* * *

Over 100 guests attended the delightful "the dansant" given by Professor Walter H. Gage, the registrar, at Victoria College on Saturday afternoon. The dance, which lasted from 4.30 until 7.30 o'clock, was one of the most successful social affairs staged at the college this year. The blue room of the college presented a colorful scene, being decorated with the blue and gold colors of the institution. At the close of the dance Mr. R. V. Maclean, the president of the Students' Council, led the guests in three rousing cheers for the popular professor. Among those present were Principal and Mrs. P. H. Elliott, Professor and Mrs. E. S. Farr, Mme. E. Sanderson-Mongin, Miss H. Ruth Humphrey, Miss Jeanette A. Cann and Professor W. H. Page of the Faculty, and the Misses D. Allen, G. Walton, Pat Brown, Rosalind Young, Mary Lou Ross, Aileen Cullum, Eleanor Heisterman, Sue MacKenzie, Muriel Davenport, Aileen Regan, Maxine Ewart, Shelia Tait, Nell Muirhead, Florence Hayward, Nellie MacFarlane, H. Harris, Pat Copeland, Dallas Homer-Dixon, Sally Nixon and Messrs. P. V. Maclean, A. Plows, Paul Sprinkling, H. Manson, J. Moyes, A. Marlin, G. Bell, Wm. Boorman, R. Huddlestone, L. Jones, A. McGregor, J. MacKay, T. Gibbs, C. D. Kennedy, C. Copeland, H. English, F. Gibson, D. Cameron, W. Murdoch, D. Patterson, P. Walton, T. Robinson, A. Miller, Wm. Findlay, H. Worthington, G. Fraser, H. Hebo and J. Mortimer.

JUNIOR W.A. IN ANNUAL RALLY

Over 300 Children at Memorial Hall Saturday; Deaconess Speaks

The Christ Church Cathedral Memorial Hall was crowded to the doors on Saturday afternoon by enthusiastic members of the junior branches of Columbia W.A. for their annual meeting, there being over 300 children present, beside many adults. St. Saviour's branch marched in en masse with their banner held aloft.

This year the banner has been presented to the Alert Bay branch, a donation from the board. Mrs. Hunter, diocesan junior secretary, conducted the business, Mrs. James Dickson read the opening prayer, the reports being read by the young secretaries. There was present a delegate from the Westholme branch, Marjorie Ryder, from Chemainus, being given a special round of applause as the winner of the prize for the best dressed doll in the diocesan competition.

Miss Tris Smith of St. John's branch sang two songs very charmingly, and a short play was put on by St. Mary's Y.W.A. The pupils of the Good Hope mission gave a very attractive drill, with Mrs. Clarence Lee directing at the piano. Miss Goldsmith led in the singing of a hymn which formed a prelude to an address by Deaconess Robinson, on the "Beacon Lights," which she illustrated by a vivid blackboard, drawing of a lighthouses, also by a fine copy of the well-known picture, "The Light of the World."

Miss Robinson was asked by St. Matthias branch to convey a message of love and good wishes to their little Indian prayer partner on Village Island, where she expects to spend five days during her present Up-island tour. A fine picture book for the school there was also sent by the branch. Miss Robinson will visit at Port Hardy and Quathiaski Cove, making a short stay also at Alert Bay, she told the children.

Mrs. Hunter conveyed the good news to the meeting that there only remains the sum of $31.95 to be raised to complete the $1,000 promised for the window in the baptistry of the cathedral.

Mrs. Dickson introduced to the meeting the newly elected junior secretary, Mrs. C. W. Brooks, who is already well-known to St. Alban's branch of which she was the well-loved superintendent for seven years. Rev. Canon A. E. de L. Nunns brought the annual meeting to a close with the benediction, and the children were entertained with tea and games in the gymnasium, which they enjoyed to their hearts content.

Navy League Chapter, I.O.D.E.—The Navy League Chapter I.O.D.E. will meet on Thursday at 3 o'clock at the home of Mrs. T. A. Johnston, 1039 McClure Street. At the close of the meeting Mrs Johnston will entertain the members at a tea in honor of Mrs. Mortimer Appleby, the regent, who has just returned from England.

SCHOOL CHILDREN

Carefully conducted vision surveys show that a large percentage of all children between the ages of six and sixteen have defective eyes. Very many of these children are being forced to do school work under a handicap of constant nervous strain caused by neglect of eyes which need help.

These defects are not always manifest to the child, the parent or the teacher, but are latent, and are only uncovered by the careful tests of the expert.

Dull and backward children should have their eyes thoroughly examined.

LADY CYNTHIA MOSLEY TALKS WITH FRANKNESS

Tells Her Constituents Resignation Demands Are "Cheek and Humbug"

Stoke-on-Trent, England, March 9.—Lady Cynthia Mosley, chief aide of her husband in the move to organize a new party, told her constituents Saturday what Great Britain needed in the present emergency was a government "with the guts to govern."

Speaking before nearly 4,000 persons in King's Hall, Lady Cynthia described as "cheek and humbug" recent demands of the Fenton and Longton Labor parties that she resign her seat in Parliament because she had withdrawn from Labor's parliamentary party to help her husband, Sir Oswald Mosley, in organizing his "new party."

"Every pledge that I made in the last election I still stand for," said Lady Cynthia, who is a daughter of the late Marquis Curzon. "I shouldn't have the cheek to come before you in the next elections supporting this government with which I heartily disagree."

Lady Cynthia said the Labor Government had a wonderful opportunity but failed to take it and in the absence of any policy the situation is bound to grow worse.

"The country wants a lead, wants action and wants a policy," she concluded. "We've got that policy. We've got a programme and we want to give the country a lead."

IN THE HANDS OF WOMEN

PLAYS POLITICS

Sixteen-year-old Artemisia Calles, above, youngest daughter of ex-President Calles of Mexico, can show her noted father a thing or two in the game of politics. Seeking election as carnival queen at an exclusive San Diego, Calif., school, where she attends, Miss Calles wired political friends in Mexico City for their support; the aid of the Mexican consul was forthwith enlistd and when the balloting ended Miss Calles was 8,000 votes ahead of her nearest competitor.

Court Maple Leaf.—Court Maple Leaf No. 202 A.O.F. will hold their regular meeting to-night at 7.30 o'clock in the A.O.F. Hall. At the conclusion of the business the members and their friends will be entertained to a "stunt social."

Countess Of Bessborough In Delicate Health

Ottawa, March 9.—For the first time in its history, Rideau Hall promises to be the scene of an interesting event in July, according to report. Lady Bessborough's delicate health will preclude the holding of a drawing-room or of any of the big social functions attendant upon the opening of a new regime.

YOUR BABY and MINE

by MYRTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

OVERFED BABY OFFERS FEEDING PROBLEM

When a child feeds himself, the chances are that he will play with his food the moment his appetite is appeased. Children eat because they are hungry, not because they have a certain set portion of food before them which must be eaten. The overfeeding illustrated in the following letter from Mrs. R. E. has probably brought about the feeding behavior described:

"My daughter is fourteen months old, weighs twenty-two and one-half pounds and is twenty-nine and three-fourths inches tall. She walks, says a few words, has good color and firm flesh. She sleeps twelve hours at night and two in daytime, is out of doors a great deal, does not eat between meals, and is almost broken of wetting herself.

"Now for some of the 'bad' things. She has only four teeth. She won't try to feed herself, won't even let me guide her hand. She plays with her spoon and upsets her milk. Please offer some changes in this schedule:

BABY'S ROUTINE

"Breakfast 8.30: One cup cereal; one cup milk; one-half orange; one piece toast; one teaspoon cod liver oil.

"9.30: Bath. Outdoors from 10.30 to 12.30.

"12.30: Lunch. One cup thick vegetable soup; one egg or one tablespoon of banana; one cup of milk; one cracker.

"1.00 to 3.00: Nap. Then outdoors.

"5.30: One cup pudding (bread or custard); one cup milk; apple sauce; meat bone; baked apple or potato.

"7.00: In bed for the night.

"How shall I fix bacon? How much meat does she need? How can I fix cheese so she will eat it? Shall I worry about the number of teeth? I follow your column daily and can't resist asking these questions. Baby rearing is full of puzzles, even the small things seeming large and important."

DECREASE AMOUNTS

Big questions one can take to a doctor. The trivial ones, however, by improper handling may lead to the big ones.

I suggest that you halve the amounts of the solid foods to stimulate a keener appetite. Put the food out of reach when baby begins playing in it and feed it yourself, or else put baby down. Naturally, learning to feed herself is a messy process, but as long as she really eats and does not slop in the foods, let her continue it.

Our leaflet on "Week's Menu for the Child from Twelve to Eighteen Months" will show you in what way I think the schedule could be improved. Any reader may obtain this leaflet by sending her request and a stamped, self-addressed envelope to the "Your Baby and Mine" department in care of this newspaper.

Bacon may be broiled dry and then powdered. It is not an essential food. The chief protein foods a baby will like are egg, or the meat of a loin lamb chop finely minced, or a tender piece of steak, one tablespoonful minced, or the same amount of white meat of chicken. Cottage cheese is sour milk into which boiling water is poured, the whole put to drain and drip in a cheesecloth bag, and the resultant cheese mashed, softened with sweet cream, and slightly seasoned with salt. One tablespoonful or so of this will be sufficient for baby.

Banana is a substitute for baked potato or cereal and is used in the diet just as they are. If you give custard, do not use egg again that day. Don't worry about the teeth.

Fern Tonic

If you treat your potted ferns to a bath of left-over coffee or tea once in a while, it is a good tonic for the plant.

Smooth Irons

Keep the waxed paper that comes around bread. Use it to run your iron over before you begin the week's wash and see how it smooths off the iron like magic.

New Drier

There is a new collapsible drier which fits over the bath tub, giving you twenty-seven feet for drying the baby's woolens and your lingerie.

Sewing Circle—Britannia Lodge L.O.B.A. No. 216 will hold its sewing circle at the home of Sister Caldwell, 507 Springfield Avenue, Tuesday evening.

Woman Editor Cross-examines At Film Inquiry

Toronto, March 9.—Lengthy cross-examination by Mrs. Joshua Smith, editor of Motion Picture Digest, marked the hearing Saturday afternoon of the film industry inquiry under Peter White, K.C., commissioner, at which I. W. Killam, president of the Royal Securities Corporation, testified. The hearing was adjourned until next Thursday morning.

Mrs. Smith wanted to know what Adolph Zukor game Famous Players in resigning control of the company for that deal which was made in the spring of 1929." Mr. Killam said Mr. Zukor got nothing. He said he did not know what Mr. Zukor's intial investment in Famous Players was.

"The book will show that," the commissioner said when Mrs. Smith said she had information that "Mr. Zukor never had more than $100,000 invested in Famous Players."

SISTER MARY'S KITCHEN

By SISTER MARY

The housewife in search of a meat substitute will find an excellent one in cheese. It's a good source of protein and quite inexpensive. Its flavor as well as its food value make it a worth-while addition to the dietary. Such bland foods as rice, macaroni, bread and hominy gain favor in a variety of ways by the addition of cheese. Combinations with these foods and potatoes and tomatoes as well provide a pleasant change from the ordinary ways of serving these staple products.

Less than an ounce of American cheese furnishes 100 calories. One and one-eighth cube equals this amount. Three ounces or about four level tablespoonfuls of cottage cheese furnish 100 calories. In comparison with this, two ounces of broiled sirloin steak furnish 100 calories. This is a very small portion, the average serving being about twice that amount.

The hard American cheese made from whole milk contains most of the protein and fat and a large part of the lime of the milk from which it was made. It's really a concentrated form of milk and has great food value. This type of cheese adds the vitamin necessary for growth to one's diet, but is lacking in other essentials.

VARIETY IN CHEESE

Cottage cheese is high in nutritive value and is classed as a "protective" food. It contains many of the lactic acid bacteria found in sour milk and has much the same beneficial effect on our digestive systems.

There are innumerable varieties of cheese, both domestic and imported, and for purposes of classification they are conveniently divided into three groups—hard, semi-hard and soft.

The soft cream cheeses are excellent in salads or with fresh fruit. Carefully stewed dried fruits also combine excellently with cream cheese for a salad or dessert.

The hard cheeses are suitable for cooking, but care must be taken that cheese is not over-cooked. Over-cooking of cheese makes it tough and rubbery and splits the fat, making it difficult to digest. Cheese is sufficiently cooked when it is melted.

The Italian fashion of serving grated cheese with soup has much in its favor. Potato, spinach, onion—almost any vegetable cream soup gains much nourishment and flavor if grated cheese is added when the soup is served.

Another good way to use cheese is in a cream sauce. Add the cheese when the sauce is thoroughly cooked and let stand over hot water or by the side of the fire just long enough to melt the cheese.

The following menu will suggest other combinations:

Brown rice croquettes with cheese sauce, buttered string beans, lettuce and toamtor salad, lemon sponge pie, milk, coffee.

Daily Menu

Breakfast—Halves of grape fruit, cereal, cream, crisp broiled bacon, toasted muffins, milk, coffee.

Luncheon—Spinach and cheese souffle, baking powder biscuits, new maple syrup, milk, tea.

Dinner—Stuffed pork tenderloin, fried apple rings, onions baked in husks, radishes, rhubarb tapioca pudding, milk, coffee.

Paper Garden

Now is the time to take paper and pencil in hand, study your garden catalogues, your possible acreage for gardens and to plot it all out, while you have time to consider everything.

Moist Air

In addition to watering plants that you keep in the house, try keeping water on the radiators near the plants. This provides the moisture for the air that plants need, in addition to being healthy for the people in the house.

WON BY A SMILE

Jugoslavia's hopes for international beauty honors rest with vivacious Katarina Urban. Her flashing smile helped a committee of fellow countrymen to decide that she was fairest in all the land. Now she will go to Chile to match her charms against prize beauties from many countries.

THE SPORTS MIRROR

Victoria's Need of Large Auditorium Again Demonstrated.

* * *

Lack of Hall Will Probably Stop Visit to City of Don George.

* * *

Armories Not Available For Showing of World Champion Wrestler.

* * *

Oath Move by C.A.H.A. Appears to be Rather Foolish Plan.

VICTORIA'S need of a proper auditorium in which to stage sports events, concerts and other forms of entertainment for which an extra large seating capacity is required, has again been demonstrated by the fact that, owing to inability to obtain a sufficiently large hall, Promoter Fred Richardson, of the Tillicum Athletic Club, has practically decided to cancel the visit to Victoria next Saturday of Don George, world champion heavyweight wrestler. Richardson was fortunate in the first place in being able to sign-up George to make Victoria one of his stopping-off points and now, after making all arrangements for the appearance here of the former University of Michigan athlete, he will probably be forced to call off the affair.

* * *

Richardson had planned to stage the bout at the Bay Street Armories but, owing to the vast amount of "red tape" necessary to procure this building, has found it impossible to obtain the hall for the match. The Armories is the only building suitable for the staging of the bout and, as it was not being used by any of the militia units next Saturday, it was thought the building would be available. However, before a private individual or individuals can promote any event in the building, the performance must be under the auspices of some unit. As no unit has seen fit to stage the match under their auspices, it will be necessary for Richardson to call off the bout unless some last minute arrangements are made. The Royal Victoria Theatre, the only other place with the necessary accomodation for the staging of the bout, is not available to date, but Richardson is making a last effort to find a location for the bout.

* * *

With wrestling so popular in Victoria at the present time, as in many other cities throughout Canada and the United States, it seems a shame that local fans should be robbed of an opportunity to see the newly-crowned world champion in action. Declared to be one of the finest exponents of the mat game to hold the title in recent years, George's visit to this city would mean considerable. It would be good advertising for Victoria with a world champion appearing in a bout here. George will appear at Seattle and Vancouver and even the little town of Bellingham is making a bid for his services, but Victoria, it appears, will be left out in the cold. And just because a large enough hall cannot be secured.

The Canadian Amateur Hockey Association made what appears a foolish move by demanding that teams entering the Canadian finals should take the Olympic Games oath to the effect that they haven't been dickering with the pros, don't intend to turn pro and have not accepted any remuneration for their services. If they intend to do this, why don't they make officials declare whether any of them are acting as scouts for pro teams. If there must be oath taking, it shouldn't be restricted.

Do you know that:

Colin, a black thoroughbred of twenty-five years ago, never lost a race . . . And he had a large hock on one of his hind legs . . . Jose Santos is the only Portuguese "heavy" to ever invade the U. S. . . . Few of the great sprinters who set records on the Pacific Coast were ever able to duplicate their performances in the East. Either the climate is very good or the watches are very poor west of the Rockies . . . Jack Dempsey was the only challenger who ever entered the ring for a world heavyweight championship bout a favorite in the betting . . . The "wise boys" were right for once . . . So anxious are big league club owners to get promising material that, yearly, each of them gives at least a dozen youngsters who couldn't make a high school team a six weeks' vacation in the South . . . A word by anybody who ever saw a game about a kid who ever wore a uniform means a spring training trip for the latter . . . Branch Rickey never managed the St. Louis Cards on Sunday when he was pilot of the club . . . Mrs. Charles F. Adams, wife of the Boston Bruins' owner, owns one of the finest stables of trotters and pacers in the East . . . C. F. likes the sport almost as well as hockey and can drive a good race . . . The Springfield Indians of this season are rated as the strongest minor league hockey club ever . . . Even the loss of "Red" Beattie and Joe Jerwa, two big leaguers, has failed to weaken the sextette to any extent.

Mrs. Ellis Winner Of Monthly Event At Uplands Links

Mrs. Ellis won the women's monthly medal round at the Uplands Golf Club Saturday with 103-19—84. Mrs. Cecil Eve was runner-up with 99-14—85.

Fighting New York Club Downs Chicago Black Hawks 2 to 1

Billy Burch Sinks Winning Goal in Fast Game at New York Yesterday Evening; Canadians Turn Back Detroit 2 to 0 to Hurt Falcons' Chances of Making Finals; Maroons Beat Ottawa to Keep Ahead of Americans; Boston and Canadiens Cinch Top Places in Two Divisions.

Canadian Press

Toronto, Ont., March 9.—Winning teams in the National Hockey League's week-end programme of five games left little doubt as to their superiority. Only one match can be styled close and in that New York Americans retained a fighting chance to land a play-off berth in the Canadian section by nosing out Chicago Black Hawks, 2 to 1.

Toronto Maple Leafs maintained a four-point gap between themselves and Montreal Maroons by outscoring New York Rangers 5 to 2 in the Queen City, while the Montreals defeated Ottawa Senators, 6 to 2. Boston Bruins made certain of qualifying for the league play-off when they swamped Philadelphia Quakers 7 to 2. Canadiens of Montreal, assured themselves of first position in the northern division and the honor of meeting the Bruins, by coasting through to a 2-to-0 victory over Detroit Falcons.

Lester Patrick's blue-shirted hockeyists battled the Leafs stubbornly and on equal terms for forty-five minutes. The score at this stage was one all. Two Rangers were penalized and the Duncanites smartly rapped in three markers to clinch the verdict.

Maroons outscored the Ottawans 3 to 1 in the first frame, 2 to 1 in the second and 1 to 0 in the third, to hold their one-point lead over the Americans in the race for third perch.

The Bostonians did not encounter much opposition from the Quakers after they struck their stride. The Philadelphians notched the only goal of the first twenty minutes to give the Rossmen such a scare they promptly smacked home four tallies in the second session and three in the final chapter.

Despite the absence of Howie Morenz, Canadiens dealt the Falcon play-off prospects a body blow by their shut-out victory. Both goals came in the opening frame from the sticks of Aurel Joliat and Mondou.

The motor magnates are still five points behind the Rangers and have five games to play while the New Yorkers have three.

Victory over Chicago gave the Amerks renewed life at Madison Square Garden, but while they are only one point behind the Maroons they have played one more game which may prove the deciding factor.

The Hawks took the lead yesterday evening in the second period only to have "Rabbit" McVeigh knot the count five minutes later and Billy Burch score the winning marker early in the last session.

Detroit, Mich., March 9.—Montreal Canadiens blasted play-off hopes for Detroit Falcons here yesterday evening, blanking them 2 to 0 in a fast National Hockey League encounter. The flying Frenchmen while ending the chances of Detroit for third place position in the American section of the league, practically clinched first place for themselves in the league's international section.

Playing without Howie Morenz and Johnny Gagnon, the Montreal squad set a rapid pace from the whistle. Aurlel Joliat took Pete Lepine's pass three minutes after play started for the first goal, and Mondou caught the Falcon defence napping midway in the same period, to beat Dolson.

Only six penalties were called. Although play was hard and bumps were traded throughout the game.

Canadiens — Hainsworth, Burke, S. Mantha; Lepine, Joliat, Larochelle. Subs: Mondou, Wasnie, Leduc, Lesieur, G. Mantha, Rivers and Gagnon.

LINE-UPS

Detroit — Dolson; Rockburn, Noble; Goodfellow, Sorrell, Cooper. Subs—Hay, Aurie, Lewis, Evans, McInenly, McCabe, Goldsworthy, Filmore and Newman.

Officials—Bobby Hewitson and Jerry Goodman.

SUMMARY

First period — 1, Canadiens, Joliat (Lepine), 3.07; 2, Canadiens, Mondou, 11.35; Penalties, Leduc, McInenly and Rockburn.

Second period—No score. Penalties, none.

Third period—No score. Penalties, G. Mantha, Rockburn and McInenly.

(Concluded on Page 14)

Morenz Is Still Six Points Ahead In N.H.L. Scoring

Leaders in the various departments of the National Hockey League follow:

CANADIAN SECTION

Team—Canadiens, played 40, won 25, lost 9, tied 6, 56 points.

Most points (goals and assists)—Morenz, Canadiens, 27 goals, 20 assists, 47 points.

Most goals—Morenz, 27.

Most assists—Primeau, Toronto, 28.

Most shutouts—Toronto, 8; Canadiens, 8.

Most penalties—Lamb, Ottawa; Burke, Canadiens, 83 minutes each.

AMERICAN SECTION

Team—Boston, played 39, won 26, lost 8, tied 5, 57 points.

Most points (goals and assists)—Goodfellow, Detroit, 22 goals, 19 assists, 41 points.

Most goals—Bill Cook, Rangers, 29.

Most assists—Boucher, Rangers, 25.

Most shutouts—Chicago, 11.

Most penalties—Rockburn, Detroit, 114 minutes.

CONNERS IS SUSPENDED BY PATRICK

Heavy-checking Seattle Hockey Player Is Put Out For Rest of Season

Drastic Action Follows Attack on Doug Brennan in Last Friday's Game

Vancouver, March 9. — Bobby Conners, whose deadly bludgeon has caused more bumps, bruises and stitches among hockey players in the Pacific Coast League this season than that of any other man performing in the circuit, has played his last game, at least until next year. Frank Patrick, president of the league, announced Sunday night that he had suspended the scrappy Seattle forward for the balance of the season, including the playoffs.

"I had Doug. Brennan examined by two doctors after he was cut over the head by Conners in Seattle Friday night," Patrick said. "They agreed that had the blow fallen one inch on either side of the spot where it actually did fall, it would in all probability have been fatal.

"As it was it was a wonder that Brennan's skull was not fractured. Conners struck with sufficient force to break his stick and that is hard enough to cause a fracture.

WANT CLEAN HOCKEY

"In suspending Conners my aim is to serve notice on all players that roughhouse tactics in this league will not be tolerated. We have endeavored at all times to produce clean hockey, and have put it on a high plane in that respect.

"Conners was given the maximum penalty that is within the authority of a referee to give at Seattle when he was put off for the rest of the game and fined $25. He has been playing rough hockey all season, and I hope that his suspension will serve as an example to others."

Hooley Smith Is Out of Game With A Fractured Wrist

Montreal, March 9.—Play-off hopes of the Montreal Maroons for the coming National Hockey League championship dimmed Saturday evening when Hooley Smith, arrowhead of the Maroon attack, broke both bones in his wrist in the first five minutes of a game with Ottawa Senators.

Smith skated in on Connell, fired a hard shot at the goalie, and fell as he was checked by Starr. Smith slithered across the ice and crashed into the boards, breaking his left wrist as he put a hand out to break the force of the impact.

The injury puts Smith out of the game for the season.

Miracles of Sport — By Robert Edgren

Girl Swims Through Shark-infested Bay Protected By a Net

Sydney, Australia, March 9.—Protected from man-eating sharks by a steel net 30x15 feet, towed 40 yards behind a launch, Lily Coppleston, a New Zealand girl, swam shark-infested Neutral Bay in 3 hours and 6 minutes. The distance is seven miles, but Lily swam much more, since the net was constantly swung from its course by the current.

N. WALLACE WINS MEDAL GOLF HONORS

Turns in Score of 72 in Eighteen-hole Qualifying Test at Macaulay

Lowest Total Ever Registered in Men's Championship; J. Burns Second

Turning in a score of 72 for the eighteen holes, Norman Wallace captured the medal honors in the qualifying round of the men's club championship at the Macaulay Point Golf Club yesterday. J. Burns finished in the runner-up position with a score of 76, while J. Burden was third, one stroke behind Burns.

Wallace had rounds of thirty-nine and thirty-three in registering his winning total. Par for the course is 70. His score of 72 is the lowest total ever scored in the qualifying round of the Macaulay championship.

Match play will commence next Sunday in the championship flight.

Wallace's card follows:

Out: .....445444644—39

In: .....434434542—33—72

Complete scores in the qualifying round follow:

N. Wallace 72, J. Burns 76, J. Burden 77, R. Fromson 78, F. White 79, F. Morgan 80, C. H. Christopher 82, A. Frame 82, A. Geddes 83, T. Cowden 85, J. F. D. Morten 85, E. D. Freeman 86, H. P. Up Breaks Fast To Lead Classy Field In $10,000 Derby

Mrs. James N. Crofton's Chestnut Colt Captures Agua Caliente Derby by Half a Length Over Seth's Pride; Uncle Henry Finishes Third; Up Takes Lead at Start and Is Never Headed; Schooner, the Favorite, Finishes Fourth; Up Pays $8.40 to Win.

Agua Caliente, Mexico, March 9.—Taking the lead soon after the barrier was lifted and showing the way to the others for the entire route, Up, Mrs. James N. Crofton's chestnut colt, by High Cloud-Idleness, captured the Agua Caliente derby, $10,000 added money stake for three-year-olds, which headlined the racing programme here yesterday. Up galloped the mile and one-sixteenth in 1.46.60, to win by a half length over Seth's Pride. Uncle Henry was third.

A field of nine paraded to the post, as Briar Hawk, the hope of G. Walkins and B. J. Durnell, declined the issue at the last minute.

When the break came Jockey J. Pollard had Up away like a shot and took command in the first sixteenth. From then on the Crofton colt was not to be headed and was never in danger until the last few strides, when Seth's Pride closed with a rush which almost netted him first money. Uncle Henry was one of the forward contenders all the way, but lacked the drive in the stretch to bring him up to the leaders.

SCHOONER SAILS

Schooner, racing for M. L. Allen and R. F. Cloud, was installed the overnight favorite but failed to live up to advance notices in the race. He was always close, but never dangerous, and finished a poor fourth. Back of Schooner came Red Chill for fifth place. De Swasey, Yoncord, Sam Ischer and Sun Thorn finished in the order named.

The victory of Up netted Mrs. James H. Crofton, his owner, the largest slice of the purse, which amounted to $9,750. Second out of $2,000 went to J. A. Parsons, owner of Seth's Pride. Uncle Henry's third position brought in $1,000 to his owners, H. M. Woolf and D. E. Stewart, and Schooner's owners, M. L. Allen and R. F. Cloud, collected $500 for fourth position.

Two dollar mutuels on Up for win, place and show paid $8.40, $5 and $4, respectively.

The race was witnessed by one of the largest crowds of the meeting, as nearly 15,000 fans were on hand for the running of the annual classic.

EXTRA HOLES FAIL TO FIND GOLF WINNER

H. O. English and S. L. Feesey Finish All Square in Feesey Cup Play

Uplands Pair Battle Twenty-seven Holes to No Decision; Play Another Round

Although they played nine extra holes in an effort to decide the winner of the Feesey Cup H.O. English and S. L. Feesey found themselves still all square at the twenty-seventh hole yesterday afternoon at the Uplands Golf Club and decided to postpone the match until next Saturday when another eighteen holes will be played.

At the end of eighteen holes the two finalists were all even and agreed to play another nine holes. At the twenty-seventh hole English was one up, but his drive found a bunker, and he took two to get out, losing the hole 4 to 3, to square the match again.

In the semi-finals of the competition played yesterday morning English defeated Jack Savident 3 and 2, and Feesey won from R. A. Semple 3 and 2.

Seattle Women's Ice Hockey Team Beats Vancouver

Seattle, March 9. — Seattle Royalettes girls' hockey team of this city defeated Vancouver, B.C., Amazons in a game here Saturday night at the ice arena. The score was 2 to 1 in favor of the locals.

British Football Teams Play Under Adverse Conditions

Snow, Sleet and Frozen Grounds Play Havoc With Matches in England and Scotland on Saturday; Number of Minor Injuries; Aston Villa's Fine Win Over Blackburn to Gain on Arsenal Features English Programme; Exeter City Hands Notts First Defeat at Home; Celtic Disappoints in Scottish Play.

Canadian Press

London, March 9.—Soccer football was played in England on Saturday under the worst kind of conditions. Snow covered a number of grounds, while at other points the pitch was frozen hard. Several minor accidents due to slips on the slippery turf by players were reported.

Feature of the first division matches was Aston Villa's fine win at Blackburn, where they blanked the Rovers by 2 to 0 by Burton and Waring. They are now within a point of the league-leading Arsenal, though the Londoners have games in hand.

Sunderland's gruelling cup tie with Exeter City during the week did not affect their play against Sheffield Wednesday. The match was played in a blinding snowstorm, Gurney opened the scoring for Sunderland in the third minute and Hooper equalized. Andrews restored Sunderland's lead from a free kick and Gurney added a third and a fourth. Sunderland played a man short for most of the second half, when Connor was hurt, but were able to add a fifth goal.

INJURIES HURT CHELSEA

Blackpool proved an unpopular holiday resort for Chelsea, who suffered sadly through the absence of Townrow and Bishop, hurt in cup ties. The London team was changed around, Jacking going to centre forward. Before the interval Hampson scored from a penalty. After a Chelsea back had handled, McClelland scored a second, and it was nearly half time before Chelsea showed anything like combination. Then Irving scored with a free kick. In the second half there was no further scoring.

Two goals were disallowed as offside in the match between Arsenal and Huddersfield Town, which went scoreless and was a colorless affair. Jack's was the first goal disallowed, and it was followed by the calling back of a marker by R. Kelly.

Everton and Reading of the Second Division played on a hard field and an uninteresting match resulted, neither side being able to control the ball. Everton won and all the scoring took place in the second half, Everton goaling three times and Reading twice. Johnson, Dunn and critchley scored for Everton, while Bacon had both Reading's goals. Eaton, the Reading player, fractured his jaw.

Tottenham Hotspurs suffered a nasty setback at the hands of Charlton Athletic, who though they were facing a biting wind, scored in the second minute through Peters on a pass from Pugsley. The Spurs attacked hard, but Charlton defended stoutly.

SUFFER FIRST DEFEAT

Undeterred by their cup tie defeat during the week Exeter City became the Southern Section, Third Division, giant-killer, when they inflicted on Noots County their first defeat at home this season. Exeter won by 2 to 1. Varco took advantage of a slip by the Notts County their first defeat at home a lead in the fifteenth minute. Houghton scored a second for Exeter on Doncaster's pass. Keetley reduced arrears a moment later. Notts attacked for the balance of the half, but could not beat Davies.

Lincoln City, leading the Northern Section, had an easy victory over Rochdale by 5 to 0 in a poor game. Peggs did the hat trick.

An exciting game was played at Stockport, where the home club beat Chesterfield by 2 to 1. Chesterfield opened their account direct from the kick-off through Bell, but Bocking equalized immediately from a free kick. Dolman did wonders in the Chesterfield net only to be beaten five minutes from time by Frank Newton's clever header.

Glasgow, Scotland, March 9.—Scottish League soccer matches Saturday suffered through an overnight fall of snow. No play was possible in the Edinburgh match between Hibernians and Queen's Park.

After a brilliant mid-week victory over Motherwell by 4 to 1, Celtic disappointed their supporters on the slippery ground when Partick Thistle defeated them by the only goal scored. The Thistle goal was of the soft variety, the Celtic keeper making a sad mess of fisting out and dropping a shot by Simpson. The match was rough, Napier, Celtic and Grove, Partick Thistle, being ordered off in the second half for fighting.

Rangers had a fine win at Aberdeen byd 3 to 1. Smith, Archibald an Marshall goaled for the Rangers, while David netted Aberdeen's singleton. Ayr United with Merrie of Aberdeen and Conlin of the Rangers included in their team shared a goalless draw with Airdrie.

Clyde, who had goals through Lowe, Boyd and McGill had an easy time with East Fife, who failed to score.

Cowdenbeath and Hearts drew, two goals all. Cowdenbeath scorers were: Anderson, through his own goal, and Paterson. Battles had both Hearts' counters.

Falkirk took the measure of Morton by 3 to 1. Morgan and Gall, two, goaled for Falkirk and Lyle for Morton.

Hamilton Academicals also shared a goalless draw, their opponents being Kilmarnock.

Motherwell had a comfortable win over Dundee, Ferrier getting the two goals notched during the match.

St. Mirren dropped a point at home against Leith Athletic. McCrae had St. Mirren's two goals and Laidlaw Leith's.

Cambridge Boxers Beat Oxford Team

Oxford, Eng., March 9—A team of seven Cambridge University boxers defeated Oxford's representatives Saturday. Cambridge men won four and lost three of their matches.

ARTHUR AND ANDERSON IN GREAT MATCH

Canadian Middleweight Champ and Seattle Grappler Draw in Furious Bout

British Columbia Veteran Toughest Opponent Anderson Has Ever Met Here

Wrestling fans who attended Saturday evening's card at the Tillicum gymnasium witnessed one of the best bouts that has ever been put on in this city, between Ernie Arthur of Trail B. C., holder of the Canadian middleweight championship, and Des Anderson, popular grappler from Seattle, and former University of Oregon star. This pair grappled through eight rounds, replete with thrills, to a draw. In the other scheduled eight-round main event, Freddie Meyers, Chicago heavyweight, won from Chief McGuire, Spokane, in two straight falls, in a bout that was anything but exciting.

Arthur, a battle-scarred veteran of twenty years campaigning on the wrestling mat, and Anderson put on a real match. Both about the same weight, fast and clever, they gave the fans everything they had for eighty minutes and the crowd roared their approval at the finish, when Referee "Rocky" Brooks lifted their hands for a draw. The final result stood one fall apiece, Anderson gaining the first fall in the fourth round and Arthur evening the count in the sixth.

A TOUGH OPPONENT

Arthur, a stocky little French-Canadian, proved the toughest opponent Anderson has met in a local ring. Possessing a bagful of tricks learned in his many years association with the ring, the British Columbia grappler was quite able to hold his own with his twenty-four-year-old Seattle opponent. Arthur proved very active both on his feet and while on the mat and is one of the few wrestlers who is able to jerk himself around like a bouncing ball while sitting on the mat. Another wrestler famous for this feat is Tom Alley, New Zealand light heavyweight who showed here several times this winter.

Anderson put up his usual clever display and was an ideal match for the Canadian champion. Just as clever as Arthur and every bit as fast, the ex-collegian could step round for round with the Canadian and give just as much as he took. Anderson proved himself a mighty game youngster in the seventh round when Arthur had him in a punishing body scissors for over four minutes but failed to put him down or make him quit. Although he was suffering great pain from the scissors and also a hammerlock, Anderson stuck it out until the bell, and then came back in the eighth round just as fresh as ever. The Seattle grappler was given a great hand by the crowd for his courage.

In the first round the pair could be seen to be feeling each other out and both were cautious and appeared to respect each other's ability. Anderson was concentrating on wristlocks and headlocks, while Arthur succeeded in clamping on two leg splits. Anderson forced Arthur to seek the ropes on two occasions with toeholds in the second round, while Arthur punished Anderson a little with an arm bar and body scissors. Anderson opened the third round by using his shoulder to butt Arthur but the latter came right back to knock his opponent down several times with rabbit punches. Anderson appeared a little groggy at the bell.

ANDERSON GETS FALL

Coming out of his corner fast to open the fourth round, Anderson knocked Arthur to the mat with a series of rabbit punches and then finished him with his favorite whip wristlock.

Anderson had a little the edge in the fifth with a Japanese arm lock and short arm scissors. Arthur, while in a headlock, attempted to body slam Anderson but failed to get the necessary force to do any damage. A few minutes after the start of the sixth round, Anderson put on a headlock and Arthur bending around picked Anderson up by the crotch and threw him to the mat for the tying fall.

In the sixth, seventh and eighth rounds the fans were treated to plenty of action with Anderson's fine display of courage in the seventh featuring.

The Meyers-McGuire bout was tame in comparison and the fans failed to get very enthused over the heavyweights. Meyers was far the better man and obtained falls in the third and fourth rounds. McGuire substituted for Stanley Pinto.

Four local boys took part in the opening preliminaries.

Sarazen and Farrell Set Records In Florida Golf

Former Treks Over Eighteen Holes In Mark Shattering 65

Stocky Little Italian Pro Flashes Brilliant Golf in Opening of International Four-ball Matches; Sarazen and Farrell Set Another Record for Joint Score of 62; Walter Hagen and Horton Smith Down Bob Randell and Bob Burns 7 and 6; Clarence Gamber and Cyril Walker, Defending Champs, Win.

Miami, Fla., March 9.—Dapper little Gene Sarazen whizzed around the Miami Country Club course yesterday with a record smashing eighteen-hole 65, as he and Johnny Farrell swamped their opponents, 6 and 5, in the opening thirty-six-hole play of the $5,000 international four-ball matches. Sarazen and Farrell also sent a new record of 62 as they defeated Willie Klein and Tom Kerrigan.

The Sarazen-Farrell combination, however, were not the long score winners of the day. The perennial Walter Hagen and Horton Smith, who strode across U.S. courses a year or so ago, to win most of the golfing money of the year, marked up a 7 and 6 victory in a scheduled thirty-six-hole match as they sent Bob Randell and Bob Burns down without apparent effort.

A third long score gave Denny Shute and Tony Manero a 7 and 5 win over Bill Burke and Jock Collins.

Johnny Golden, fresh from his Agua Caliente conquest over George von Elm, paired with Ed. Dudley only to go down to a 4 and 2 defeat at the hands of Charley Guest and George Christ.

DEFENDING CHAMPS WIN

Clarence Camber, youthful co sharer of top honors in the 1930 tournament with Cyril Walker, paired with Walker yesterday, in defence of their crown to win 2 and 1 from Danny Williams and John Watson.

Jack Thompson and John Kinder went into the next thirty-six-hole round by a 2 and 1 victory over the veteran Al Espinosa and Graig Wood.

Joe Kirkwood, paired with Lighthorse Harry Cooper, went down 2 and 1, before the onslaught of Wild Bill Maehlhorn and Frank Walsh, Chicago veteran.

Joe Turnesa, back in Florida after his 1931 win in the classic Miami open, fell down with Henry Culci, as they took a 3 and 2 beating from the bespectacled Willie MacFrlane and Whiffy Cox, Brooklyn blusterer.

The defending champions, Chamber and Walker, will meet Manero and Shute in to-day's thirty-six-hole quarter finals.

Sarazen and Farrell, veterans of Florida courses, will offer their bid against that of Thompson and Kinder, while the Hagen-Smith combine will stroke the course with Mehlhorn and Walsh.

The other quarter final match will be MacFarlane and Cos against Guest and Christ.

"Y" WRESTLERS RUNNERS-UP IN CHAMPIONSHIPS

Pete Tyson, Lawrie Moore and Fred Loeffler Given Big Hand in Everett

Competing against champions of different cities of the Northwest, local Y.M.C.A. wrestlers, despite their comparative inexperience, gained runner-up honors in Pacific Northwest "Y" wrestling championships at Everett Saturday evening.

Lawrie Moore, seventeen-year-old youngster, competing in the 118-pound class, gained applause by downing his opponent to win the right to enter the finals. Against a man of ten years' experience, he put up a splendid fight, losing the title in the last moment when he slipped through the ropes.

Pete Tyson, eighteen, gained a draw with D. Hendrick of Salem, the 127-pound champion, and roughed his opponent up to such an extent that he was unable to continue. The judges, however, gave the decision to the champion, while the crowd booed and hissed.

SPLENDID BOUT

Fred Leoffler, contesting in the 135-pound division, just lost out to Bevedore, Portland champion, in a splendid exhibition. The bout proved one of the best on the card and had the crowd on its toes throughout.

Before entering the championship round, the local youngsters were forced to go through several tough elimination heats and showed up splendidly against some of the best bone-twisters in the Northwest.

Wallie Connorton Wins Golf Title Of Revellers Club

Wallie Connorton, popular Gorge Vale star, annexed the Revellers semi-annual golf championship yesterday at the Cedar Hill Golf Club by shooting a '75 net, and will hold the Fell Challenge Cup for the next six months.

French and U. S. Amateur Boxers Meet in Tourney

Chicago, March 9.—An international amateur boxing tournament between champions of France and winners of the New York-Chicago golden gloves tournament, and with a pair of former world champions refereeing, will be held in the Chicago Stadium May 12.

The former champions will be Jack Dempsey and Georges Carpentier, who met in the "battle of the century" at Jersey City, July 2, 1921. The event has created high interest in France, and hundreds of youngsters are preparing to try for the trip to the United States. The French boxers will be under the charge of Paul Rousseau, president of the French Boxing Federation.

Saanich Thistles Win Soccer Title

Saanich Thistles won the City Juvenile Football League championship Saturday afternoon at the Royal Athletic Park, by scoring a 2 to 1 victory over Oak Bay United after a fine match. Both teams played good soccer throughout, with the suburbanites holding a slight edge, especially in the last period. The winners will meet Nanaimo for the Vancouver Island championship on a date to be announced later.

PAOLINO WILL MEET KENNEDY

Veteran Spanish Heavyweight Tackles Pacific Coast Scrapper at Los Angeles

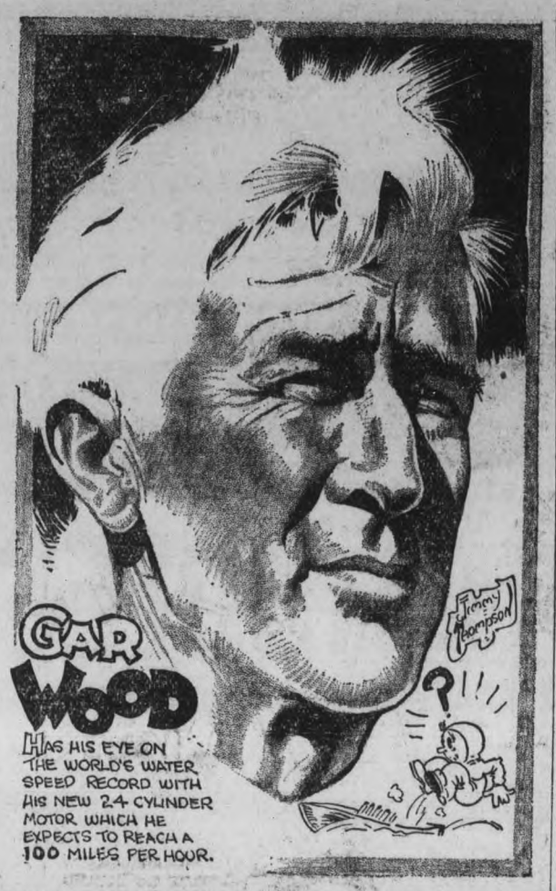
New York, March 9 — Heavyweight shows at New York and Los Angeles contrive to add a little color to an otherwise lustreless boxing schedule this week.

Paolino Uzcudun, the Basque wood-chopping heavyweight, encounters Les Kennedy of Long Beach, Cal., in the top ten-rounder at Los Angeles Tuesday night.

New York's big show of the week, at Madison Square Garden Friday night, features the fourth meeting between Tommy Loughran, Philadelphia, former light heavyweight champion, and Ernie Schaaf, the rugged Boston battler. Loughran won their first battle, but Schaaf took the next two.

Both have appeared in the Garden recently against Max Baer, the somewhat battered California sensation. Schaaf eked out a close decision while Loughran, in old-time form, gave young Max a boxing lesson he will not soon forget.

America's Only Threat



With his dying breath, Major Segrave asked: "Did I break the record?

So intense has been the world worship of "Speed" that the late Sir Henry Segrave had no other thought as he died in the crash of Miss England II on Lake Windermere last June 13. In a poetic sense, the gallant major died with the knowledge that he had succeeded. The world's last speed record had gone to England. Perhaps this speed record on water was the hardest one for England to attain and probably the main reason for that was Gar Wood the Americn driver. Mile by mile, he and his brothers have pushed this motor boat record up until his 92.123 miles per hour mark of March 23, 1929, in the Miss America VIII, which was the goal that Segrave had to shoot at was set. But as the world knows Segrave even bettered this mark in his two attempts up and down the course which gave an official average of 98.76 miles per hour. That's what Mr. Wood now has to beat. On the seventeenth and eighteenth of this month Gar Wood expects to again claim the speed boat record for America in a new Miss America IX on Byscayne Bay, Florida. The new boat is a twenty-four cylinder motor equipped with super chargers, and it is in this point that Gar Wood pins his main hopes, to attain the speed of 100 miles per hour. He is noted for his careful methods and it is said that should he find that he fails to make a favorable showing in the trials he will not attempt to oust the title until he has built a craft that he is sure will be able to stand the terrific speed that he hopes to attain.

BRENTWOOD STOPS CITY CHAMPIONS

Victoria College Team, Local Intermediate Rugby Title-holders, Beaten 5 to 3

With the provincial play-offs billed here at the end of the week, Victoria College, local defenders of B.C. intermediate rugby honors, were given a rude awakening on Saturday when the Brentwood College boys sent them down to a 5 to 3 defeat in an exhibition game at Todd Inlet. The city students put all they had into the fixture, but lost out when Arkell converted Cooper's try to give the suburbanites a two-point edge against the Craigdarroch lads' lone tally scored by Miller.

Both tries were made in the first half.

The Victoria team opened on the attack, forcing play deep into Brentwood's ground. After a series of scrums, Miller secured and crashed over for the local squad's lone points. The kick failed.

A few minutes later, Arkell made a great attempt to even the score, missing the post by inches on a penalty kick.

WINNING TRY

Still on the attack, Brentwood returned to the Craigdarroch lads' end Hunter took the ball and after making an opening, passed to Cooper, who wormed his way through for the equalizing try. Arkell put his team in the lead with the kick.

The blue-and-gold horde pressed at the opening of the second half, but Arkell prevented any score with his sensational tackling.

Both defences tightened up and neither squad was able to add further to its total.

Jones refereed and the teams follow:

Brentwood College—Arkell, McNelli, Wilson, Thorne, Hunter, Todd, Weir, Cooper, Brockie, Sharland, Mayhew, Cameron, Sharpe, Malkin and Mitchell.

Victoria College—McInnes, Bapty, Mabee, Copeland, Colgate, Miller, Robinson, Menzies, Senkler, Sprinkling, Carey, Crothall, Walton, Moyes and Wilson.

Justo Suarez Wins

Buenos Aires, March 9—Justo Suarez, Argentine lightweight contender, knocked out Stanisaus Loayza, veteran Chilean, in the third round of a scheduled ten-round bout Saturday night. The Prince of Wales and Prince George were among the spectators.

French Riders Win Six-day Race At New York Garden

New York, March 9.—Alfred Letourner and Marcel Guimbretiere of France won Madison Square Garden's fiftieth international six-day bike race Saturday night. The Italian combination of Pietro Linari and Paul Brocardo was second. The Swiss-American team of Richili and Grimm was third.

Drill Instructors Honored By Members Of Display Groups

In appreciation of work done by the instructors, W. A. Roper and Miss Mona Miller, members of the Victoria High School boys' and girls' gym display groups presented them with gifts at the close of Saturday evening's presentation in the High School.

Mr. Roper was given a cigarette lighter, while Miss Miller received a bouquet of flowers.

The display was first given on Friday evening and repeated Saturday.

U.S. POLO TEAM WINS

Del Monte All-stars Come From Behind to Beat English Players 12 to 10

Del Monte, Cal., March 9.—The Del Monte All-Stars rode to a 12 to 10 victory over the Hurlingham Club of England in the great international polo clash yesterday that thrilled a crowd of 5,000 spectators.

Coming from behind a 6 to 2 score at half time, the U.S. team staged a sensational rally that netted nine goals without the British stars counting a marker. With the match apparently all Del Monte in the last chukker, the Hurlingham riders went up and down the field like whirlwinds to shoot four goals in rapid succession. There was only a difference of one goal when Capt. Forester scored in the closing session.

Never in polo history here has so sensational a match been played between teams with such stars in the lineups. Rube Williams, Texas cowboy, rose to polo heights to repulse the strong attack by Hurlington and to start his team down the field.

Highlanders Flash Old Form To Take Second Half Title

Defeat Oak Bay Wanderers 20 to 6 in Smart Rugby Play-off; Will Meet J.B.A.A. Next Saturday to Decide City Title; Penalty Goals by C. Forbes and Haines Feature Scoring; Scots Crack Oak Bay Team's Defence Wide Open at Beginning of Second Half to Run Up Big Total.

Flashing some of the old form which carried them to the city championship last year, Canadian Scottish ruggers ran over the fighting Oak Bay Wanderers to hang up a 20 to 6 victory in the final struggle for the second half senior honors, and gained the right to meet the J.B.A.A. in the play-off for the city title, at Oak Bay Park on Saturday. The Wanderers, battling in splendid style, held the smashing Highlanders to an 8 to 6 score at the rest interval, but failed to stem the crimson flood in the second half. In the dying minutes the Oak Bay boys rallied for a good offensive.

The game, played on a hard field with the ball in perfect condition, saw more good rugby than any displayed in the senior league since the beginning of the year. Campbell Forbes and Haines, whose educated feet scored on penalty kicks from fifty yards out for their respective sides, were given a big hand by the crowd of approximately 600 which saw the match. Forbes took a place against the wind, while Haines scored on a drop with the breeze behind him.

SCOTS OPEN ATTACK

Returning a long punt from Symons at the opening of the game, Campbell Forbes sent play deep into the Wanderers' end. Osler cleared, but Bryden kicked back.

Reg Wenman and Jack Horne broke away on a pretty three run to the Wanderers' fifteen-yard line, but Haines cleared. Normington broke away, but Harrison forced play back on a tricky dribble.

The Wanderers pressed on several kick plays before Turgoose went down on a nice run after a good three-quarter movement to reach the Oak Bay boys' twenty-five. Symons regained the ground for the Wanderers with a good punt.

(Concluded on Page 14)

EXTRA END IS NEEDED TO WIN BOWLING MATCH

Alexander and McMillan Gain Close Victory in Feature Tournament Encounter

Close play continued in the Capital City and District Carpet Bowling tournament Saturday evening with Alexander and McMillan being forced to an extra end to gain a 17 to 15 victory over Smith and Wade in the feature men's doubles encounter.

Both pairs bowled excellently and received wide acclaim from the spectators watching the match.

In other keenly-fought fixtures, Woods and Fairhall defeated Townsend and McKenzie, and Lambie and Taylor eliminated Wright and Gardiner. The final score read 24 to 20 in the latter match.

Saturday's results and this evening's and to-morrow's draws follow:

MEN'S DOUBLES

Woods and Cooney 11, Rogers and Austin 22.

Turner and Pearson 22, Mercer and Eastham 13.

McMartin and Davey 24, W. Gibson and Carley 25.

Hughes and Colvin 19, Sellers and Bentley 16.

Alexander and J. McMillan 17, Smith and Wade 15.

Wright and Gardiner 20, C. Lambie and Taylor 24.

R. W. Wilson and Jones 16, Currie and Cockerill 19.

Hemming and Thompson 15, Prior and Booth 17.

Manson and Attwood 15, Smith and Newbold 22.

Woods and Fairhall 19, Townsend and McKenzie 18.

Wilson and Tupman 18, R. Gibson and Slocomb 22.

MONDAY'S DRAW

7.15—International games, English vs. Scotch.

WOMEN'S DOUBLES

7.15—Mrs. Tupman and Mrs. Eastham vs. Mrs. Dealey and Mrs. Barnes, Mrs. Holmes and Mrs. Stewart vs. Mrs. Holloway and Mrs. Kirchin, Mrs. Skett and Mrs. Dempsey vs. Mrs. Davey and Mrs. Reid, Mrs. Leiper and Mrs. Cruickshank vs. Mrs. Randle and Mrs. Ready.

MEN'S SINGLES

8.45—R. Wilson vs. Fairhall, Pugh vs. Hibbard, Prior vs. Rodgers, Davey vs. Pearson.

TUESDAY'S DRAW—

MEN'S DOUBLES

7.00—Fisher and Spencer vs. Bland and Bossom, Rogers and Austin vs. Baker and Pugh, Thackeray and Saunders vs. Turner and Pearson, Thompson and Harrison vs. Scroggs and Leiper.

MEN'S SINGLES

7.00—Austin vs. Thackeray, Eastham vs. Reid.

8.30—Morrow vs. Currie, Mrs. Cruickshank vs. Mrs. I. Summers.

9.00—Fairchild vs. Bridges, Steenson vs. Breckenridge, McMartin vs. Carley, F. W. Davey vs. W. Pearson.

"CHUCK" TURNS HIS HOBBY INTO GOOD BUSINESS

Chicago Black Hawks Goalie Has Been Stopping Objects Always

Rises to Fame in N.H.L. Although He Entered Big Time With Little Experience

(Note—The following is the first of a series of six articles dealing with the players chosen by thirty-seven sports editors of National Hockey League cities for a mythical all-star team.)

Canadian Press

Winnipeg, Man., March 9.—Study of the trajectories of objects in motion is a profession today for Charlie Gardiner, goalkeeper for Chicago in the National Hockey League—but until five years ago it was just a hard-worked hobby. Only twenty-seven years old, the Winnipeg sportsman has spent most of his life catching, hitting, tackling and stopping moving objects.

Baseball and trapshooting, rugby football and golf have polished up the ingenuity Charlie shows now between the posts in hockey, where he leads the National Hockey League goalkeepers with eleven shutouts, and only sixty-five goals scored against him, less than any other net guardian in the league. Winnipeg recalls him as a perfect outfielder and a .300 hitter, and he is still one of the best clay-bird crackers in Manitoba. He may no longer be a dead-tackling wing on the gridiron, but he scores in the lowest eighties on the links.

IS FEARLESS

Back in 1927 as a curly-headed kid, he joined the Chicago Blackhawks when the goal job was almost equivalent to suicide by puck-shot. He won the homage of the National Hockey League fandom by his laughing fearlessness under showers of drives from opposing attackers, and he stayed with the Hawks as they built up a team to aid him in keeping down the foemen's score—and even the retalite. In 1931 Charlie is still curly-headed, but a veteran of the nts at twenty-seven.

Gardiner stepped into the National Hockey League after only a year's experience in professional company with the Winnipeg Maroons in the American Hockey Association, now the American League. He had played amateur with the Winnipeg Maroons and the Selkirk Fishermen in the Manitoba Senior League during the two preceding seasons, each time encountering elimination by a lake-head team in the Canadian championship Playdowns. His previous hockey experience was with the intermediate and minor teams of Winnipeg.

An accomplished singer, Charlie has been heard over the radio from Chicago. He is married, the father of one child, and makes his summertime home in Winnipeg.

VANCOUVER TEAM WINS

Eileen George and Jack Underhill Capture Canadian Badminton Title

Quebec, March 9.—J. M. Taylor, Toronto, won the Canadian men's badminton championship here Saturday, defeating A. M. Aikman, Montreal, 11-5, 15-9, 15-9.

Playing magnificent badminton, Miss Ruth Robertson of Ottawa swept through the finals in the women's singles, winning in straight sets, 11-8, 11-0, from Miss M. Delage of Quebec.

Miss Eileen George and Jack Underhill, Vancouver, won the mixed doubles title, defeating Mrs. John Porteous and A. H. Bilham, Montreal, 15-12, 15-6.

For the third time in successive years Col. G. G. Blackstock and C. K. F. Andrews of Toronto are men's doubles champions. They defeated the veterans Bill Stewart and Jack Cameron of Ottawa, after a real battle which went to three games. The final score in favor of the defending champions was 15-9, 14-18, 15-11.

QUEBEC PAIR WINS

The Quebec women, Miss Delage and Miss M. Barrow, won the women's doubles championship, defeating Miss Ruth Robertson and Miss Margaret Robertson of Ottawa in straight sets, 15-6, 15-3.

Winners of consolation rounds:

Women's singles, Miss Purkis, Toronto; women's doubles, Miss C. A. Boone and Mrs. J. L. Gooderham, Toronto; men's singles, R. B. Webster, Montreal; men's doubles, R. B. Webster and E. T. Seeley, Montreal; mixed doubles, Miss Margaret Robertson and C. Hawkin, Ottawa.

SAANICH WIN OVER WESTS IN CUP GAME

Thistles Advance to Second Round of Jackson Cup Series By 5 to 2 Victory

Thistles Leading 2 to 1 at Half-time; Wests Far Below Expected Form

Saanich Thistles, last year's city senior football champions, advanced into the second round of the Jackson Cup series at the Royal Athletic Park on Saturday afternoon by registering a 5 to 2 victory over the Victoria West eleven. Wests, by their setback, are eliminated from the competition and will have to set their eyes on silverware for their cabinet other than the handsome Jackson Cup. Saturday's match, played under ideal weather conditions and on a fast pitch, failed to come up to the standard expected by the large crowd present. The Wests were decidedly off color while Saanich, even in victory, were not at their best.

After handing Esquimalt a surprising 4 to 2 defeat the previous Saturday, it was expected the greenshirts would provide some stiff opposition for the Saanich eleven, but they were just as badly off-form as they were on the previous week. Saanich won by a margin of three goals but it might just as easily have been half a dozen, as their forwards missed innumerable chances to sink the rigging behind Restall, the Wests' net minder.

(Concluded on Page 14)

Manitoba Grads Beat England By Score of 3 to 1

Golders Green, England, March 9.—University of Manitoba graduates yesterday defeated a team representing England in a fast hockey game by 3 to 1.

J. F. Devlin Wins Badminton Title

London, March 9.—Mrs. M. Barrett, all-England women's singles badminton champion, defeated Miss Kingsbury in the final of the all-England tourney here yesterday, 11-8, 4-11, 14-9.

J. F. Devlin captured the men's singles title, defeating T. P. Dick by 3-15, 15-10, 15-8. Dick on Friday eliminated Jack Purcell, Canadian champion.

Mr. and Mrs. Uber won the mixed doubles by defeating Devlin and Mrs. Horsley in the finals, 8-15, 15-8, 15-9. Devlin, however, was victorious with his partner, Mack, in downing the combination of White and Livingstone in the men's doubles, 15-6, 11-15, 15-4.

Mrs. Uber and Mrs. Horsley are holders of the women's doubles, clinching the title by their victory over Mrs. M. Barrett, holder of the women's single title, and Miss Elton, 12-15, 15-10, 15-5.

Florida Title Won By Maureen Orcutt

St. Augustine, Fla., March 9.—Miss Maureen Orcutt, Englewood, N.J., on Saturday won the Florida East Coast women's golf championship by defeating Miss Frances Hadfield, Milwaukee, 4 and 3, in a driving rain.

JOHN BOLES AT CAPITOL THIS WEEK

Well-known Singer of Screen Has Leading Role With Lupe Velex in "Resurrection"

Everything was grist that came to the mill of Leo Tolstoy. The man who wrote "Resurrection" must have had a tremendous and open-eyed experience of life. It combined so many elements of human life, human love and human intolerance. His biographers have marked out at least four episodes and characters in this epic love story, which is now playing the Capitol Theatre all this week, with John Boles and Lupe Velez in the roles of Dmitri and Katusha, which are taken from real life.

But Aylmer Maude, the English translator of Tolstoy, who is now playing member of The Tolstoy Society of London, has added a new revelation of a scene which is depicted in the current Edwin Carewe talking picture. The characters are switched from masculine to femine, but the scene is no less strong in the moving picture than its description in the novel. And its description in the novel was so vivid that it got Tolstoy excommunicated from the Orthodox Christian Church. The original incident upon which both the chapter in the novel and the scene in the moving picture are based brought his own daughter Tatiana into conflict also with the ecclesiastical authorities.

HART HOUSE QUARTET IS COMING SOON

Famous Canadian Musical Organization Will Play at Royal Victoria March 25

Canada's most distinguished musical organization, the Hart House String Quartette, will return to this city on Wednesday, March 25, at the Royal Victoria Theatre.

The magnificent form which this clever and celebrated group has revealed on previous appearances will be even more apparent in the varied, but carefully chosen programme, which allows full scope for the loveliness of tone, brilliance and elegance of expression and intimacy of ensemble effect, for which they are noted throughout musical circles the world over.

The quartette has quite recently presented a series of concerts at Steinway Hall, in New York, where their enthusiastic receptions and glowing praise from the press provided splendid proof of the honor and esteem in which they are held in that city.

In Canada the people are particularly fortunate in that no matter how far afield the Hart House String Quartette may travel, they still reserve a generous portion of their time for their annual tour of the Dominion, which includes all the principal cities from Halifax to Victoria.

"Blaze O'Glory" Is Here at Columbia With Betty Compson

Henry B. Walthall and Eddie Dowling Also Starring in Splendid Feature Picture

What makes the director tear his hair, if any—and swear, if profane? It is the interminable number of rehearsals and retakes usually required in the filming of pictures . . . And how he smiles—an angelic aura of content—when he finds an actor who can walk right on to the set while the camera is grinding and go through the scene as though he were really living the part.

But it takes a seasoned trouper and an extraordinary artist in one to bring about a millenium. In the filming of "Blaze O' Glory" Director Renaud Hoffman of the Sono-Art all-talker, stated that it was the first time in his experience that it was unnecessary to rehearse or retake a single scene in which his featured leads, including Eddie Dowling, the star, Henry B. Walthall and Betty Compson, appeared.

Each one is a seasoned veteran, and they are to be seen at the Columbia Theatre to-day when "Blaze O' Glory," Mr. Dowling's second singing, talking and dancing picture, will be presented for the first time in this city.

London's Night Life Vividly Portrayed In Feature at Coliseum

"Greek Street" Is English Film and Offers Striking Scenes of Soho District

The Soho beloved of novelists and romanticists serves as a background for an entertaining romantic talkie, "Greek Street," which is now at the Coliseum Theatre.

"Greek Street," the Gaumont-British all-talking picture, whose atmosphere is redolent of the brighter side of London's night life, tells the story of a homeless little girl who is befriended by the young Italian proprietor of a little cafe. In gratitude for his kindness she sings in the little cafe at night time.

Her reputation as a singer spreads and an unscrupulous roue and cabaret producer invites her to appear in a big cabaret show. The Italian boy protests and a quarrel between him and the girl has the effect of hastening her decision to sign a contract with the cabaret producer.

Thereafter the story pursues its way. The girl repulses the advances of the roue and is helped in this by an elderly baronet. Finally, of course, the lovers are happily united as happens in all the best stories.

Sari Maritza, a charming young actress, is the feminine star, and her appearance is this film will bring her into public favor. William Freshman, a handsome youngster, is the hero, while the parts of the roue and the elderly baronet are played by Martin Lewis and Bert Coote respectively.

"Men on Call" Will Show at Playhouse Starting Thursday

Mae Clarke Will Have Leading Feminine Role in Thrilling Drama of Coast Guard

Mae Clarke portrays the featured feminine role opposite Edmund Lowe in his latest Fox movietone production, "Men On Call," thrilling drama of the Coast Guard which will have its first local showing at the Playhouse Theatre Thursday of this week. William Harrigan is another suitor for Miss Clarke's favors, but Lowe's heroism in the face of dangers encountered during a wreck at sea finally wins her love.

Amusing Picture Is At the Playhouse Starring Jed Prouty

Current Attraction Is Clever Comedy Based on Troubles of Traveling Troupe

Would you believe that "Rubber Legs," Leon Errol and Jed Prouty of "The Broadway Melody" were once partners in an auto paint concern?

Yes—the two comedians once sold their wares at 63d and Broadway, New York, under the firm name of Errol and Prouty. Comedians are so scarce, however, that the stage soon grabbed them back. Prouty is now featured in Edgar Selwyn's picture, "The Girl in the Show," which is now playing at the Playhouse Theatre. The picture is a very amusing comedy based on the troubles of a stranded "Uncle Tom's Cabin" troupe.

CLIVE BROOK AT DOMINION IN FINE FILM

"Scandal Sheet" Is Story of Newspaper Life and Also Stars Kay Francis

Lucien Littlefield, who is to talking films what Chic Sale is to the stage—a comedy character specialist, has an important role in George Bancroft's newest Paramount filmelodrama—"Scandal Sheet," which continues to-day and Tuesday at the Dominion Theatre.

Littlefield plays the part of the night city editor on the tabloid daily over which Bancroft wields his terrorizing power as the ruthless managing editor. He is seen as a nervous, trembling, scared news-dispenser whereas Bancroft, his boss, is the epitome of brutality and fearlessness. Bancroft's code is "if it's news it get's printed, no matter whom it may hurt." Littlefield is obliged to further this creed, whether he likes it or not. After a series of thrilling episodes Bancroft falls a victim of his own precepts.

Littlefield's most recent work for Paramount was in Jackie Coogan's "Tom Sawyer," as the birch-wielding school-master.

John Cromwell, who directed "Tom Sawyer" and several other Paramount successes, was also the director of "Scandal Sheet."

"Scandal Sheet" was written by Vincent Lawrence and Max Marcin, successful New York playwrights.

Others in support of Bancroft in this picture are Clive Brook, Kay Francis, Regis Toomey and Gilbert Emery.

Ship, Rail and Aviation News

Pumping Soon Will Be Started Aboard Ss. Prince Rupert

Divers Busy This Morning Blocking Portholes and Other Openings on Submerged Canadian National Ship in Esquimalt Harbor; Rupert Still Has Heavy List as Salvage Workers Prepare for Pumping of Ship; Expected She Will Be Righted By End of Week; Government Inquiry May Not Be Necessary.

Divers were engaged this morning in sealing portholes and other openings on the Canadian National steamer Prince Rupert, which sank alongside Yarrows' wharf in Esquimalt Harbor at midnight on Friday, and pumping machinery was being placed aboard, preparatory to the pumping of the vessel. It is expected work will start on the pumps tomorrow or Wednesday and that the vessel will be righted by the end of the week. The ship still is at the same angle as on Saturday with her stern completely submerged. The work is in the hands of the Pacific Salvage Company and the steamer Salvage King is tied up on the other side of the dock from the Prince Rupert.

Divers were working outside and inside the ship this morning. From a scow on the outside a diver made frequent trips down to the stern closing up portholes and generally making a survey of the ship's position on the bottom. She is lying in about twenty-six feet of water. Inside the ship divers are working in the engine room and the boiler room and are also making surveys in the holds, which are completly flooded. Furniture from the dining-room, the smoking-room and the staterooms is floating about, and most of this, it is expected, will be completely ruined by the water and the oil, which is covering the ship with a dirty scum. The pumping machinery was being taken aboard through the forward freight doors. Great care had to be taken with this job because of the terrific list of the ship.

A LONG JOB

When the Prince Rupert is raised she will again be floated into the government drydock across the harbor from the Yarrow plant. There she will be completely surveyed and given another overhaul. She was taken out of the basin last week and was being given an engine overhaul when the mishap occurred on Friday night. It is expected that it will be six weeks or two months before the ship is ready for service. The entire interior of the ship will have to be refitted and a great deal of the furniture will have to be replaced before the vessel is ready for service.

The Salvage King herself was under repair this morning. One of the forward plates was being replaced by a gang of men in the employ of Yarrows. The Salvage King suffered damages when she went to the aid of the freighter James Griffiths, stranded on Rosedale Reef last week. In putting a line aboard the ferighter, the King crashed into the stranded ship and tore a hole in her plate.

All day yesterday crowds of people went out to Esquimalt to have a look at the Prince Rupert. Because it was feared the wharf might prove dangerous if the ship should take a further list, no one was allowed on it. People, however, took advantage of the numerous rocky points about the harbor and from them had a better view of the ship than if they had been allowed on the wharf. It is estimated that 5,000 people have seen the ship since she sank on Friday.

Commander A. S. M. Nicholls, superintendent of the Canadian National fleet at Vancouver, is in Victoria and spent most of the morning at Esquimalt. Canadian National officials are conferring as to the reason of the Prince Rupert's sudden sinking. When she is raised there will be a further inquiry and a statement issued then, it is announced to-day.

Capt. J. D. McPherson, dominion wreck commissioner in Victoria, said this morning, when questioned on the subject, that he had received no word from Ottawa to hold a government inquiry into the accident. Such an inquiry will be unnecessary, it is thought here

FRANCE TAKES CENSUS

Paris, March 9.—Sensitive women and bacvhelors, as well as babes in cradles, had to reveal their ages to an army of officials which combed France and took the quinquennial census yesterday. France counts her population will show an increase beyond the unofficial 1929 count of 41,000,000.

BUSY WEEK SCHEDULED AT DOCKS

Delftdyk, Gracia and City of Vancouver Due Here From Europe By Way of Panama

Rochelie in This Morning; Iroquois Leaves To-night For Extensive Overhaul

This week's steamship arrivals from the United Kingdom have been delayed and will not be here until Thursday and Friday, although they were originally scheduled to arrive on Wednesday. The Holland-American motorship Delftdyk has been delayed at San Francisco, and will not sail from that port until this evening for Victoria and Vancouver. This sailing will bring the ship here about Thursday morning. For Victoria the Delftdyk has 100 tons of general cargo and a number of passengers. Before proceeding to Vancouver she will lead fifty tons of general cargo at the Rithet piers for London and Rotterdam.

The second vessel of the week due from Europe is the Gracia of the Donaldson fleet. The Gracia will not arrive here until Friday or Saturday. For Victoria she has about seventy tons of general.

The C.P.R. steamer Princess Maquinna arrived at the Belleville Street piers yesterday at noon on her return from a trip to the West Coast of Vancouver Island. She proceeded later in the day to Vancouver and will return here Wednesday morning to sail that evening at 11 o'colck for another trip to the West Coast.

On her first trip to British Columbia waters, the motorship Topeka is now in Vancouver loading general cargo and may call here before she sails for Holland, March 26. The Topeka is a new ship and has accommodation for ten first class gassengers. Most of this accommodation is already filled, King Brothers, local agents for the ship, reported this morning, although there are still a few berths vacant. On her way to Rotterdam the Topeka will call at Panama Canal ports, Belize, Nassau and Kingston.

From California ports the Kingsley freighter Rochelle docked at the Ogden Point piers this morning at 1.30 o'clock and before proceeding to Vancouver, two hours later, left about thirty tons of general cargo here. The freighter Somerville is still at Brentwood Bay loading a cargo of 4,500,444 of railroad ties for Egypt. She will be in Saanich Arm until Thursday or Friday. Both ships are handled by King Brothers.

There will be few passenger liners here this week, although the freight movement looks fairly active. On Thursday the Pacific Steamship Company's liner Emma Alexander is due here from San Diego, Los Angeles and Francisco, and on Saturday afternoon the Canadian Pacific liner Empress of Asia is due here from Vancouver on her way to ports in Japan, China and the Philippine Islands. Other than these two ships there are no other passenger liners due.

The Norwegian motorship Villanger is now in Vancouver and will arrive here about Friday to enter the Dominion Government drydock at Esquimalt for a general overhaul by Yarrow's Limited. The Villanger recetnly arrived on the coast from South America and is discharging cargo in Vancouver before coming here. Also due here on Friday is the freighter City of Vancouver, which is coming here from the United Kingdom with a parcel of cargo for discharge here.

The Puget Sound Navigation Company's steamer Iroquois, which has been plying between Victoria and Seattle, by way of Puget Sound ports for nearly three years without being in drydock for more than a day at a time, will be taken off the run in Seattle this evening and will go to drydock for a thorough overhaul that will take two or three weeks. Her place will be taken by the steamer Sol Duc, well-known at Victoria, and which has just been released from drydock herself after a three weeks' overhaul.

Thousands of coins, intended for homage to deity, Suitengu, who protects those that go to sea, on steps of shrine after being thrown by devotees, missing offertory box.

PILOT'S LOOKOUT

Golden Fleece, passed Victoria, outbound, 1.10 a.m.

Rochelie, docked Victoria from California ports, 1.30 a.m.; proceeded to Vancouver, 3.30 a.m.

Recorder, passed Victoria, bound Vancouver, 9 a.m.

Boreon, passed Victoria, bound Vancouver, 12.30 p.m.

SEATTLE SHIPPING

Seattle, March 9.—(A.P.)—To begin a series of hearings in Seattle, Portland, San Francisco and Los Angeles, seven members of the United States load line committee will arrive here next Thursday from the East, said advices received yesterday. They plan to ascertain the views of ship owners and shippers of the Pacific Coast on the workings of the present load line regulations.

The committee headed by Norman F. Titus, president of the American Institute of Shipping is composed also of H. B. Walker, president of the American Steamship Owners' Association and vice-chairman of the committee; Lawrence Pryor, bureau of navigation, United States department of commerce; S. D. McComb, manager, marine office of America; Robert F. Hand, vice-president Standard Shipping company, David Arnott, chief surveyor, American shipping board.

Alaska Flier On Way to Fairbanks

Point Barrow, Alaska, March 9.—Joe Crosson, Alaska airman who brought much-needed anti-toxin to diphtheria stricken patients here, was returning to Fairbanks to-day.

En route to Fairbanks, Crosson planned to arrange a gasoline cache for two other planes expected to bring additional supplies of anti-toxin here early this week.

Another case of diphtheria was discovered to-day. Five persons were suffering from virulent attacks.

TIGHT SQUEEZE FOR BRITISH WARSHIP

With but a scant foot of clearance on either side, H.M.S. Nelson of the British flee, distinguished visitor at the United States' naval manoeuvres, here is shown in Gatun Lock, Panama Canal, while she was being towed from the Atlantic to the Pacific. As this picture was taken the battleship was being lowered thirty-two feet in the first of three locks encountered on her way down to the western ocean. Note the crew crowded along the rail as the huge craft settled into her narrow berth.

Sailed: Anselmo, Portland; Celilo, San Pedro; San Pedro, Cuba Maru, Portland; J. C. Fitzsimmons, William Isom, San Pedro; City of Vancouver, Chile, Seattle; Anyox, Vancouver.

Arrived

Philadelphia, March 8.—Eastern Sun, Los Angeles.

Balboa, March 7.—Swift Wind, Los Angeles.

Sailed

New York, March 8.—Selma City, San Francisco.

Baltimore, March 8.—Pacific Hemlock, Los Angeles.

Balboa, March 7.—La Perla, San Francisco.

Panama Canal, March 7.—Passed, eastbound: Cellina, Genoa for San Francisco; Hoyanger, Rotterdam for San Francisco; Lyca, Halifax for Vancouver; Sw Jerneborg, Boston for Portal; Berni Arana, New York for Callao; Hobart, New York for Auckland.

SEATTLE SHIPPING

Seattle, March 10.—A heavy summer passenger travel to Oriental ports was expected by the N.Y.K. line, the company announcing here yesterday that both cabin and tourist passenger accommodations have been completely booked for the June 24 sailing of the Hikawa Maru and most on the tourist passenger accommodations on the Hive Maru sailing July 8 being reserved.

The Seattle office of the Department of Commerce announced dried fruit exports from the United States in 1930 exceeded similar shipments for the preceding year by nearly 6,000,000 pounds, but low prices resulted in a decline in value.

Inquiry Into Wreck Of James Griffiths Finished in Seattle

U.S. Federal Inspectors Will Announce Decision This Week Regarding Mishap

Seattle, March 9.—Investigation of the wreck of the Seattle freighter James Griffiths on Rosedale Reef, near Race Rocks, in the Strait of Juan de Fuca, was completed Saturday. Capt. Donald S. Ames and Thomas Short, United States steamboat inspectors, found that K. A. Mortensen, first officer of the James Griffiths, was on watch when the vessel went on the rocks.

The freighter, fully laden and bound from Seattle and Tacoma for San Francisco, stranded on Rosedale Reef at 1.45 a.m., and was badly damaged. Capt. Julius Johansen, veteran of the coastwise and Alaska route, who was master of the vessel, was asleep in his berth when the crash came. The inspectors will give their decision this week.

The James Griffiths was at the Great Northern Dock, Smith Cove, Saturday, discharging her cargo. She will go on drydock at the Todd plant in Seattle Tuesday or Wednesday for survey and then bids for repairs to the vessel will be requested. About twenty plates and many frames are damaged.

The figures for height serve to distinguish high water from low water. Where blanks occur in the tables, the tide rises or falls continuously during two successive tidal periods without turning. The height is in feet and tenths of a foot, measured from the average level of low water.

Turk-Russian Pact For Black Sea Peace

Angora, Turkey, March 9.—The text of a protocol limiting naval armaments in the Black Sea, signed here Saturday by Turkish and Russian representatives, was published to-day.

Completing the Russo-Turk protocol of 1929, the new agreement engages Turkey and Russia not to proceed with any augmentation of naval armaments on the Black Sea or contiguous seas without notifying the other party six months in advance.

Capt. Waard Reaches Hawaii On Way Here

Intrepid Navigator Who Brought Chinese Junk Amoy to Victoria, Reaches Honolulu in Auxiliary Schooner Coquette After Rough Voyage From Hongkong; Food Ran Low and Members of Crew Doled Small Portions of Bread and Rice; Ship May Arrive Here Within Month.

Capt. George Waard, who is well known to Victorians as the daring skipper who brought the Chinese junk Amoy across the Pacific from Shanghai to Victoria about ten years ago, will be interested to hear that he is now at Honolulu, having reached the island port the other day after a trying voyage from China in the sixty-five-foot auxiliary power schooner Coquette, on his way to Victoria and Vancouver. Capt. Waard was eighty-three days out from Hongkong when he reached the Hawaii port, and the voyage was a hard one, the crew suffering from hunger and illness.

Waterfront workers here would not be surprised to see Capt. Waard and the Coquette come into the inner harbor here within the next month. When he crossed the Pacific on the Amoy no word was received here as to the voyage until one morning the Amoy sailed into the harbor and dropped anchor in front of the Empress Hotel, much to the surprise of people passing along the Causeway. Nearly every one in Victoria visited the Amoy, and Capt. Waard's name as a daring navigator spread to the four corners of the continent. After visiting here several weeks, Capt. Waard took the Amoy through the Panama Canal to New York, where she was sold.

Following is the message receievd here to-day telling of Capt. Waard's arrival in Honolulu on Saturday:

"A story of privation and hardship, caused by terrific storms in midpacific, was related here Saturday by the crew of the auxiliary schooner Coquette when the vessel docked after an eighty-three-day voyage from Hongkong, en route to Victoria and Vancouver, B.C.

"Capt. George Waard, master and owner of the Coquette, said they were blown off their course by the storms, delaying them for weeks. The men were reduced to one bucket of muddy rainwater and a few scant remains of their larder during the last eight days of the trip to Honollulu.

"Capt. Waard, who plans to use the Coquette in the British Columbia fishing industry, attracted considerable notice eight years ago when he sailed a Chinese junk from China to New York. The voyage required two years.

"On his present voyage he doled small portions of bread and rice to the six members of his crew, including his son, Robert Waard."

CAPTAIN KETTLE OF AIR WRITES ADVENTURE BOOK

Reuter's Special to The Victoria Times

London—One remembers the late "Commander" Samson's gallant exploits in Belgium during the first weeks of the war, and in days when flying was not a pastime but a peril. He was from early days the Captain Kettle of the air, and his name and achievements are legitimately a legend. His book, "A Flight From Cairo to Cape Town and Back," is the breezy but instructive story of a transafrican flight when the commodore flew from Cairo to Cape Town, not actually for the first time, as he tells us, since this feat was accomplished by others seven years before.

Compared with Van Ryneveld and Brand's great flight, "ours," observes the commodore modestly, "was like crossing the Atlantic in a modern Cunarder as opposed to the old Santa Maria by Columbus."

Flying conditions have been revolutionized since then, when the earth was uncharted, and safeguards, deemed now essential, were unknown. Yet flying across the Nubian Desert is no joy ride.

AIRMAN AND ARTIST TOO

There is a practical side to this book also; the proof that even in Africa time-schedules can be kept, and that airdromes and workshops can be made available. We expected the commodore to possess the eye of an osprey to detect the glint of a pool or of railway lines in order to decide his position and select a landing-place (remarks The Sunday Times). But we did not appreciate fully that he possessed also the eye of an artist and the pen at times of a poet. Memorable, indeed, are his pictures of the Pyramids, the rolling deserts, the roaring falls, and—best of all—those sheltered oases of primitive life in the outposts of the empire. Commodore Samson performed great service in blazing the trail afresh across the continent which Cecil Rhodes dreamed of spanning one day by rail, although he never surely in his wildest imagining conceived it to be conquerable by air.

SAN FRANCISCO SHIPPING

San Francisco, March 9.—(A.P.)—Erik Krag, general-manager on the Pacific Coast for Inter-ocean Steamship Corporation, announces the appointment of Lyndon B. Fitch to the position of traffic manager of the company, effective March 15.

Victoria College Students Electing Officers For Term

Nominations were made at Victoria College last week for the officers of the Alma Mater Society and Students' Council. Donald Purves was elected treasurer by acclamation, replacing A. Plows. Other nominations for the various offices were as follows: President of the Students' Council, Alex. (Sandy) Marlin and Kenneth C. Ross; secretary to the council, Miss Isobel Burton and Miss Gwladys Downes; president of the literary and scientific societies, Miss Isobel Gibson and Jack Bulinckx.

The election will take place on Friday next, while the nominations and elections for presidents of women's and men's athletics will take place at the beginning of the next term.

BISURATED MAGNESIA

BISURATED MAGNESIA is a magnesia compound especially prepared for the safe, speedy and certain correction of dangerous stomach acidity. It comes only in the form of five grain tablets and powder in sealed blue packages. Do not confuse with commercial magnesia, milk of magnesia or citrate of magnesia. Look for the word BISURATED and get the genuine from DRUGGISTS EVERYWHERE. ((Advt.)

ONTARIO MAN KILLS WIFE AND ENDS OWN LIFE

Strathroy, Ont., March 9.—Depressed by financial worries and despondent over his wife's sickness, which had kept her bed-ridden for some time, Thomas Stratham, fifty-year-old Strathroy machinist, shot and killed his wife yesterday evening and then shot himself. He died several hours later.

Stratham killed his wife while she law in a comatose condition, according to a nurse who had been attending the woman. The shooting was done while the nurse was at a drugstore buying medicine which Stratham insisted his wife must have.

VANCOUVER MAN KILLED BY FALL

Vancouver, March 9.—Arthur Addison, 5626 Alma Road, Vancouver, was the victim of a peculiar accident Sunday afternoon. He fell to his death down four steps.

Detective J. Branca, who investigated, reported Mr. Addison was working in his garden. Growing tired, he sat on steps leading from the back veranda. Suddenly he fell forward and struck his head on the cement sidewalk, inflicting a three-inch gash in his forehead.

Mrs. Addison, hearing him fall, rushed to the door. Her scream brought assistance from neighbors, but Mr. Addison died before the arrival of medical aid.

Mr. Addison was a pioneer resident of the city, coming here in 1890. He was born in Goderich, Ont. He was plant manager for Clark and Stuart. Beside the widow he is survived by one son, Sanford.

FOUR HELD IN PLOT INQUIRY

Havana, March 9.—An attempt to assassinate President Gerardo Machado February 23, when a bomb was set off in a bathroom of the palace, to-day had brought the detention of a man bearing the same name as the president—the fourth arrested in connection with the act.

Emiliano Machado, a contractor, was brought here yesterday from the interior. He frequently had been seen with the Francisco Diaz, former Havana municipal official, who is held as one of the prime movers in the plot.

Others under arrest are Manuel Espinosa, former aide-de-camp to the President, and Emilio Valdes, a soldier, who is charged with the actual dropping of the bomb into the vent pipe that carried it into the palace. The President escaped injury beause an elbow in the pipe stopped the explosive one floor above his bathroom.

Joyce and Catherine Lewis, twins, pose on their seventh birthday with thirty-four cups they won in beauty contests and baby parades.

Mrs. E. Donogh, Widow of London Barrister, Dies

Mrs. Elizabeth Donogh, widow of W. R. Donogh, former barrister of the Inner Temple, London, passed away at her residence, 418 Menzies Street on Friday. She survived her husband, who also died in Victoria, by five years.

Mrs. Donogh was a great traveler. Born in Scotland, she went to India to be married, and resided there for some years, subsequently spending ten years on the continent, principally in France, Italy and Switzerland, for the education of her three daughters, all now residents of Victoria. In 1919 Mr. and Mrs. Donogh came to Victoria and made their home here and many friends will sincerely mourn her passing.

She is survived by three daughters, Miss Kathleen Donogh, of H.M. Customs; Miss Dora Donogh, a well-known art teacher in the city, and Mrs. Aspin, wife of Hamilton Aspin, of the B.C. Coast Steamship Service.

The remains were buried beside those of her husband in the Royal Oak Burial Park, the service taking place at the residence this afternoon.

Channel Islands Linked By Phone

Reuter's Special to The Victoria Times

London—Within a month it will be possible to ring up the Channel Islands on the telephone from any part of Great Britain. It will be the first time that Guernsey and Jersey, so popular among British tourists, have been connected to the mainland in this way.

The achievement has only been brought about as the result of months of experimental work in the research department of the General Post Office. A discovery has been made which may revolutionize the whole of our long-distance telephone service. The Channel Islands are 100 miles from the nearest point in England. One of the many difficulties which had to be overcome was the attenuation of the voice. It was found that over the cable it was proposed to lay, the attenuation would be of such a dimension as to make speech almost inaudible.

"We handed this problem over to our research department," stated an official of the General Post Office, "and after extensive tests they discovered a means of intensifying the voice in such a way that the attenuation on the cable was compensated for on the land lines. By this invention the voice will be magnified five times. This will be possible by means of voice-operated devices, which control themselves through the subscribers' speech."

There is a romance surrounding the cable which has been laid. The engineers had to consider how to lay a cable which would make the service economically practicable. It was proposed to use the existing telegraphic cable, and this was converted for telephone purposes. This cable was laid during the war, and was part of the cable we took from the Germans in 1914. The new cable, which is 100 miles in length, was laid by engineers on board the Post Office cable ship Monarch. They encountered very stormy weather and two or three times had to run for shelter.

New Air Liner High Speed Cruiser

Reuter's Special to The Victoria Times

London—A new Fokker passenger and mail three-engined monoplane for the Amsterdam-Batavia service of the Imperial Dutch Air Lines was seen at Croydon this week. It is a type of exceptional interest, being specially designed for regular air transport in parts of the world over which, for transport purposes, Great Britain has particular interest. The problem of which this machine is an attempted solution is that of high-speed cruising. A speed of 112 m.p.h. is claimed for it, but actually, owing to eleventh-hour improvements, it cruises at nearly 120 m.p.h., and therefore represents a very great advance in any British air liner. It is considered that an air liner with a lower cruising speed than 100 m.p.h. is out-of-date, and that most travelers would prefer the motor-car.

FLYING ON ANY TWO ENGINES

The technical detail in which the new Fokker must be regarded as an important advance is its ability to fly on any two of its three engines, and this without putting the two engines at maximum speed. This claim is made for many three-engined types, but in practice it has been necessary when one engine stopped to open out the other two full throttle, with failure as a frequent consequence. The new Fokker, which is a sixteen-seater, is smaller than the engines which fly between London and Amsterdam. The engines are American "Wasps" of 425 h.p. The fortnightly service from Amsterdam to Batavia, which is run in all seasons, only takes ten days. Over a great part of the route the machines use the same airdromes as Imperial Airways. The two companies work together on the best of terms, though the Dutch line is not permitted to use Indian airdromes except as landing-places.

The watch may be used as a compass. Point the hour hand to the north, then, in the morning, half-way between the hour hand and noon is south. In the afternoon one must reckon backward.

The Biggest Values in 24 years

The new Willys cars are the biggest values in Willys-Overland's 24-year history. Price savings this year are impressive — from $170 to $800 over last year's similar models.

And at these low prices you get a score of new improvements and refinements. The new 58¼-inch tread, the widest of all low-priced cars, provides extra width in the rear seat. The back of the front seat can be inclined at an angle to suit your comfort.

Other features include finer coachwork, finger-tip control, duo-servo cable and conduit control brakes, four hydraulic shock eliminators and many other mechanical advancements. High compression engines give speed ranges of 70 to 80 miles an hour.

See these greater Willys values — a big Six priced like a Four — a powerful Eight — a brilliant Willys-Knight. They are now on display — arrange for a demonstration,

BORN

SHANDLEY—To Mr. and Mrs. F. M. Shandley of 582 Marifield Avenue, on March 9 at St. Joseph's Hospital, a son.

IN MEMORIAM

BRIGGS—In loving memory of our darling Dorothy, who died March 9, 1929, aged three years, seven months.

We loved her, yes, we loved her,
But angels loved her more,
And they have sweetly called her
To yonder shining shore.
Fold her, O Father, in thine arms,
And let her henceforth be
A messenger of love between
Our human hearts and thee.

—Loved and remembered by Mammy, Daddy and Brothers, Raymond and Melvin.

Uncle Ray's Corner

India's Strange Temples

What a strange land is India, and how often I am asked questions about it! It seems to me that people are more interested in India than in any other country in Asia, although China and Japan also hold keen interest for people of the western world. Among the curious sights in India are the temples, and I should like to have you visit two of them with me to-day.

UNCLE RAY

The temples of India were built by persons of different faiths, but whether Brahman, Buddhist or Mohammedan, they seem strange to us.

The Great Temple in the town of Buddha Gaya has been called the most sacred shrine of the Buddhists. Outside its doorway is the "Sacred Bo-tree."

The Sacred Bo-tree is supposed to be growing at the very spot where Gotama, "the Buddha," learned the secret of life. Legend says that the Buddha rested under a bo-tree (in other words, a figtree) almost 2,500 years ago. The present tree is not the same one, but it is supposed to have grown from seeds produced by the bo-tree under which the Buddha solved the riddle of being.

The Great Temple is a tall, four-sided structure which rises to a point. It has nine stories, and its wall are formed of bricks. Mud was used for holding the bricks together, taking the place of the mortar which we commonly use for the same purpose.

Around the Great Temple are small shrines, some of them with pointed tops. The temple was built about 1,400 years ago.

A good example of a Brahman temple is located at a place with a long and odd name—"Bhuvaneshwar." This temple is 155 feet high, and is supposed to date back to the year 637.

The great temple at Buddha Gaya, India. At the lower right is sacred bo-tree

In the famed cathedrals of Europe are many windows, but the walls of this Brahman temple are an almost solid mass of stone. The stone, all over the outside, is carved with figures and designs. Many of the figures are animals, and the dome appears to be held up by images of lions.

To-morrow—Death of the Buddha.

Uncle Ray

There are nearly 200,000 members of Uncle Ray's Scrapbook Club. If you wish to join send a stamped self-addressed envelope to Uncle Ray and ask for illustrated Direction Leaflet and 1931 Membership Certificate.

Thomas Charles Craig, 2714 Rose Street, Victoria, B.C. (12).

WHISTLES? THIS MAN HAS 300

London—In ten years of collecting, A. J. Willins, Brighton confectioner, has gathered more than 300 different whistles from all parts of the world.

He has whistles shaped like soldiers, birds, engines, teapots, horses, cows and all sorts of animals. There are tiny and huge ones. One of these represents a soldier in armor.

Several of his whistles are shaped to reproduce faithfully the calls of birds. These, he informs, were used by gamekeepers and bird fanciers.

TIDAL POWER

Reuter's Special to The Victoria Times

Bristol, Eng.—Experiments are being carried on at Avonmouth Docks to take electrical energy from tidal action. The system is based on the fluctuation of the tides and, if found practical, a cheap source of electrical power will be obtained. It is estimated that more than 1,000,000 horsepower can be obtained from tides in the Bristol Channel.

Chicago was the first town to have a ten-story building. This was erected in 1885.

POOR PA

HIGHLANDERS FLASH OLD FORM TO TAKE SECOND HALF TITLE

(Continued From Page 9)

Ted May, Robson and Wenman forced back to centre before the rival backs opened a kickfest which ended with the Wanderers on the Scots "two-bit" line.

Play swung from end to end as the opposing forwards gained and lost on kick-and-run plays.

HORNE SCORES

Horne kicked deep into the Wanderers ground to open the first effective sortie. Haines returned, but the Higlanders forced back. On a perfect three-quarter movement Robson passed to Henderson, who threw inside to Wenman. Wenman made an opening, drew Osler and passed to Horne, who raced over for the first try twenty minutes after the start. Campbell Forbes converted from a difficult angle.

From the kick-off the militiamen forced down. Robson and Horne combined on a pretty piece of work to carry the ball back to the Wanderers' twenty-five after the Oak Bay boys had cleared. G. Douglas relieved with a long punt to the Highlanders' line. Turgoose took the ball and punted back.

Maintaining their attack, the Oak Bay men forced into the Scots territory, pressing at the corner. In a mass forward play de Blaquiere secured and, hiding the ball behind his back, smashed over for the Wanderers' lone try seven minutes after the troops' first score. Douglas missed the kick.

PERFECT KICK

Three minutes later the Scots went down on a kick. Haines caught and grounded the ball. The militiamen tried to drag him off, but he held on. Referee Grant awarded a free kick and Campbell Forbes placed the ball fifty yards out. With the wind against him he kicked perfectly to score another three points.

From the kick-off, Douglas went down on a dribble. The troops forced back, but played offside forty yards from their own line to give the Wanderers a penalty kick.

PENALTY GOAL

Haines was given the ball and sent it between the uprights with a spectacular drop, to bring his team within two points of the Highlanders just before the rest interval.

With a terrific attack from the kick-off, the Scots cracked the Wanderers' defence wide open in the second half. The forwards rushed through for a fifteen-yard line-out in the Oak Bay territory from the kick and then forced a five-yard scrum. They carried the ball over in the loose, but Parfitt got his hands to it to prevent a try.

Following a series of scrums and line-outs, Harry Robson took the ball from the loose ten yards from the line. He galloped through on the blind side to slide over for the troops' second try. The kick failed.

SMART THREE-QUARTER RUN

The Wanderers rallied from the kick-off, but were unable to penetrate the militiamen's defence. Campbell Forbes and Pat Parr broke through on a dangerous rush, but were called back.

Five minutes after their second try the Scots forced to the Oak Bay twenty-five. Wenman took the ball and passed outside to Robson, who gained ground before throwing it to Turgoose on the wing. Turgoose streaked for the corner, going over near the flag. The try was not converted.

Putting on another rally the Wanderers forced into the troops' ground on an attack that came to nothing when Bryden kicked way down.

The Scottish threes combined on a nice run to their opponents' fifteen-yard line. Horne took the ball and went over, but was called back for offside. Symons kicked to clear.

Bruce Forbes and Parr, backed up by Rowlands and Wharton, bore down to the Oak Bay boys' end to force a five-yard line-out. Godfrey Wenman took the ball and crashed over. The try was disallowed.

OVER AGAIN

Shortly after the militiamen's threes again swung into action. Reg. Wenman took Henderson's pass and threw to Turgoose on the wing. Turgoose completed the movement, again going over near the corner. The kick went wide.

Trying desperately to block the Highlanders' offensive, the Oak Bay boys forced to centre and gained the troops' twenty-five on a kick. Godfrey Wenman led the Scots forwards back on a terrific dribble. From a line-out deep in the Wanderers' territory, Campbell Forbes took the ball and kicked over. He raced Osler for it and touched down near the dead line. Brother Bruce's kick fell short.

GALLANT ATTEMPT

With the game almost over, Chris Usher uncorked a burst of speed to carry the ball deep into the Highlanders' ground on the last play of the day.

Both teams put up splendid battles, but the superior experience and punch of the Scots gave them victory.

G. C. Grant refereed, and the teams lined up as follows:

Wanderers — Osler, Thornberry, Haines, Pease, Usher, Golby, Symons, Parfitt, I. Douglas, G. Douglas, Hood, King, Hopewell, Harrison and De Blacquiere.

Scottish—Bryden, Horne, R. Wenman, Henderson, Turgoose, Robson, Normington, May, Wharton, B. Forbes, Parr, Bernard, C. Forbes, Rowlands and G. Wenman.

SAANICH WIN OVER WESTS IN CUP GAME

(Continued From Page 9)

THISTLES SCORE EARLY

Saanich Thistles forced the issue from the opening whistle and King got home the first shot of the match, a sizzler that just grazed over the top of the crossbar. Before the Wests had settled themselves, Minnis, Burns and Freddy Price all had had pot shots at Restall, but they were blocked. The match had been in progress about twenty minutes when Minnis put the Thistles in the lead when his stinging drive from left wing found the corner of the net.

The Wests pulled themselves together and succeeded in carrying the play up the field where Bridges was called upon to save from Robinson and Peers. The Wests got back onto even terms when Referee McKay called a foul against Bridges for too many steps with the ball in his possession. The Wests were awarded a free kick about ten feet from the goal line and the Thistles' players, instead of crowding their goal, gave Bridges a clear view of the kick. Mulcahy, who took the shot passed the ball to Robinson and the latter dribbled it into the goal. The Thistles protested for an offside but the goal was allowed.

Just before half-time the Thistles went into the lead again and retained it until the final whistle. During pressure on the Wests' goal, Restall blocked a shot but before he could clear was rushed by Viggers. The two players collided and the goalie dropped the ball, allowing King to rush it into an open goal. Half-time found the Thistles still leading by the odd goal in three.

CROWE BROTHERS SCORE

Two fine goals by the Crowe brothers, Joe and Jim, early in the second half sewed up the game for the Thistles. The first came from the boot of Joe, the Thistles' centre-half. Blocking a pass, he worked his way into good shooting position and let drive with a shot that had goal marked all over it. A few minutes later Jim duplicated the trick, getting much applause from the fans for his effort.

On the short end of a 4 to 1 count, the Wests tried hard to cut down the disadvantage and gave Bridges a few anxious moments with a flurry of shots. After ten minutes on the offensive, the greenshirts managed to count their second and final goal. Peers breaking through himself and deflecting a shot off Sammy Essler into the Thistles' net.

With time drawing near, King obtained possession in the Wests' penalty area and beat Restall with a fast shot for the Thistles' fifth and final tally.

"Scotty" McKay refereed in a most capable manner.

The teams follow:

Victoria West—Restall; R. Shanks, Thompson; Peden, Williams, Stewart; Youson, Mulcahy, Robinson, Peers and B. Shanks.

Saanich Thistles—Bridges; Harper, Armitage; Jim Crowe, Joe Crowe, Essler; Viggers, Price, Burns, King and Minnis.

Use Overhand Hook Pass Tight Corner

BY SOL METZGER

The cutting forward who gets a lead over his guard, as No. 2 has succeeded in doing in the accompanying diagram, often finds that his opponent gains sufficiently upon him as to force him to dribble into the corner of the court, instead of turning in toward the basket for a close up shot.

If he cannot find a free teammate within range of the basket the dribbler has to take a pot shot for it. Otherwise he passes to this teammate, No. 5, in this case. This pass is made by an overhead hook with the throwing arm.

To execute it the ball is held in the hand of the arm farthest from the opponent. This arm now is swung straight up over the head, the player leaping as he delivers the ball in order to arch it high enough to be sure his opponent cannot intercept or deflect the ball by a jump. Such a shot is made while running at top speed and, while not accurate for shooting, is the only alternative left when teammates are covered. To-morrow—a trick pass when an attempted shot will be blocked.

FIGHTING NEW YORK CLUB DOWNS CHICAGO BLACK HAWKS 2 TO 1

(Continued From Page 8)

New York, March 9.—A scrappy team of New York Americans turned the tables on Chicago Black Hawks yesterday evening and won an important National League clash by a 2 to 1 score. The victory, the first the Americans have scored over Chicago this season, enabled the New Yorkers to remain in the battle for a playoff position a point behind the third-place Montreal Maroons.

Doc Romnes made the Black Hawk goal. Rabbitt McVeigh tied it up on a smooth three-man passing play while Adams was off the ice. Bill Burch sank the winning counter after Gardiner fell trying to stop him.

Americans—Worters; Dutton, Brydge; Burch, Patterson, Emms, Spares, Himes, McVeigh, Sheppard, Carson, Hughes, Massecar, Dutkowski and Simpson.

Chicago — Gardiner; Graham, Bostrum; Somers, Ingram, Arbour, Spares, Ripley, March, Romnes, Gottselig, Couture, Cook, Adams, Abel and Wentworth.

Officials—Corbeau and Daignault.

SUMMARY

First period—No score. Penalties, Sheppard.

Second period—1, Chicago, Romnes (Couture) 11.43; 2, Americans, McVeigh (Dutkowski-Himes), 4.41. Penalty Adams.

Third period — 3, Americans, Buch (Patterson), 1.36. Penalty, Bostrum.

Toronto, March 9—Maple Leafs, plus a lot of luck and a brace of penalties, defeated New York Rangers in a scheduled N. H. L. tussle here Saturday night, 5 to 2. The Leafs, after playing mediocre hockey, turned on the heat in the final period to run up three goals, one of them, while Johnson, of Rangers, was on the penalty bench, and two more when Peters joined his teammate in the coop. Rangers scored their second goal shortly after that, but the damage had been done.

SUMMARY

First period—1, New York, Boucher, 2.32; 2, Toronto, Primeau (Jackson-Conacher), 17.15.

Second period—No score.

Third period—3, Toronto, Bailey (Blair), 3.50; 4, Toronto, Clancy (Bailey), .44; 5, Toronto, Blair (Clancy) .42; 6, New York, Dillon, .53; 7, Toronto, Jackson, 7.10

Montreal, March 9. — Montreal Maroons swarmed over Ottawa Senators here Saturday evening and handed Ottawa's National Hockey League Club a 6-2 beating. Maroons came from behind in the first period, tied the score and ended the period leading 3-1. They ran in two goals to a single Ottawa tally in the second, and then clinched the victory with a goal in the last session.

SUMMARY

First period—1, Ottawa, Kilrea (Lamb), 1.19; 2, Montreal, Northcott (Trottier), 3.14; 3, Montreal, Trottier, 1.14; 4, Montreal, McVicar (Siebert-Stewart), 12.17.

Second period—5, Montreal, Trottier (Northcott), 5.35; 6, Ottawa, Gagne (Touhey), 1.25; 7, Montreal, Phillips (Siebert), .40.

Third period—8, Montreal, Trottier, 12.03.

Boston, March 9.—The lowly Philadelphia Quakers put on a great first period show here Saturday evening, but tired early and allowed the Boston Bruins to sharpshoot them for a 7-2 victory.

SUMMARY

First period—1, Philadelphia, Shields (Lowery), 19.36.

Second period—2, Boston, Clapper (Weiland), 2.33; 3, Boston, Oliver (Barry), 3.21; 4, Boston, Weiland (Shore), 9.05; 5, Boston, Chapman (Darragh), 18.16.

Third period—6, Boston, Clapper, 2.15; 7, Philadelphia, Milks (Barton), 7.50; 8, Boston, Owen (Darragh-Shore), 9.52; 9, Boston, Barry (Owen), 18.52.

Amateur Stars Holding Out for Big Money

With the Stanley Cup play-offs just around the corner, and most managers busy trying to figure their chances of grabbing off the battered mug, starry amateurs who are just finishing their season are being signed up right, left and centre. Bruce Paul, of the National Yacht Club's "Sea Fleas" looms up as the most sought-after player in Canada, or the continent, to-day. As soon as the Nationals were eliminated from the O.H.A. senior hockey finals, the Toronto Maple Leafs approached this defence player with an offer of around $20,000, for a three-year contract. Paul refused even when the offer was raised to $24,000. Soon a rumor became current, and Paul was under the impression, that the Maple Leaf Club had offered him $34,000. To newspapermen, Paul said he would accept. But the offer was not official, and the Toronto management denied all knowledge of it. Now Paul is still holding out for that $34,000. And he has reason to hold out. No more serious-minded and clever defence man has appeared in eastern Canada for many years. He is very dangerous on the attack, and it takes a mighty shifty man to pass him on the defence.

To-morrow—The Deaf and Dump Hockey Star

DAILY HEALTH SERVICE

Pasteur Treatment Is Still Regarded as the Best Means Of Preventing Hydrophobia

By DR. MORRIS FISHBEIN

The opponents of experimentation on animals are constantly looking for evidence to prove that scientific medicine has begun to doubt the original investigations of Pasteur with regard to the prevention of hydrophobia, which is the sequel of the bite of a mad dog.

Regardless of what they may say in the printed statements that they circulate, the evidence in favor of the Pasteur treatment as a preventive measure is as strong, if not much stronger, to-day than when Pasteur first made his fundamental investigation.

The addition of new knowledge has, moreover, tended toward the establishment of routine procedures under such circumstances. In California, the state department of health recommends that as soon as possible the wound should be cauterized with a strong nitric acid, this procedure being undertaken by a physician familiar with the use of the drug. It may be necessary to use an anesthetic because of the pain concerned in such cauterization.

If it is not certain that the animal which did the biting is rabid, the animal should be confined to see whether or not symptoms of madness will develop. If these symptoms do not develop within ten days, it is probable that the animal did not have rabies at the time it bit the human being.

However, the beginning of the Pasteur treatment should never wait until the animal has died or been killed and negri bodies, which are significant of rabies, are found in its brain. Persons bitten by dogs which have symptoms similar to rabies should take the Pasteur treatment even though all laboratory reports are negative.

Death from rabies, either in man or in an animal, involves so much suffering that it should not be imposed on the animal, and if the animal shows signs of madness it should be killed immediately. Animals which have been bitten by other rabid animals should be held confined for at least three months or should be killed immediately.

The question has arisen as to whether or not pet dogs should be immediately inoculated against rabies by the preventive method. Physicians are not convinced that this is desirable any more than it is recommended by physicians to-day that all people be routinely inoculated against scarlet fever or lock-jaw.

These measures are to be held available in times of serious epidemic or of threatened danger because of wound or a bite, but their routine administration is not to be practiced. A pet dog that is not allowed to run free and is not, therefore, likely to be bitten by a rabid dog need not necessarily be given the preventive treatment against hydrophobia.

A BIG JOB

Reuter's Special to The Victoria Times

Berlin—It is a big job to clean and disinfect a railroad train. The German Federal Railways have gone at the job in a big way. The carriages are run into a huge airtight cylinder, into which is pumped a strong disinfectant gas. They remain in the gas long enough to allow it to penetrate every chink and corner, so that all harmful bacteria are killed.

"TOAST" FARM LAND

Berlin.—A system of electric cables which heats and "toasts" farm land something like an electric toaster heats bread, is improving the crop yields of more than 4,500 square yards of land in Germany. This heating speeds up the growth of plants and also increases their yield, it is said.

McDUFFER

OF THE MISSAPUTTA GOLF CLUB
BY BARRIE PAYNE

"Dock Jones wrote a good crack for the Missaputta Magazine this month: 'Two fellows were standing in the lobby of a downtown hotel. One of them was wearing knickers and the other didn't know anything about golf either.'"

NEWS IN BRIEF

Making his second visit to the city from the West Coast within a month, Capt. George Nicholson, proprietor of the Clayoquot Hotel, arrived at the Empress Hotel on Sunday.

The report of the committee of taxpayers appointed at the City Hall meeting will be given at the Amphion Hall on Friday evening. It is intended to form a taxpayers' association. Interested taxpayers are invited to attend.

George Clothier, engineer for the Vancouver Island and coast districts, will speak before the Vancouver Island Prospectors' Association on Thursday evening at 8 o'clock in the Unity Centre Hall, 739 Yates Street. Mr. Clothier will deal with mining development and mining prospects in his district.

W. Hudson, president of the Gyro Club, was named representative of the local club to the district and international conventions of that association at the luncheon in the Empress Hotel to-day. Announcement was made that a mixed bridge party would be held in Amphion Hall on Thursday, March 19, to raise funds to help to defray the delegate's traveling expenses.

Frank Fidler, provincial boys' work secretary, will be in the city on Wednesday to attend the annual meeting of the Victoria Boys' Work Board at 8 o'clock in the Y.M.C.A. In addition to the regular business and election of officers special arrangements will be made for the visit on March 29 of Jim Finlay, national boys' work secretary from Toronto, who will be here to meet with leaders of Tuxis and Trail Ranger groups.

A successful five hundred card party was held under the auspices of the Women's Auxiliary to the Victoria Typograhpical Union at the home of Mr. and Mrs. J. W. Watson, 1709 Bay Street, on Saturday evening. Eight tables were occupied, and the prizes were won by the following: Ladies' first, Mrs. W. E. Skett, second Mrs. C. McLean; gentlemen's first, Mr. J. E. Macdonald; second, Mr. C. McLean; novelty prize, Mrs. J. M. Cooper. Refreshments, a vocal solo by Mr. Rance, and dancing concluded the evening. The W.A. is indebted to Mr. and Mrs. Watson for their kindly hospitality. Mrs. J. E. Macdonald was joint hostess.

OBITUARY

William Alexander Lee passed away in his thirty-fifth year in San Francisco, Cal., on Saturday. He was born in Larchmont, N.Y., and leaves to mourn his loss his parents, Mr. and Mrs. Robert Lee, of Victoria, two sisters, Mrs. Chas Dallimore, Victoria, and Mrs. Grant Colborne, Duncan, B.C., and one brother, Robert C. Lee, San Francisco. Interment will take place in San Francisco.

There passed away on Saturday evening at the Royal Jubilee Hospital, Frances Lillian Dawkin, aged five years and eleven months, daughter of Mr. and Mrs. Lancelot Dawkin, of 425 Cecelia Street. She was born in Chemainus and is mourned by her parents, one brother and two sisters, also her grandparents, Mr. and Mrs. Geo. Dawkin, of Nanaimo. The funeral will take place on Wednesday afternoon at 2 o'clock from McCall Bros. Funeral Home. Rev. T. A. Jansen will conduct the service, after which interment will be made in Royal Oak Burial Park.

A cablegram was received in the city to-day announcing the death at 8 o'clock this morning of Mrs. Martha Parfitt of Bath, Somerset, England, in her eighty-ninth year. The late Mrs. Parfitt was the widow of Aaron Parfitt of Bath, and is survived by five sons and three daughters in Victoria, and two sons and one daughter in England. The Victoria survivors include: James, Aaron, Fred, Mark and Albert Parfitt, of the well-known contracting firm; Mrs. B. Lewis, Mrs. J. Wormald and Mrs. J. Nixon. In addition Mrs. Parfitt leaves thirty-one grandchildren, twenty-six of whom reside in Victoria and eight great-grandchildren, seven of whom reside here.

Clive Alexander Martin, one-month-old son of Mr. and Mrs. Edgar H. Martin of Banfield, passed away yesterday at the Jubilee Hospital. Funeral services were held at the B.C. Funeral Chapel this afternoon, Rev. Canon A. E. de L. Nunns officiating, after which interment was made in Royal Oak Burial Park.

BURIAL PARLOR CONTROL SOUGHT IN NEW BY-LAW

Direct control of the location of undertaking parlors by the City Council is proposed in a by-law which Alderman R. T. Williams asks leave to introduce before the council this evening.

The by-law, as proposed by Alderman Williams, would make it necessary for a person to obtain the consent of 540 ratepayers living in the neighborhood of such a proposed establishment as well as the City Council.

It is understood the move is made following failure of a protest by residents against a projected undertaking parlor at the corner of North Park and Quadra Streets.

CITY SECURES BEST RESULTS IN PUBLICITY

Bureau Directors Warmly Praise Services of George I. Warren

Notable Publicity at Low Cost Brings Big Returns, Directors Agree

Hundreds of inquiries from prospective tourists have been received by the Victoria and Island Publicity Bureau as a result of the advertising campaign in the western United States, now being conducted by the Puget Sounders and British Columbians Incorporated. The publicity campaign opened three days ago and will cost $40,000, of which Victoria provides $2,550. The directors of the Publicity Bureau were this afternoon informed by Commissioner George I. Warren that the replies were arriving in greater numbers than in any previous year. The long lists of inquiries were examined with interest.

The directors were delighted with proofs of the four-page advertisement of the Pacific Coast, which will appear in The Saturday Evening Post on March 21. This publicity will cost $32,000, towards which Victoria contributes $325. It was noted that Victoria has the choicest front page location in the advertisement, and the directors were informed that Seattle would cheerfully have paid $4,000 for the privilege of changing places, had it been possible to arrange the transfer.

ASK FOR $5,000 PAYMENT

The directors decided to ask the City Council for a payment of $5,000 on account of the annual grant. Payment of accounts totaling $3,379 was authorized when the city's cheque is received. The payment now sought is customarily received in February.

The luncheon was attended by eleven directors, all of whom expressed warm appreciation of the services given the bureau by Commissioner Warren and the notable efficiency with which the city's publicity has been managed. Following the luncheon John Day and Howard Chapman met the directors. As the representatives of a public meeting held last week in the City Hall they were given access to the bureau's books, in order that they might satisfy themselves as to the accuracy of accounts for traveling expenses. When meeting the directors Mr. Chapman said he had been unaware that all citizens were entitled to attend the annual meeting of the bureau and ask for information.

David Leeming, president, commented upon the agitation for abrogation of the city's grant for publicity, remarking that only direct and persistent effort by the city could induce tourists to leave the Pacific Highway and visit Vancouver Island. "If the bureau closes one-fifth of the city's stores will close," Mr. Leeming said.

The results attained by the city's successful system of personal contact workers, supplemented by widespread distribution of magazine articles, had astounded publicity experts of other cities. The credit for such success, at one-fourth the cost other cities experienced, was entirely attributable to the efforts of Commissioner Warren, Mr. Leeming stated, being unanimously supported by the directors.

HINDU SLAIN IN CALIFORNIA

Rio Vista, Cal., March 9.—Equipped with positive identification of the headless body of a man found anchored with a tractor wheel in the Sacramento River and a chain of circumstantial evidence involving an alleged Hindu "murder ring," state and county authorities to-day began a roundup of suspects.

The body was identified as that of Sant Ram Pande, thirty-two, University of California student and Sacramento police department interpreter.

Sheriff J. R. Thornton of Solano County, said Pande's death marked the eighth mysterious Hindu killing in California in the last five years. Pande was last seen February 24.

Known as an outspoken advocate of British rule in India, Pande often discussed the alleged "murder ring." Sheriff Thornton said he believed the faction, favoring Gandhi's independence movement was responsible for Pande's death.

Centenarian Is Dead in Montreal

Canadian Press

Montreal, March. 9—At the age of 101 years Mrs. Phoebe Upham, born in Watertown, N.Y., and a resident for many years of Sydenham, Ont., is dead here.

Mrs. Upham, the daughter of William McGinnis and Rachael Harp, was born in 1829 and married Edward Upham at Kingston in 1847.

She celebrated her 101st birthday on September 26 and remembered vividly the pioneer days of Canada.

AUTO INSURANCE COST TOO MUCH

Toronto, March 9.—A supplemental report made by Mr. Justice Hodgins on his royal commission investigation into automobile insurance in Ontario, has been released by Hon. W. H. Price, Attorney-General. The report stresses the commissioner's view that in 1929 automobile insurance companies, by raising their rates, collected an allowance "for expenses" amounting to $978,000 for which "no basis nor justification whatever was shown."

EGGS DOWN TWO CENTS A DOZEN

Victoria consumers are enjoying this week a two cent a dozen reduction in the price of eggs, which offsets the rise that occurred a week or so ago. One prominent retail store quotes the following prices: B.C. fresh extras, 30 cents; B.C. firsts, 28 cents; B.C. pullet extras, 26 cents.

SELECT DEFINITE DATES FOR RUGBY PLAY-OFFS HERE

Definite word from Vancouver voiced agreement with the Victoria Rugby Union's request that the intermediate provincial championship be played here at the Royal Athletic Park next Saturday. Victoria College and Varsity will meet in the fixture.

On March 28, Ex-King George, winners of the Vancouver title, will meet the winners of the Canadian Scottish-J.B.A.A. game for the B.C. championship at the same place.

Referees will be announced by the referees' board.

SAANICH WILL GET AID FOR HIGH SCHOOL

Minister of Education Rejects Plan For School Areas in Municipalities

Hon. Joshua Hinchliffe, Minister of Education, has emphatically closed the door to any suggestion of dividing municipalities into separate school districts. At a meeting with the Saanich School Board and the Saanich Council, held last week, Mr. Hinchliffe refused to consider a request from the trustees for power to establish school areas. The proposal was opposed by Reeve Crouch. The delegation of the municipal council was present to ask that, should the scheme be favorably considered, action be delayed until after the vote is taken next Saturday on the high school by-law for $96,000.

The Minister of Education said Saanich would be accorded financial assistance towards the cost of the school. He believed that twelve and one-half per cent of the cost of the school would be provided by the province, and intimated that, if Saanich should build and operate a rural high school in the northern district, a further substantial cash grant would probably be forthcmoing.

OLD AGREEMENT WITH THE P.G.E. IS INVESTIGATED

Inquiry to See If Traffic Interchange With Grand Trunk Exists

Semi-official government announcement during the week-end intimates that Premier S. F. Tolmie is investigating the old operating agreement that existed between the P.G.E. Railway Co. and the Grand Trunk Pacific.

By this agreement the Grand Trunk agreed to route over the P.G.E., all passenger, freight, express and mail business originated on its line for Vancouver. In those days the Grand Trunk Pacific was a solvent privately owned company. The P.G.E. was also a private company.

To-day the Grank Trunk Pacific is merged into the Canadian National System owned by the Dominion of Canada and the P.G.E. still a separate identity, is owned by the province of British Columbia.

According to the government's semi-official statement the traffic interchange agreement is still a valid contract. It was to come into effect when the P.G.E. reached Prince George and was to be effective for fifty years from 1912.

The government is said to have examined all the records and files on the subject to see if this contract cannot be enforced. It is claimed that a tremendous amount of traffic would be available for the P.G.E. if that bargain were enforced.

To obtain performance of it the government would have to complete the P.G.E. to Prince George. Before undertaking that expense the government, it is indicated, seeks to ascertain what chance there would be of enforcing the contract.

SCOUTS SEEK MISSING MAN

Thorough Scouring of Mount Douglas and Cadboro Bay Area Fruitless

Despite a thorough search in the city no trace has yet been found of William M. Marshall, 2628 Cedar Hill Road, who disappeared from home a week ago last Saturday and little hope is held out that he will be found alive.

Saturday and Sunday boy scouts of the city made a thorough search of beaches and parks in the hope of finding the man. Under Scoutmaster W. G. Lythgoe and Assistant Scoutmaster G. Kerr, the Third (St. Barnabas) Troop scoured the Mount Douglas Park area Saturday afternoon and yesterday, assisted by ten boys from St. Mary's Oak Bay Troop and two from Oaklands. The Cadboro Bay area, where it was reported Marshall was seen on the day of his disappearance, was also searched.

W. M. NEAL OF WINNIPEG HERE

W. M. Neal, general manager, Canadian Pacific Railway western lines, arrived in the city yesterday in the course of an inspection tour west of Winnipeg.

He is accompanied by Mrs. Neal and may be here several days.

Other transportation officials at the Empress Hotel to-day included B. T. Chappell, general superintendent, Canadian National Railways, Vancouver, and H. Bruce Boreham, B.C. publicity manager for the C.N.R., Vancouver.

RAIL NEEDS FOR PEACE TOLD GYROS

Necessity of Having B.C. Outlet For Block's Produce Shown By Mrs. Crawford

Club Looks With Favor on Proposal to Give Red Cross Outposts There Aid

Possibilities of the Peace River Block and its urgent need of a railroad outlet to British Columbia were stressed by Mrs. C. C. Crawford, pioneer woman of that district, in an address before the Gyro Club at its luncheon in the Empress Hotel to-day. She also made a plea to the club to assist in establishing new Red Cross outposts in the country and received favorable hearing for her request.

Imbued with the potentialities of the land she represented, and strong in her belief in its future, the speaker presented her material in a straightforward manner that won warm praise from the clubmen. After bringing to the club the greetings of the Peace River Block, Mrs. Crawford outlined some of the features of the district, saying forty teachers were now working in the block, where any man or woman over the age of eighteen could take up land.

There were five grain elevators in the area, having a capacity of 245,000 bushels. These were located chiefly in Pouce Coupe.

HISTORY OF PEACE

She touched upon the founding of Fort St. John.

In 1912 it was organized as a settlement and she had gone in a year later to attain the distinction of being the first white woman settler. In some detail she spoke of the history of the district, referring to the passage of the Yukon gold rush and the early Indian massacres.

North of the river there were 20,000 acres ready for planting. From that had come 48,000 bushels of wheat, and 8,000 bushels of oats up to the time she left. Victory oat yields there averaged forty-seven pounds per bushel, against the usual thirty-four pounds.

BIG COAL DEPOSIT

In one location there were 600,000,000 tons of coal which was in quality, up to the standard of the best Pennsylvania grades.

It was not necessary to deal with the wheat possibilities in the Peace block, since Herman Trelle had demonstrated this to the world, Mrs. Crawford said.

Peas not considered very hardy, had been grown by a young farmer, who had taken second prize in the Chicago exhibition.

An abundance of minerals were also available, she said.

While railroad communication connected the block with Alberta, the Peace was looking to the completion of a steel road that would give it a British Columbia outlet, Mrs. Crawford said.

By means of a map she pointed out the different parts of the district which were open for settlement.

Although the temperature at times fell to 50 degrees below zero, it usually remained "temperate" at 25 below.

COULD FEED B.C.

"With all our grain and stock we could provide food for all British Columbia," said said, but added the produce could not be shipped down owing to lack of railroads.

The speaker told of the establishment of Red Cross outposts in the district and asked the club to help in assisting to set up a new nursing home. Only the necessities were required.

After urging the clubmen to go into the block, Mrs. Crawford closed with a personal request to any who visited the district to be her guests at Fort St. John.

NOTES OF THE LEGISLATURE

After the week-end rest five legislative committees will sit again tomorrow. Mining, private bills, public accounts and agricultural committees will meet at 10 o'clock and the municipal committee at 10.30 o'clock.

Criticism on the new one per cent tax on incomes of $12 per week is expected to bring amendments to the bill when it is introduced in the Legislature. While early announcements indicate the tax is to be deducted off any pay cheque over $12 a B.C. worker receives, there is a strong move in favor of exemptions up to $1,000 or at least for those who have had to receive relief to tide them over hard times. Members of the government are reported to be standing pat on the original proposal.

On the subject of the budget the following pithy letter was published in The Vancouver Province yesterday. "The latest proposals from Victoria on taxation brings to mind that pathetic Cockney ballad with its refrain:

'It's the sime the ole world hover,
It's the poor wot gets the blime,
It's the rich wot 'as the clover—
Isn't it a blinkin' shime!'"

Night sessions of the Legislature will begin this week. Party whips expect the House to complete its work in three more weeks and prorogue on March 27.

The dentists' bill to come before the Legislature will not prohibit advertising but will confine such advertising to truthful statements, says J. H. Beatty, who is in charge of the bill. It seeks to give dentists control of their profession as the Medical Council has charge of the medical profession.

A vote on beer by the glass has been sought by Blue River, Canadian National divisional point between Kamloops and Jasper and it is expected a plebiscite will be granted at a date shortly to be set by the cabinet.

Amendments to the Produce Marketing Act, providing for liquidation have been prepared by the solicitor for the Committee of Direction, F. M. Black, chairman, points out in reference to the application of the independent growers to the cabinet Saturday. The amendment provides for application to the courts to name a liquidator,

$595 and Safety!

SAFETY in a puzzling wilderness of inexpensive pianos . . . the only safety is to choose a genuine Heintzman and let Canada's premier firm of piano builders guarantee your investment.
There's a feeling of security when a modest purse pays for a Heintzman, because it is admittedly the finest piano value in Canada to-day.

BRITISH BUDGET IS $4,000,000,000

Unemployment Allowances Increase Funds Parliament Is Asked to Vote

London, March 9.—Whoever presents the budget in the Commons some time early in April will probably have to provide for expenditures for all purposes of more than $4,000,000,000. It is still doubtful whether Rt. Hon. Philip Snowden, Chancellor of the Exchequer, will have recovered by then from his illness. In the event of his absence presentation of the budget would doubtless be entrusted to Rt. Hon. William Graham, President of the Board of Trade.

Ordinary expenditures on the navy, army, air force, civil and revenue departments will account for $2,195,000,000, an increase of $105,000,000 over last year. The increase is almost entirely due to the civil votes, including unemployment allowances, as the service votes show a net decrease of $2,270,000.

The deficit at the end of the financial year, March 31, is not now expected to be as large as had been feared a few weeks ago. At the moment it stands in the neighborhood of $325,000,000.

DEATH OF MAN IS INVESTIGATED

Vancouver, March 9.—C. H. Wilsie, 631 Seymour Street, Saskatchewan farmer, may have been "taken for a ride."

The body was seen Friday 100 yards off the shore of Stanley Park opposite the pipe line road. It was recovered Saturday at noon by the crew of the police patrol boat and identified Sunday by C. C. Cook, proprietor of the Rosslyn Rooms, where Wilsie resided.

Wilsie resided for five months with Mr. Cook, and left there March 2 to take a stroll. Mr. Cook did not see him again until he viewed the body in the morgue.

Police discount the murder theory, because $2.06 was found in a pocket, but Detectives Munro and Bell are investigating.

According to Mr. Cook the dead man came to Vancouver to buy a business. Wilsie told him, he said, he had two farms near Colville, Saskatchewan, and one of them was worth $15,000.

The widow and four children reside on the farm.

Prince Rupert, B.C., March 9.—The body of Ike Thompson, veteran mining man of British Columbia, has been brought here from Jedway, Queen Charlotte Islands, where he had been postmaster in recent years and where he died. He was sixty-one years of age and came to the coast from Nova Scotia. He is survived by a widow and

Wheat Belts Get Snow In Canada and U.S.

Heavy snow was reported over the wheat belt from Chicago, with local flurries on the Canadian side and comparatively mild.

Broomhall report to-day said weather in France has been very unfavorable for winter wheat and heavy abandonment is expected.

Washington, March 9.—In a statement to-day, James C. Stone, chairman of the Federal Farm Board, announces that plans of the board, heretofore adopted, will be carried out without change. He says this applies specifically to present operations of the Grain Stabilization Corporation.

Wheat market of late has been so unresponsive to bearish news that traders are puzzled, The Chicago Tribune to-day says. Some have been led to believe that the market has reached bottom, that bearish conditions have been discounted, but traders generally to not hold such encouraging views. They fear congestion of wheat at terminals in this country will discourage any sustained advance in prices, and believe crop conditions have been substantially improved by the recent precipitation.

India reports weather seasonable and harvesting commenced in the early districts, with estimated yield this year of around 356,000,000 bushels of wheat, compared with 389,000,000 last year.

WINNIPEG

(By Logan & Bryan)

Winnipeg, March 9.—Wheat market fairly strong again to-day with prices higher throughout the session and on extreme bulge were 1½ cents above the close Saturday, holding mostly very steady at about 1 to 1¼ higher. At the start there was some fair buying by seaboard houses, but after this demand was satisfied, the buying was practically all local, either short covering or investment buying, with local sentiment more or less friendly. Offerings were not heavy but showed some signs of increasing on the extreme bulges.

Generally speaking, the market was more or less a professional affair, with both buying and selling against the daily offers. Liverpool was strong. Export sales over the week-end were somewhat smaller, estimated around 300,000 bushels, but there were several bids in the market under present levels. Shippers were taking the odd cars of straight grades and toughs that were coming out, but offerings were very light and spreads were unchanged to ¼ better for certain grades.

Trade was not changed in the flour situation. The on-passage supplies decreased 2,530,000 bushels, the figures now being 55,360,000 bushels, as compared with 36,936,000 a year ago. The heavy snow over the winter wheat belt the past few days has had no effect on the markets. Winnipeg futures closed ¾ to 1 higher.

Coarse grains—The features of these markets was some further export business was worked in barley, no amount being given. This is said to be largely distressed barley in eastern positions. Oats and barley were firm, but there was very little going on. The cash markets were quiet.

Oats closed ⅛ up, barley 1⅜ to 1½ higher and rye ⅝ to ½ higher.

Flax—Firm closing, 1¼ to 1⅝ higher. Trade very light and without any feature.

Liverpool—Due ⅛ lower to unchanged on Winnipeg.

CHICAGO

(By Logan & Bryan)

Chicago, March 9.—Wheat: The market showed a little snap at the start with a moderate bulge on strong cables from Liverpool, but after the posting of the U.S. visible showing increase of 1,263,000 bushels prices eased off to around the previous close. Liverpool closed 1 pence to 1⅜ pence higher, with some buying on the reported active buying of Australian wheat for Oriental account, which continues active following recent heavy purchases. A decrease of 2,520,000 bushels in on passage stocks was also helpful.

French news continues unfavorable but elsewhere in Europe outlook is reported excellent. Indian crop is now estimated about 336,000,000 bushels vs. 389,000,000 bushels a year ago, when a record harvest was reported. Primary receipts continue at a rate which halts any real bullish activity, receipts being 2,455,000 bushels vs. 894,000 bushels a year ago.

Rye—Higher with wheat early. No change was reported in cash trade conditions. Visible decreased 221,000 bushels.

Grain Reserves

Washington, March 9.—Government estimates of farm reserves of grain in United States were issued to-day as follows:

Corn—1931, 709,000,000 bushels, compared with 986,000,000 bushels in 1930 and a five-year average of 1,051,000,000 bushels.

Wheat—160,000,000, compared with 130,000,000 and 125,000,000.

Oats—468,000,000, compared with 396,000,000 and 481,000,000.

Barley—84,000,000, compared with 72,000,000 and 58,000,000.

Rye—10,500,000, compared with 5,000,000 and 6,000,000.

Chicago, March 9.—"Farm reserve figures on wheat will be construed as somewhat bearish by the trade, showing 21,000,000 bushels in excess of the average of private estimates," J. J. Bagley said this afternoon. "Corn figures are somewhat bullish, being 30,000,000 under the average of private estimates."

NEW YORK SILVER

New York, March 9.—Bar silver, 29.

HOME BUILDING REVIVAL SEEN LEADING GENERAL RECOVERY IN BUSINESS

"The demand for cotton goods continues to show substantial improvement," says the Brookmire Economic Service Inc. in its bulletin to-day.

"The price of raw cotton has definitely passed bottom and constitutes an outstanding strong spot in the commodity situation. The cotton spinning industry made much more than a seasonal advance in January and is now operating at a higher rate than at any time since last August. It is our opinion that this important industry has turned the corner. And it should be noted that in past depressions the textile industry has been one of the first to recover.

"Another favorable item is the improvement in residential building. Construction of this type has been at a very low level during the past year. Contracts awarded for the first three weeks of February show substantially more than a seasonal expansion. For many weeks now we have been mentioning the possibility of a turn in residential construction. It may be starting now.

"There is still a surplus of space in commercial and industrial buildings. Construction of this type cannot be expected to show improvement in the near future. But sufficient deflation has taken place to give rise to a hope that the decline may be over. It follows that a substantial increase in residential construction may be sufficient to turn the trend of the entire building industry upward. Confirmation of a turn in building will be a favorable factor of far-reaching importance.

MOTORS AND CARLOADINGS

"Steel mills and automobile plants are continuing a gradual improvement. Automobile dealers are not burdened with heavy inventories of unsold cars. Any increase in retail sales of automobiles will be immediately reflected in the manufacturing operations. This is another industry which has passed bottom.

"Carloadings and the production of electrical energy continues at very low levels, indicating the absence of broad improvement in industrial operations. It is our opinion, however, that both these factors have reached their approximate lows. After some hesitation around present levels they can be expected to advance, along with gradual improvement in general business operations."

MONTREAL LIST CLOSES EASIER

Canadian Press

Montreal, March 9.—Stock prices eased during the late trading on the Montreal Stock Exchange this afternoon and at the close were generally soft.

Smelters, off 2¾ at 185, and Shawinigan down 1½ at 58, were the weak spots.

Brazilian, Cement, Power Corporation, Canadian Pacific, Viau, Dominion Bridge, Steel of Canada, were all down fractions ranging from ⅛ to ⅞ in the case of Montreal Power. Nickel was up ⅛ at 18½, and B.C. Power "B" was up ½ at 17½.

TORONTO MINES SALES VOLUME SETS 1931 HIGH

Toronto, March 9.—With volume of sales well over 800,000, and at a new high for the year, the mining market enjoyed a brisk session to-day.

Macassa, closing up 13 at 36 was the feature, reports on the street stating an early announcement will be made regarding refinancing of developments at the company's property in Kirkland Lake. Nipissing advance 30 to 1.89 and Castle 6 to 26½.

MacIntyre sold a half up at 22.00; Wright-Hargreaves gained 4, and Eldorado and Big Missouri advance 3 apiece. Mining Corporation was down 5.

International Nickel, Hudson Bay and Ventures were a few cents higher for the day, but Noranda dropped 10 and Abana a point. Acme and Ajax Oil lost 2 apiece, Chemical Research was off 10 and balance of the oils, with the exception of Home, up to 5 to 1.05, displayed an uneasy tone.

HUDSON DEAL SENDS DURANT STOCK HIGHER

Toronto, March 9.—Stocks went through a series of cyclical movements on Toronto Exchange to-day. Not all groups, nor all issues, were at the same phase of the cycle at the same time and the close was highly irregular, the market tenor uncertain.

Oils were uniformly weak, with such leaders as British American Oil, Imperial Oil, International Petroleum hitting new lows for the year and closing with small losses of less than a point.

Motors, on the other hand, were strong. Durant featured, running up to a new high of 11¾ on news of the Hudson-Essex Canadian deal, before realizing brought the price down fractionally under 11.

Foods had fractional gains, radio stocks were down from a fraction to one point, Bell Telephone, C.P.R., Brazilian down from a fraction to one point. Nickel retained a small gain as did most of the beverage stocks.

NEW YORK SUGAR

New York, March 9.—Raw sugar was unchanged to-day at 3.30 for spots duty paid, with no sales reported. Refined was unchanged at 4.40 for fine granulated, with demand still light and of a routine character.

General Motors Rises to New High For Year

Chrysler and United Corporation, in Big Block Trading, Reach 1931 Best Levels

Auburn Recovers 11 Points as Market Leaders All Turn Upward To-day

Electric Power Issues Again Come in For Attention With Bulls in Saddle

(By Logan & Bryan)

New York, March 9.—At the close of the market this afternoon, the Dow Jones average of thirty industrials stood at 185.38, up 1.53 points for the day; for twenty rails at 105.36, up 0.07 points, and for twenty utilities at 72.12, up 0.68 points.

Sales for the day totaled 2,900,000 shares.

General Motors to-day reached a new high for the year. The conviction seems quite general that the motor industry is picking up and some confirmation of the action is furnished by the news from Youngstown. Steel operations there in connection with orders from automobile manufacturers were said to be up two per cent.

Bulls retained the upper hand in to-day's stock market by vigorous operations for the rise centring in the motor and electric power issues.

The advance was uncertain and wobbly at times, as bears sold U.S. Steel and considerable pressure against the oil and motion picture issues appeared.

Bullishness became aggressive in the last half hour, however, and virtually the entire list developed a firm tone. Merchandising shares also were brought forward.

General Motors, Chrysler and United Corporation came out on the tape in blocks of 5,000 to 15,000 shares, and rose a point and more to the best levels of 1931. U.S. Steel regained most of an extreme decline of 1⅝.

Auburn was pushed up 11 points, and issues up 4 to 6 included Electric Auto Lite, Case and Macy.

BIG MISSOURI STIFFENS TO-DAY

Canadian Press

Vancouver, March 9.—On the Vancouver Stock Exchange to-day, Home Oil held at 1.03, about in line with Saturday's closing figure. Mercury and C. and E. had the same experience, selling at 20½ and 60 respectively, and Calmont stood at 15 bid and 18 offered this morning. Fabyan sold at 3.

East Crest, selling at 44, was in line with last week, and United at 23, and Nordon at 37 were unchanged.

In the mining list, Big Missouri opened at 42 and gained ground, selling up to 45. Premier was firm at 73 with neighboring properties, such as Woodbine, beginning to attract mining attention.

Pioneer Gold was steady at 1.50 bid and 1.60 asked and Pend Oreille turned over at 1.10. Reeves held at 38 bid and 45 asked and Oregon Copper sold at 8 to 9.

VANCOUVER SALES

Vancouver, March 9.—Morning sales on the Vancouver Stock Exchange were:

Oils—45 A.P. Con. at 20, 200 at 21, 500 at 22; 50 C. and E. Corp. at 60; 500 Eastcrest at 44; 6,000 Fabyan Pete at 3; 100 Freehold at 8; 500 Home Oil at 103, 300 at 104; 3,200 Ill. Alta. at 4; 1,500 Mercury at 20½, 100 at 21; 500 S.W. Pete at 15; 1,000 Sterling Pac. at 12; 700 United Oil at 23; 100 Van. Alta. at 11.

Mines—2,000 Big Missouri at 42, 500 at 43, 500 at 44, 500 at 42½, 6,000 at 45; 3,400 Georgia River at 3; 1,000 Golconda at 40; 500 Noble Five at 7; 200 Pend Oreille at 110; 300 Premier Gold at 73.

Curb—2,000 Independence at 1; 3,000 Indian Mines at 1½; 500 Crow's Nest at 7½; 2,300 Nordon Corp. at 37.

COPPER PRICES SHADES EASIER

New York, March 9 (A.P.)—Small sales of copper at 10¼ cents a pound were reported to have ben made to-day by some custom smelters.

Large producers, however, are holding firmly at the 10½-cent quotation, and the amount of copper available at the quarter of a cent concession was said to be insufficient to most requirements of domestic fabricators.

BOND MARKET VACILLATING

New York, March 9—The bond market vacillated uncertainly to-day, although prices maintained a firm undertone.

Moderate selling pressure appeared in issues with stock conversion privileges. Alleghany 5s of 1950 fared badly, dropping more than a point in a moderate turnover. Baltimore & Ohio 4½s of 1960 were firm, but International Telephone and Telegraph 4½ of 1939, Kruger & Toll 5s, Lautaro Nitrate 6s and Missouri Pacific 5½s sagged fractionally. Loew's 6s with warrants receded 2 points on a single sale.

Foreign obligations moved upward with less vigor than last week. Austrian 7s, Batavia Petroleum 4½s and Polish 7s were active issues selling higher. Silesian Land Bank 6s lost much of their recent advance, declining over 2 points. Tokio Electric Light 6s, French 7½s and German 5½s also lost ground. Sporadic recessions in the foreign group were not surprising, however, in view of the perpendicular gains among them last week.

Obligations of domestic corporations whose market is governed pretty much by the credit standing of the borrowers, continued to rise irregularly. The majority of net changes in such issues were fractional gains. American Telephone debenture 5s, Pere Marquette sec. 4½s, National Dairy Products 5¼s, International Match 5s, Armour 4½s and Missouri Pacific series H 5s were active.

Coal Slump to Continue for Decade, Engineers Declare at Convention

New York, March 9. — The bituminous coal industry is doomed to at least ten eyars more of depression, C. E. Bockus, president of the National Coal Association said at a session of the coal division of the American Institute of Mining and Metallurgical Engineers, which opened its annual convention in the Hotel Pennsylvania and several New York clubs.

To-day, Mr. Bockus said, the industry is in its worst condition since the war. Millions of tons of coal are being sold at less than the labor cost alone. Few, if any mines, are making money. Destructive competition rages, no government aid, such as that given to farmers may be expected, and Mr. Bockus doubted if such aid would be effective anyhow. The only hope, he said, lies in about 300 of the larger companies agreeing to co-operate, to end price cutting and to inaugurate economies. Such a course he believed would not cause a boom, but might at least keep the industry barely alive until the prospective decade of depression is passed.

WILL HAVE A FUTURE

"The future, no doubt, will hold great things for coal," he said, "but the development of other fuels, notably natural gas and oil, leaves us prostrate to-day, with the prospect that we will do well if we barely hold our own in the next ten years. Co-operation before it is too late is the only salvation for the industry."

Dr. Bockus's address was the least technical of a score delivered at several meetings and division conferences. More than 1,500 engineers from all parts of the United States and from several foreign countries were in attendance, discussing problems of their profession. Most of the sessions were in the Engineering Society's Building, 33 West 39th Street, although the coal division met in the Engineer's Club.

NEW PROSPECTIVE COMPASSES

New kinds of compasses which lead prospectors to diamonds, gold, oil and metal-bearing rocks were described at several sections of the convention. One such instrument was discussed by Noel H. Stearn, consulting geologist of St. Louis, who told of the Hotchkiss superdip and its use in locating diamond deposits in Arkansas. The volcanic rock which bears the diamond, he says, can easily be detected by this instrument, which has a needle that vacillates in different ways according to the nature of the metallic rock below the surface. Other formations indentified by this superdip are copper, iron, oil, gas, lead, gold and bauxite.

DETERMINE ROCK DEPTHS

Another instrument of similar nature, used to determine the depth of rocks under the soil, was described by Sherwin F. Kelly. It is called a Megger," and is no bigger than a portable typewriter, but it is said that by attaching it to wires leading to the earth and starting an electric current, it will register rock resistance and thereby determine the depth of rock.

A discussion of the methods employed in the construction of the Brooklyn water tunnel, running from Yonkers to Fort Hamilton and designed to give Brooklyn a water supply independent of Manhattan, was led by Theodore Marvin, editor of The Explosives Engineer, who described some rock tunneling.

URGE METRIC SYSTEM

The use of the metric system by mining engineers throughout the world was urged in a paper sent from South Africa by H. T. Matson and G. Allen Wallis of northern Rhodesia.

A dinner conference on blast furnaces was held at the Century Club, while a smoker for all delegates was held in the Hotel Pennsylvania. There was also a reception for members of the Engineering Women's Club, followed by a theatre party.

Twelve veteran engineers joined the Institute's Legion of Honor, composed of those who have been members for fifty years, bringing the membership up to fifty-two. Most distinguished in the class of 1881 is John Hays Hammond. Among the members of the legion, the oldest is Dr. Henry S. Drinker, president of Lehigh University, who joined the institute in 1871.

At a meeting of the 1932 convention committee, it was announced that in September the institute will act as host to the Iron and Steel Institute of Great Britain and the Institute of Metals of London. The party will arrive here early in September and tour the principal cities of the United States. About 150 British visitors are expected.

WHITNEY LETTER

(By Logan & Bryan)

New York, March 9.—Whitney of the Wall Street Financial Bureau says:

MARKET HEADED UP

"The basis of the assumption of a bullish position of the market, as well as the justification for a dispatching of wires to subscribers during last Friday, was that a level of 178 in the Dow Jones industrials would not be violated before the market turned up. The low point of Friday carried to approximately 178½ after which Saturday's performance in spite of the limitation of a two-hour session, succeeded in withdrawing the market five average points from the low. As this week develops I think the solidity of this bottom will become increasingly established and that while a good sized short interest will, from time to time, attempt to knock off the market, any reaction resulting therefrom will hardly run over two points in the speculative leaders and be limited to a matter of hours. One of the setbacks may come to-day or to-morrow, but the important point is that the market is engaged in a new swing which I believe will continue without serious interruption until the "averages" have attained a range between 205 and 210.

"Business fundamentals are, of course, not providing the justification for this advance, but it is impossible to over estimate the importance of the factor pointed out here Saturday.

"The silver outlook with half the world's population finding their purchasing power distinctly predicated on the price of silver, the expected advance of twenty per cent in the next thirty days assumes a world wide importance, perhaps transcending our own domestic business situation. At any rate believe it comes under the heading of a major fundamental change and that the market has some discounting to do if its effect on the last half-year trend in commodities and business.

COMMENT

"Among the low-priced issues exhibiting promise for both the long and short term future I am very much impressed by American Machine and Foundry which I think is in for a major advance as a result of corporate developments closely paralelling what we have seen over the last few years in International Business Machine by American Radiator, which has lesser, but nevertheless substantial future growth possibilities and by Julius Kayser which perhaps is the only real intrinsically sound representative of the textile industry on the big board. Silver prices are, of course, favorable to American Smelting which is the one to buy if you must buy coppers.

"In the utilities group, look for a radical performance on the upside by Standard Gas and think that your best committment in the motors and allied lines is Electric Auto Light. I can find no fundamental reason why Vanadium is selling where it is or why it should go higher, but the stock promises to be an outstandingly strong spot in the next market swing.

"The change in American and Foreign Power and International Telephone and Telegraph affair created by the turn in silver obviously puts them in a position for major advance."

Must Help Thin Weak Children Or Money Back

Builds Body, Bones, Teeth of Ailing Youngsters

You can give your children, mother nature's own vitalizing weight building tonic for twenty-eight days—and if at the end of that time you are not extremely thankful for the benefit received get your money back.

That's a fair offer you should not let pass—ask any druggist for McCoy's Cod Liver Extract Tablets — they are small—sugar coated and rich in the body building substance extracted from Codfish Livers.

Complete directions come with each box—60 tablets 60 cents—a blessing to frail children. (Advt.)

Trans-American to Pay Regular Dividend

San Francisco, March 9.—Directors of TransAmerica Corporation to-day declared the regular quarterly dividend of twenty-five cents a share on Capital stock.

Cheques will be mailed April 25 to stockholders whose names are on the books April 5.

FROM OFFICE BOY TO PRESIDENT

It is a typical success story that is told about Thomas A. Buckner, above. Fifty-one years ago he was an office boy in the Milwaukee branch of the New York Life Insurance Company. The other day he became its highest executive. He succeeds Darwin P. Kingsley, new chairman of the board, as president.

Hesitant Buying Marks World's Wheat Markets

Review of the wheat situation issued to-day by the Dominion Bureau of Statistics states that the past week in world wheat markets was marked by hesitant buying in the face of pressure from southern hemisphere exporters and improved crop prospects in the United States and in Europe, excepting France and Germany.

The demand, although steady, has been insufficient to maintain prices.

World shipments declined for the second successive week, but remained 50 per cent above shipments for the same week in 1930. The total for last week was 15,052,000 bushels, as compared with 16,198,000 bushels in the previous week. North American and Australian shipments increased slightly, while the recent erratic trend of Russian shipments was further revealed by a large decrease. The total world shipments, as reported by Broomhall, are now over 85,000,000 bushels over those of the 1929-30 season, covering the period from the first of August to February 27.

The supplies of wheat on passage increased very slightly to 57,880,000 bushels, compared with 57,014,000 bushels last week and 36,692,000 bushels last year.

The heavier arrivals, however, were not sufficient to stop the decline in port stocks. Stocks at five continental ports were 7,077,000 bushels on March 1, as compared with 8,313,000 bushels on February 15 and 11,446,000 bushels on February 1. Liverpool stocks declined slightly in the past week from 3,060,000 to 3,024,000 bushels. Broomhall's cable of March 4 stated that the supplies of spot Manitoba wheat at Liverpool were practically exhausted at that date.

JOHN M. BARR

Cleveland engineer who, after three years' work, has constructed an instrument to work out calculus problems that hitherto took skilled mathematicians.

Hudson-Essex Buying Into Canadian Plant

Toronto, March 9.—"Hudson Motor Car Corporation of Detroit, Manufacturers of Hudson and Essex automobiles, are negotiating with Roy D. Kerby and his associates with a view to 'buying into' the Durant Company of Canada and manufacturing the Hudson and Essex here," The Mail and Empire said to-day.

"Mr. Kerby is general manager of Durant Motors of Canada Limited. He and his associates own the controlling interest in the company. The purchase under negotiations includes a block of their stock," the newspaper continues. "Under no circumstances does it involve the disappearance or loss of identity of the Durant Company nor of Durant cars, which will continue production as heretofore."

Credit Reports Show Business Conditions

The weekly trade report of the Canadian Credit Men's Trust Association Limited for week ending March 7, 1931 is as follows:

Halifax—Wholesale and retail trade is below that of the corresponding period last year. Collections are fair to poor.

Saint John—Wholesale trade just fair. Retail trade rather quiet. Collections poor.

Montreal—Quite an improvement has been noted in some wholesale lines. Other lines are only fair. Retail trade fair. Collections still inclined to be slow.

Toronto—Business points to a pick up as far as the retail merchants are concerned. Wholesale trade continues quiet. Collections fair to slow.

Winnipeg—A slight improvement is reported by manufacturers. Wholesale trade only fair. Retail trade unchanged. Collections quiet.

Regina—Wholesale trade slow to good. Retail trade fair to slow. No improvement is reported in collections.

Moose Jaw — Wholesale business fairly steady. Retail quiet. Collections slow.

Saskatoon—Wholesale trade improving slightly in a few lines. Retail trade is quiet. Collections fair to slow.

Calgary—All retail lines except groceries continue slow. Collections difficult to make.

Edmonton—Wholesale trade generally fair. Retail trade remains fairly quiet. Collections only fair.

British Columbia—Trade quiet with collections slow.

Manufacturers To Elect Officers At March 23 Meeting

Election of officers and an address by Hon. R. L. Maitland, K.C., minister without portfolio, will feature the annaul meeting of the Victoria and Vancouver Island Branch of the Canadian Manufacturers' Association in the Empress Hotel on Monday, March 23, at 12.15 o'clock.

The speaker will take some subject of current interest for his address, and will doubtless present views of considerable interest to the manufacturers.

A chairman, vice-chairman, secretary and three executive members for the B.C. division will be elected at the meeting. Any active member of the branch in good standing will be eligible for office or for the executive committee. They must be nominated by a member in good standing.

RUSSELL NEW HEAD OF MASSEY-HARRIS

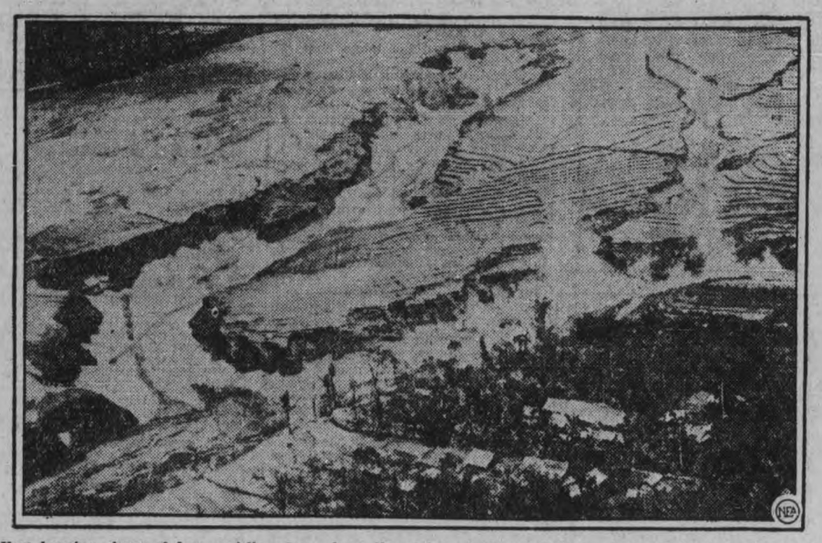
Toronto, March 9.—T. A. Russell of Toronto was elected president of the Massey-Harris Company Limited at a meeting of directors held here. Since Noember he has been serving as acting president.

B. W. Burtsell was appointed general manager of the company and is to become director and vice-president following the annual meeting.

Plain Marking

When putting away the keys to a safety deposit vault, mark in plain letters just what the envelope contains. Also mark envelopes of clippings, to whom you wish them to go, wich are receipts and which personal scarps of verse or whatnot. Plain marking saves much time.

AS JAVANESE VOLCANO DEALT DEATH TO 1,400



How burning rivers of lava, swirling down from the crater of Merapi Volcano, hemmed in the village of Balong, Java, is graphically shown in this remarkable aerial photo. Note the smoking, molten streams sweeping along the outskirts of the isolated little community, where the terror-stricken inhabitants for many days were saved from starvation only by food which was dropped in parachutes from planes. Eight villages were destroyed and 1,400 persons were killed as the volcanic stream ravaged thousands of acres of fertile land.

Engineers May Design Clothes For Women

Chicago, Ill., March 9.—Engineers instead of dress makers may dictate the working girls' styles in the not distant future.

A prediction to this effect was made before a safety conference by Miss Ruth I. Stone of the Western Electric Company. She said the necessity of assuring a reasonable degree of safety for all types of working women would force safety engineers to design their clothes.

"The present styles," which are changed by dressmakers every year," she said, "will soon give way to a conservative standard of low-heel shoes, sport skirts and short hair."

Feather Trim

For street hats, use flat feathers, stuck jauntily through their left rear sides. For dress hats, try pompoms or simulated algrettes.

N.Y. Market Gossip

J. I. Case in 1930 earned $9.67 a common share, against $13.75 in 1929.

American Power and Light in 1930 earned $3.20 a share on 2,894,025 common shares outstanding at end of 1930.

U. S. Rubber 1930 net loss $18,063,940, after depreciation, interest sub-dividend reduction of $11,063,779 for inventory and provision for contingencies, against loss $3,337,472 in 1929.

Reports to the effect that the unfilled orders of the United States Steel Corporation as of February 28, to be released Tuesday would show some decrease undoubtedly accounted for some selling.

Continued progress towards strengthening of the structure of business is pictured by the weekly mercantile reviews and though the forward pace is slow, these authorities note that the volume is gaining with the approach of spring.

DISLOCATION

The Swiss Bank Corporation comments on the general tendencies at the present time as follows: "The world is at present in a serious state of dislocation and is passing through a crisis arising out of over-expansion, of excessive technical development, of overproduction and here and there of under-consumption, a crisis both in home and foreign politics, and one due to excessive fiscal pressure, but also above all things, a crisis due to lack of confidence. The result of all this has appeared as a crisis in the realm of finance and an utter disorganization of the stock exchanges, which is without precedent in the financial history both of the old world and of the new."

Canadian Reindeer Herd

Apropos of the journey of the herd of reindeer which is being brought by the Dominion Department of the Interior from Alasak to enhance the living conditions of the natives of Northern Canada, there are very few predatory animals to be found on the coast near the line of route from the Alaska-Yukon boundary eastward to Cape Bathurst. Wolves are of very rare occurrence and the only animals that may occasionally give trouble to the reindeer aret the Barren Ground grizzily and the Polar bear.

STEEL OF CANADA

According to advices reaching Financial Service from Toronto, there is a good probability of the directors of the Steel Company of Canada paying $2.75 a share on the common this year; $1 of which, of course, will be in connection with the back payment. It will be recalled that the Privy Council recently confirmed the decision of the various Canadian courts with regard to the rights of the common shareholders of this company. The total amount involved is approximately $10 per share on the outstanding common stock.

Catarrhal Deafness May Be Overcome

If you have catarrhal deafness or head noises go to your druggist and get 1 ounce of Parmint (double strength) and add to it ¼ pint of hot water and a little sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has catarrhal deafness or head noises should give this prescription a trial. (Advt.)

PIONEER GOLD MAKES PROPOSAL TO LORNE MINE

Vancouver, March 9.—For the purpose of changing the articles of association and to consider a proposal made by Pioneer Gold Mines Limited, an extraordinary general meeting of shareholders has been called by Lorne Gold Mines Limited, March 24, at 10.30 a.m., in the old Board of Trade Rooms, Pender Street.

In a letter to the shareholders, F. W. Rounsefell, president, states that a special resolution will be proposed to amend the articles of association of the company by adding to Articles 58 the following words: "On such poll every member shall have one vote for each share held by him."

The proposal of the Pioneer Gold Mines of B.C. Ltd. is based on loaning the Lorne Gold Mines sufficient money to pay the $95,000 which is now past due on the original Lorne claims, also to instal the old Pioneer Gold plant which had been used previously to the erection of their new plant and for working capital to carry on, the Lorne Mines to have a forty-five per cent. interest in a new operating company incorporated for this purpose. At present the offer of the Pioneer Gold Mines is the only one that has been made, as the previous offers made by the Bralco Company and the proposal for clients of the Toronto General Trusts have been withdrawn.

The cost of the Washington Monument was $1,300,000. It was dedicated in 1885, and up to 1929 was visited by over 9,000,000 persons.

Notice to Creditors

RE WILLIAM BOWNASS, DECEASED

NOTICE IS HEREBY GIVEN that all creditors and others having claim against the estate of the late William Bownass, who died on or about the 13th of November, 1930, at Victoria, B.C., are required to send, on or before the 31st day of March, 1931, to the undersigned executor of the Will of the said deceased, their names, addresses, descriptions, and full particulars in writing of their claims, and the nature of the securities, if any, held by them; AND TAKE NOTICE that all persons indebted to the above named deceased are required to pay to the undersigned executor aforesaid their accounts; AND TAKE NOTICE that after the said 31st day of March, 1931, the said executor will proceed to distribute the assets of the estate among the persons entitled thereto, having regard only to the claims of which he shall then have had notice, and that the said executor will not be liable for the said assets, or any part thereof, to any person of whose claim he shall not then have received notice.

DATED at Victoria, B.C., this 7th day of March, 1931.

FRANK H. MULLIGAN,
24 Douglas Street,
Victoria, B.C.
Executor of the Estate of
William Bownass, Deceased.

"Budleigh Salterton," he said. "I didn't tell you, Dina, that I wrote to Mr. Seymour weeks ago, asking if he had a chauffeur like the one Smucker described." Hanby frowned a little. "It's odd that his reply should come on our first breakfast here!"

"What does he say?" Dina asked.

Hanby slit the envelope.

"In the centre is a crest," he commented. "Underneath is a simple English address. Hasten! 'Seymour Manor, Bovey-Tracey, Ottery St. Mary, Budleigh Salterton, Devonshire.' That makes the Gray house fade into nothing! On the top left-hand corner it says, 'Telegraph, Otterton.' On the top right-hand corner it says, 'Great Western station, four miles'."

This was the missive that Hanby read aloud:

"HILTON HANBY, ESQ.,

"My Dear Sir—

"Owing to a fishing trip in Norway my answer to your letter has been unavoidably delayed.

"During my stay in your country my chauffeur was the one now in my service, Richard Betterton. He is five f nine in height, weighs one hundred and forty pounds, is dark, pale of face, with an aquiline nose—in fact, as you see, in every respect differing from the impostor who claimed to have held this position.

"I am, my dear sir,

"Faithfully yours,

"STANFORD SEYMOUR."

"I resign as hoe man." Bill Pelham said. "I am now the house detective. I report for work here and now. I guessed wrong about the big-hearted chauffeur who blew Smucker to a feed!"

Hanby was worried. He had almost banished the affair from his mind. Now everything came back to him vividly, particularly the woman who threatened him with death.

"Well, we're dug in here now," he observed, "and it will take something more than vague threats to turn us out."

CHAPTER VI

There was a letter for Mrs. Hanby in the package of mail. "Who's been writing to you, Dina?" her husband inquired.

"The Parkers. They've been wanting to come here, but I told them we weren't asking anyone till we got used to the place. It would spoil it to have outsiders yet. I shall be finding new wonders every minute for a month. Besides, we have no saddle horses yet, and Julia is mad about riding. That reminds me that I must order a habit and a side saddle."

Hanby was still thinking of the mysterious warnings.

"It's funny," he remarked presently, "that anyone should take the trouble to feed Smucker for nothing. There must be something behind it."

"Junior and I will find out," said Bill. "It's beneath the dignity of the lord of the manor to sleuth."

"The first letter I opened," continued Hanby, pursuing his train of thought, "was from an undertaker noted for the simplicity and dignity of his funerals. He includes flowers. That's thoughtful! The next was from Seymour. Perhaps I shall now be called to the telephone to talk with another unknown conversationalist."

"My motto is eternal vigilance," said Pelham. "Carry on your business as usual—your faithful hawkshaw slumbers not nor sleeps. I'll tell you what I want to do, Hill," he suggested briskly. "I'll beat you three sets out of four whenever you are ready. I've been reading a book on tennis tactics, and after committing it to memory I've burned it, so you can't read it. You haven't a chance!"

Hanby's mood was more cheerful.

"I wrote that book," he declared. "Want to bet?"

"Go and get into flannels," Pelham told him. "Hill's worried," he added, to Dina, when Hanby had left the room.

"I never saw him so before. Try and make him laugh at it, Bill."

Hanby's mood of depression passed very quickly. New daily interests so crowded one upon the other that there was no room for gloom or introspection.

The Parkers did not come. Parker's stomach, after many unheeded warning's, had finally rebelled against its owner's habit of taking three meals a day. Julia Parker wrote that her husband was about to be operated upon.

One day, walking down the drive, Hanby met a small, florid, neatly dressed man approaching the house—the sort of man to inspire confidence even among the most suspicious.

"If he's a salesman," Hanby reflected, "I'm gone. A man like that could sell me anything!"

The stranger bowed politely.

"Mr Hanby, I believe?"

"Yes," replied Hanby, wondering what it was he was about to buy.

"My name is Appleton—Frederick Appleton. You are probably unaware of my existence."

"On the contrary, you are expected when the bass season opens. You were kind enough to give my friend Mr. Pelham some information about this house."

"As I was in the neighborhood, I took the liberty of coming to see your improvements. I have always been much interested in the Gray house."

"I shall be glad to show you over it and ask your advice. I find every day that there are a lot of things about country estates that they don't teach boys on farms—these improvements, for instance."

Mr. Appleton's manner was almost eager.

"May I ask what they are?"

"A big swimming pool between the tennis courts and the house, a new garage for six cars, a Japanese tea house, and a dozen smaller jobs."

Nothing pleases a new owner more than the opportunity to exhibit his property. Mr. Appleton was bored by nothing. He begged to be shown everything. He had no criticisms. He congratulated Hilton Hanby warmly.

"You will make this," he declared, "one of the stately homes of America. You have a genius for this sort of thing."

Only in one matter was his view opposed to that of the owner. He thought that the ground given over to the bird sanctuary would do admirably for ornamental glass houses.

"My wife and I wouldn't think of such a thing," Hanby asserted firmly. "We are for the conservation of bird life. You may not know it, but our rarer species of songsters are in serious danger of extermination. That bird sanctuary is a hobby of ours, and it will not be disturbed while we live."

Mr. Appleton wrung his host's hand. Hanby was surprised at the emotion written on his cheery, unlined face.

"It does you credit, sir," he exclaimed. "In my ignorance I have given no thought to such matters. It was criminal negligence. I did not know."

"As a matter of fact," Hanby confessed, "I was just as heedless as you until a month ago. Mr. Bayliss, whom I met at the Metropolitan club, told me all about it. I rather think he is president of the Ornithological society."

"The name seems familiar," said Appleton. "One of our national authorities, if I mistake not. I think I have read a notice of one of his books on the subject."

Appleton was sightseeing until luncheon,. Hanby would not let him refuse to stay to the meal, despite the fact that he had a neat package of sandwiches and fruit.

The interior of the house charmed him greatly. He was filled with admiration at the rules of the Sanctuary club, the critical family circle approved of him.

After luncheon Hanby admitted that the workmen were not accomplishing what the contractor had promised.

"Since you bring up the subject," said Mr. Appleton, "may I point out the probable causes?"

He spoke with much assurance on work and workmen, on the cost of material, and on the manner in which grafting foremen could deceive even the intelligent but amateur scrutiny of a man like Mr. Hanby.

"I wish you were out of a position," Mr. Hanby said, when Appleton finished.

"May I ask your reasons why?"

"I'd ask you to be my agent here. Besides these improvements, I have three tenant farmers who want repairs for barns and houses, and I'm bound to say they seem most reasonable. I came here to play, not to work.

Appleton smiled. He had the look of one who delights to bring good news.

"Things generally turn out for the best," he observed. "I left the employ of Douglas & Smith last week. Strictly speaking, I could not afford to do so; but, after almost thirty-five years, to have to take orders from one with not one-third of that service was too bitter. I am not a proud man, Mr. Hanby, but I resigned. This is a business trip. Mr. Clarke, of Amenia, is considering alterations, and I hoped he might select me to supervise them."

"It's Clarke's loss," said Hanby, "I need you more than he does."

Mrs. Hanby was very glad at the news.

"Where will you stay?" she asked. "There is no accommodation near."

"Perhaps you have a room over the garages," he suggested timidly. "I am accustomed to look after myself."

"All the rooms are occupied. Why not stay with us until something suitable turns up? This is an enormous house, as you know."

Appleton was made specially welcome because his coming exempted each member of the household from some unaccustomed and unwelcome task. Junior had been deputed to see that the workmen finished the swimming pool on time. Celia's arithmetic was strained at estimating the cost of lumber. These labors Mr. Appleton took over.

The Hanbys liked him for his simplicity. He told them about his wife, whom he adored—an invalid lady unable to leave New York because of some special treatment for rheumatism that she was taking.

The foreman of masons resigned directly he found a man over him whom he could not fool. Appleton's mild appearance deceived him. It was one of his grounds of grievance when he sought an interview with Mr. Hanby.

"You say Mr. Appleton swore at you something terrible?" Hanby scoffed. "Don't lie about it! Mr. Appleton couldn't do a thing like that, but I'm liable to turn rough any time an inefficient loafer tries to put up a fool story like that. Get out!"

"Had the audacity," Hanby told his wife, "to say that old Appleton called him foul names."

They laughed together at the absurdity of it.

"I lost my temper, I admit," confessed Appleton, at lunch. "I explained that labor owed something to the capital without which it could not exist."

"You talked over his head," Hanby said. "I thought that must be it."

The old man bothered them very little. He did not intrude. It was his nightly habit to walk about the grounds, puffing at the single cigar he allowed himself, and then to retire. He insisted on making his own bed and keeping his room in order. The servants, after the untidy way of Junior and Les, found him no trouble at all.

"He saves me twice his salary every week," Hanby declared, "and he allows me to be a gentleman of leisure again."

"Appleton is all right," said Junior, thinking of the overseer's job that had been his. "We all love him except Les."

"What have you against him?" Bill Pelham demanded. "Report all suspicious things to the house detective."

Les did not welcome the looks that were cast upon him.

"Nothing," he admitted. "I can't like everyone, can I?"

"Les," Celia said severely, "I don't believe that's the real reason."

There was no doubt about Leslie's smile. He was a singularly good-looking lad when he smiled, with small, white, even teeth, and a mouth cut almost too well for a man.

"That's all you are going to get from me," he said.

"Leave it to the house detective," Pelham interrupted. "I'll give Les the third degree and report to you tomorrow."

11-11.30 a.m.—Sunny Sam's Prosperity programme.

11.30-11.45 a.m.—Eileen's Shopping Tour.

11.45-12 noon—Recordings.

4.30-5.30 p.m.—Musical programme.

CHINESE REDS DEFEAT TROOPS

Hankow, China, March 9.—Fragmentary information received here to-day indicated that troops sent against a band of 20,000 Communists and mutineers had been defeated near Sinyang, 100 miles north of here.

Ten thousand government soldiers mutinied recently and joined a similar band of Reds. Red propaganda and the soldiers' belief they were to be disbanded were believed to have caused the mutiny. The mutineers tore up tracks of the Peiping-Hankow Railway and cut telegraph wires.

It was understood fighting was continuing and the loyal troops had been driven south along the railway. The local military was preparing to send additional troops, but a lack of railway facilities hampered their attempts to reinforce the loyal troops. Traffic along the railway continued to be blocked.

CONSERVATIVES OF NANAIMO FIND WAY TO CREATING JOBS

Retirement on pension of all federal civil servants when they attain sixty-five years of age, to provide more positions in the Dominion Government service, would greatly aid in the amelioration of unemployment, in the opinion of the Nanaimo Federal Conservative Association. At the semi-annual meeting held on Saturday afternoon at Brentwood a resolution was adopted favoring amendment of the Civil Service Act to abolish the option of retirement at the superannuation age of sixty-five years.

Copies of the resolution were ordered sent to the Dominion Government, to the Civil Service Commission and C. H. Dickie, M.P.

Lindley Crease, K.C., addressed the meeting, which was attended by delegates from Nanaimo, Ladysmith, Cobble Hill, Metchosin, Duncan, The Islands, Esquimalt, Saanich and Oak Bay. John Bennett of Nanaimo presided.

Mrs. F. F. Osborne was elected to the executive, to fill the vacancy created by the recent election of Mrs. S. R. Bowden as vice-president of the provincial executive.

Horoscope

TUESDAY, MARCH 10, 1931

This is a day when effort is likely to be rewarded. It is a good day for children. Their work at school and at home should be appreciated and rewarded. Teachers are in peculiar sympathy with their charges just now.

Women should watch their tongues. Trouble may be caused by thoughtlessness though not necessarily malicious gossip.

There is a sign indicating great increase of travel by automobile. The standard of driving is being forced up in an effort to make the roads safer, and it is prognosticated that some very stern rebukes will be administered to well-known drivers who are careless.

Some of the world's greatest men and women are now making ready to step forward and take their places at the head of the world's affairs. They should be followed with intelligent allegiance.

Before making an investment of any kind it is well to seek the advice of some friend who is well-informed in the financial affairs of the country.

Fortune smiles on the ones who are already busy in the affairs on of the world, and takes the duties she wishes to have done promptly and well to them.

Persons will do well to remember that it is wise to maintain a balance of self-esteem and personal restraint.

The wise are patriotic but never forget that other races and nations have their good points also.

Persons whose birthdate it is have before them a year of ups and down. They must use their wits and their courage and then they will ride through the downs and enjoy the ups.

Children born on this day may be impulsive and headstrong. If they are taught self control they will lead useful and happy lives.

Among those born on this day was the Italian anatomist, Marcellus Malpighi, 1628.

Langford

Miss Y. George, captain of the Hillside Guide Company, visited the Girl Guides on Saturday afternoon at Langford Lakeside. An observation test was conducted and a sick nursing lecture given Nightingale patrol. A sing-song concluded the meeting.

Mrs. Greville-Jones has sold here bungalow on Leigh Road, Langford Lake, and has rented Langford Lakeside cottage for a year.

The Chinese port of Tientsin serves as an outlet for the products of an area about half the size of the United States.

TO-NIGHT
The B. C. Electric Hour of Operatic Highlights

Programme
For Monday, March 9

1. OVERTURE
"Merry Wives of Windsor" (Nicolai)

2. VOCAL EXCERPT
"Carmen" (Bizet)
Soloists
Ramona Rambert, Avis Phillips, Gladys Simmonds, May MacPhail, James Davis, Geo. Boyd.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

CREOMULSION
FOR THE COUGH OR COLD THAT HANGS ON

BLANSHARD TO BE HONORED

Arrival of First Governor of Vancouver Island Will Be Commemorated

Arrival of Governor Blanshard on Vancouver Island eighty-one years ago will be commemorated here next Wednesday evening when the B.C. Historical Association holds an anniversary dinner at the Empress Hotel.

The landing of Governor Blanshard here is regarded as one of the high spots in the history of this province, since it involved the appointment of a Governor and Commander-in-Chief for this territory. Blanshard came to the Island on the H.M.S. Driver.

It is expected about sixty guests will attend the dinner. Mrs. Fitzherbert Bullen will preside and among those giving addresses will be, Hon. J. Hinchliffe, Minister of Education; Professor Saga of the U.B.C. department of history; John Hosie, Provincial Archivist, who will tell the story of Blanshard; Hon. S. L. Howe, Provincial Secretary, and naval and military leaders.

A copy of the first rules and regulations issued by the Admiralty for this coast will be presented to the Provincial Archives by Mr. Justice Martin.

BEDTIME STORY

Uncle Wiggily And Buster's Boat

(Copyright, 1931, by Howard R. Garis.)

"Here, said Buster, Please fix it."

Buster, who was one of Uncle Wiggily's little boy rabbits, hopped over to his father one morning in the hollow stump bungalow and said:

"Daddicums!"

That's all Buster said at first. Just: "Daddicums!"

But from the way in which he said it any one could have guessed that there was more to come. So Uncle Wiggily, who was trying to read the morning paper while Nurse Jane got the rabbit children ready for school, laid the paper aside and asked:

"What is it, Buster?"

"It won't go," Buster answered.

"What won't go?" exclaimed Mr Longears. "Do you mean to tell me, Buster, that the Fox is outside and he won't go away when you tell him to? I'll see about that! The idea!"

Uncle Wiggily twinkled his pink nose very fast and bravely and jumped out of his chair. He hopped toward the door.

"No! No!" called Buster.

"No, what?" asked Uncle Wiggily, and the other rabbit children listened.

"No, sir," went on Buster, thinking his father wanted him to practice his politeness lesson. "Oh, I don't mean that, Daddicums," said Buster, quickly. "I mean there is no Fox who won't go."

"Well, then," asked Mr. Longears, as he went back to his easy chair and the paper, "what is it that won't go?"

"My toy boat," said the little boy rabbit. "You know I got a little toy motor boat for Christmas. You wind it up and put it in the bathtub of water and my boat goes fast. That is it used to go but now it doesn't go."

"It's broken, I suppose," said Uncle Wiggily.

"I suppose," spoke Buster, and his voice was so sad and gloomy that his father laughed and exclaimed:

"Well, Buster, my boy, I'll see if I can fix your boat so it will go. Where is it?"

"Here!" said Buster, eagerly, holding up the toy. "Please fix it."

"Come on up to the bath-room," called the rabbit gentleman, and up the stairs he went, hopping, with Buster hopping after him and carrying the boat that wouldn't go. Then Mrs. Longears, who was helping Nurse Jane get the children ready for school, called:

"Wiggy, my dear, you have no time to take Buster up to the bath-room to play with his boat! It is almost time to go to school. I don't want him to be late."

"I won't let him get late," promised Mr. Longears. "It will take me only a little while to see what is the matter with Buster's boat. I must wind it up and put it in the water and try it. When I see what is broken I can mend it. Don't worry, my dear!"

But Mrs. Longears couldn't help worrying. Neither could Nurse Jane. However, they finished getting the other forty-sixteen rabbit children ready for school and hoped for the best about Buster.

By this time Uncle Wiggily and Buster were up in the bath-room.

"Put this plug in the tub, turn on the faucets and let the water run," said Uncle Wiggily to his little boy rabbit. "While the tub is filling I will put a little oil on the spring and motor of your boat and maybe that will fix it so it will go."

The water gurgled and splashed into the tub and Buster was very happy because he thought his Daddicums was going to mend the broken boat. Buster felt like singing and suddenly, before he knew it, he began taking off his clothes.

"What are you doing?" cried his father.

"Oh," answered Buster, "I forgot! I thought I was going to take a bath when I heard the water run. But we're going to try my boat, aren't we, Daddicums?"

"Yes," said Uncle Wiggily. By this time he had oiled the motor and wound up the spring and now he set the toy boat down in the tub of water. Suddenly there was a whirring, whizzing sound, the propeller of the boat spun as fast as an automobile and it splashed and sent such a shower of water all over the bathroom that, in a second, Uncle Wiggily and Buster were soaking wet.

"Oh! Oh! Oh!" cried Buster. "I'm all wet!"

"So am I!" said Mr. Longears. And then from downstairs Nurse Jane called:

"Hurry, Buster, or you'll be late for school!"

But Buster couldn't go to school that way—all wet! What was to be done? Well, we shall have to wait until tomorrow night to learn. Then, if you will give the little puppy dog a necktie to wear with his collar, I'll tell you about Uncle Wiggily's fast run.

MAN JUMPS FROM TOWER AND IS KILLED

Palm Springs, Calif., March 9.—Evading the watchful vigilance of his son, Louis P. Jacobs, seventy-one, a visitor from London, and said to be the brother of a British statesman, leaped to his death yesterday from the observation tower of El Mirador Hotel here.

The son, Michael L. Jacobs, told Coroner Ben White, the latter said, that his father had been in ill-health for some time and for the last few days had been brooding.

Young Jacobs said he and his father had planned to return to London April 1. They had been guests at the hotel for ten days.

CHAPLIN IS NOW VISITING BERLIN

London, March 9. — Thousands thronged the Liverpool Street Station here yesterday to see the departure of Charlie Chaplin for Berlin. When the little movie comedian appeared he was snatched from his car and carried on the shoulders of admirers to the train.

Chaplin stood in the doorway of his compartment and spoke a few words of thanks and waved as the train pulled out. He went to Berlin for the premiere of his latest film and will return here Friday.

OUR BOARDING HOUSE —By AHERN

OUT OUR WAY —By WILLIAMS

As a Mother Thinketh

Dorothy Dix

Says: So Are Her Children

THE MOST important thing in the world to a child is his mother's point of view, for it is through her eyes that he first sees life, and the way she looks at things fixes the angle at which he sees them as long as he lives. If a mother is gay and optimistic and courageous, her children will meet whatever life brings them with a high heart, but if mother is a dark blue pessimist her children will be despairing cowards who will surrender to fate without ever putting up a fight. If a mother is ambitious, her children will be go-getters. If she is frugal and a good manager they will know how to save and how to get the most out of a dollar, but if she is one of the women who have no purpose in life, no desire to achieve anything, who is self-indulgent and wasteful, her children will almost invariably be the kind who take the easiest way and who never amount to a row of pins.

It doesn't matter half so much in what circumstancs a child is placed by fate as it does what his mother thinks about them. Whether even poverty is a curse or a blessing to a youngster depends upon his mother's attitude toward it. Not very long ago I heard a very rich and successful man say:

"I know now that when I was a child we were very poor. I had so few clothes that my mother used to wash at night the little shirt that I wore to school the next day, but I was always clean and neat. I had to begin earning money almost as soon as I could walk, and I delivered papers when I was so little I could hardly reach a bellpull. We had such plain food that it was a gala day to be remembered for weeks when we had pie for dinner.

"But I never knew that I was poor because I never remember to have heard the subject mentioned in our family. My mother never whined and complained about what she couldn't have or because she wasn't as well off as other women or because she couldn't give us children the advantages that rich parents could give their children. She was always cheerful and made our home the happiest place in the world, and if we didn't have anything but stew and bread for supper we ate it to the accompaniment of so much laughter and good cheer that it made it a feast.

"My mother never let us be sorry for ourselves. She never inoculated us with the virus of self-pity, as so many poor mothers do their children. She never let us feel that it was hard luck that we had to work when other children played. She managed somehow to make us feel that we were superior to the poor little rich children who had to ask their parents for pennies, because we were clever enough to earn money ourselves. She made us feel that we were men and women while they were still children. I can remember being actually sorry for the little boys who didn't have newspaper routes and had nothing to do but to play marbles, while I was a responsible individual with what I considered an important job.

"My mother never deplored the fact that she couldn't give us college educations and that our father didn't have a bank that he could take us into as soon as we were grown. She never even intimated that poverty was a handicap to a boy.

"On the contrary, she talked to us continually about the poor boys who had become millionaires, about the boys who had no schooling, but who had educated themselves by reading and study; about the boys who had gone from behind ploughs and the towpaths of canals, from the humblest places, to the President's chair. The names of great doctors, lawyers, merchants, men of affairs who had been poor boys were always on her lips, and it was just bred into us that we could be like them if we were men enough to do it.

"I often think of my mother and other poor mothers that I have known since—mothers who make failures of their children in their very cradles by bringing them up in an atmosphere of gloom that chokes out every hope and inspiration and makes them feel that they are victims of a malign destiny against which it is no use to struggle.

"Mothers who break down their children's morale and weaken them by weeping over them because they have to work. Haven't you seen such mothers, time and again, wringing their hands and shedding tears because their poor little Tommies had to punch the time-clock in a factory every morning instead of lying abed or because their darling Mamies had to stand behind a counter or pound a typewriter instead of going to pink teas?

"And, of course, that made Tommy and Mamie feel that they were poor, persecuted martyrs when they should have been rejoicing that they had brains enough to hold down a job and were independent, self-supporting men and women who could look the world in the eye and tell it where to go.

"And, believe me, it is their mother's attitude toward marriage that is responsible for so many youngsters rushing off to the divorc court before they give marriage half a tryout. Listen in on any convocation of mothers and you will hear them talking about the selfishness of husbands and the drudgery of housework and the unfaithfulness of men in general.

"The result is that when too many girls get married they live up to mother's teaching, which is to get all and give nothing and to throw up their hands and quit when the sledding gets hard.

"We always say that divorce runs in families. It isn't hereditary, but it is catching. You will almost invariably find that the women who have been good wives themselves bring up daughters who make good wives, because the girls look on marriage as mother does—as a duty and responsibility instead of a graft."

As a mother thinketh, so are her children. And that is why her point of view is the most important thing in their lives. DOROTHY DIX.

ADVERTISE IN THE VICTORIA DAILY TIMES

NEW NUMBERS ON PROGRAMME FOR TO-NIGHT

Sacred and Secular Songs Will Be Sung By Savoy Chapel Choir

The programme of the concert to be given by the children of H. M. Chapel Savoy this evening, in the Metropolitan United Church, at 8 o'clock is as follows: Sacred—Psalm XXIII (Unaccompanied); three part chorus, "O Light Everlasting;" three part chorus, "I am not Worthy"; solo, "Jerusalem"; piano solo; trio, "God Shall Wipe Away All Tears"; solo, "Where'er You Walk"; three part chorus, "Before the Ending of the Day"; motett, "Hear My Prayer"; solo, Iwan Davies.

Secular—Two part song, "Flight of the Swallow"; three part song, "O, Who Will O'er the Downs"; three part song, "On the Banks of Alan Water"; solo, "Daddy"; two part song, "The Passage Birds' Farewell"; piano solo; duet, "Oft in the Stilly Night"; humorous trio, "Little Tommy"; three part song, "Softly Fall the Shades of Evening."

Three Motorists Killed By Train

Glen Falls, N.Y., March 9—Three young residents of Saratoga Springs were killed instantly yesterday when their automobile was demolished by the Montreal Express of the Delaware and Hudson Railroad at Gansvoort crossing, south of here.

The victims were Walter William Harrington, nineteen, driver, son of Mrs. Anna Harrington; Miss Margaret Fisher, eighteen, daughter of Mr. and Mrs. Joseph Fisher, and Miss Mamie Natale, eighteen, daughter of Mrs. Philoma Natale.

Witnesses said the trio, who were driving from Saratoga Springs to Glen Falls, had stopped at the crossing for a southbound freight train. When it had passed, they drove on the tracks in front of the fast northbound express.

Final assembly floor of Boeing Aeroplane factory, Seattle, with long row of four-passenger mail planes in foreground and military planes at centre and far right. Of latter, company now is working on contract for 131 army pursuit ships and forty-six navy single seater fighting planes.

HANEY DEATH INVESTIGATED

Canadian Press

Haney, B.C., March 9.—Dr. John Francis Buckley was held on a charge of manslaughter pending the result of an inquest this afternoon on the death of John Connely, which occured Sunday morning in a cell in the local jail.

According to the report of Police Chief Norman McDonald, he was called to the shack of Jack Williams near the C.P.R. right-of-way, Saturday evening by the owner, who said he had been held up by Connely and a companion, John Brown, but had got away.

On his arrival at the shack, Chief McDonald states he found the pair "passed out" on the floor and Dr. Buckley in a stupor on the bed, with two bottle of rubbing alcohol in the room. He removed Connely and Brown to the jail, placing them in separate cells.

The guard, George Lindsay, became alarmed when he heard nothing from Connely's cell early Sunday and went in and found the prisoner dead.

On information that Dr. Buckley had puchased four bottles of rubbing alcohol in a Hammond drugstore the afternoon before, of which two bottles were found in the shack, Chief McDonald states he arrested the physician on a charge of manslaughter. Connely and Brown are alleged to have been drinking the fluid with him.

Dr. Sagar of Port Coquitlam started an inquest this afternoon in the Maple Ridge municipal hall.

Connely, about forty years of age, is said to have left Newfoundland several years ago for the prairies and was a transient in the district. Brown also was only a casual visitor, it is reported having come to Canada from Scotland originally.

COMMONS DEBATE

Ottawa, March 9.—Victor C. Porteous, member for North Grey, Ont., will move the address in reply to the Speech from the Throne in the Commons at the session which will open next Thursday. The seconder, it is announced, will be Maxime Cormier, member for Restigouche and Madwaska, N.B. Mover and seconder of the address in the Senate have not been definitely decided on.

Musical Evening Will Be Held By St. Paul's Group

A programme of outstanding merit and excellence will be given in St. Paul's Presbyterian Church, Henry Street, Victoria West on Wednesday evening at 8 o'clock, when the Y.P.S. C.E. presents the "Excelsior Singers" in a big evening concert.

The vocalists will be under the direction of W. C. Fyfe, the well-known choir master of First United Church, whose programmes are looked forward to with the greatest interest in musical circles. This will be the third annual concert under the auspices of the young people of that church, and should surpass all others for variety and entertaining qualities.

The artists include Mrs. W. H. Wilson, one of the city's best-known sopranos, and winner of trophies at both Victoria and Vancouver musical festivals, Mrs. S. T. Sehl, a charming lyric mezzo-soprano, will render several selections. F. J. Mitchell, the well-known baritone, will also be heard in groups of songs.

A number of vocal duets, quartettes and humorous turns will also lend interest to the programme. Geo. Tate, violinist, will render selections. The accompanists will be Miss Jessie Smith, A.T.C.M., and Jack Smith, who will render several classical piano duets.

Montreal Young Woman Is Slain

Canadian Press

Montreal, March 9.—Compassion arising out of the girl's fear of disgrace in bearing an illegitimate child prompted Paul Henri Warren, twenty-six, to kill his sweetheart, Cecile Mondor, twenty-eight, here early to-day, according to an alleged confession in the hands of the police.

The young man, police declare, pleaded he was actuated only by humane motives. The girl was found stabbed and strangled in her bed, apparently as she slept. He said the girl was about to become a mother.

Tokio, March 9.—An earthquake today shook Hakodate, on the island of Hokkaido, causing minor damage but no casualties. Two chimney stacks crashed into the streets and overhead telegraph and telephone wires to various parts of the city were broken and several houses were slightly damaged.

Brentwood

An old-time dance was held on Friday evening by the West Saanich Women's Institute at their hall, Brentwood. The supper tables were attractively arranged with spring flowers and greenery. J. L. Brooks's orchestra supplied the music. Among those present were: Mr. and Mrs. W. O. Wallace, Mr. and Mrs. Freeland, Mr. and Mrs. T. Lidgate, Mr. and Mrs. R. Pike, Mr. and Mrs. Wilson, Mr. and Mrs. C. Atkins, Mr. and Mrs. Kent, Mr. and Mrs. Barker, Mr. and Mrs. Guy, Mr. and Mrs. Heyworth, Mr. and Mrs. Rochon, Mr. and Mrs. J. Roberts, Mrs. Haddon, Mrs. Overton, Mrs. MacQueen, Mrs. Brandon, Mrs. Blakey, Mrs. Andrew, Mrs. Johnston, Misses Kathleen Greenwood, Margaret Johnston, Ruth Ebriell Margaret Overton, Gwen Andrew, Gladys Guy, May Peden, Edith Jeune, and Mabel Clow; Messrs. A. Langridge, J. Reid, H. Andrew, F. Verdier, C. Olmstead, J. Greenhalth, K. Overton, E Blythe and J. L. Brooks.

A social and dance will be given by the Ward Six Saanich Conservative Association in the West Saanich Women's Institute Hall, Brentwood, on Thursday evening.

The W.A. to St. Stephen's and St Mary's Churches will meet at the home of Mrs. L. E. Taylor, Mount Newton on Wednesday.

Mr. and Mrs. H. Ensor, Victoria, spent the week-end as the guests of Mr. and Mrs. T. Haddon, Clarke Avenue.

Mr. and Mrs. Overton and family of Victoria were the guests on Sunday of Mr. and Mrs. C. Atkins, Marchants Road.

Right breakfasts start you on the Road to things you want

ENJOY your meals. Join the I-can-eat-most-anything folks. Quit the ranks of those who have to murmur, "Well, I wish I could." These are things that everyone wants to do. Don't you?

Well, you can, if you don't neglect constipation. You can attain to many things now denied by first thoroughly eliminating waste matter daily through eating more roughage. Prove this for yourself. Start a two weeks' test. Eat Post's Bran Flakes every morning as a cereal with milk or cream.

With berries or fruits these crisp, golden flakes are delightful.

You'll find a difference. You'll feel a whole lot better—on the road to things you've wanted to do, but couldn't. Don't stop at the end of two weeks. Eat Post's Bran Flakes *regularly* for health and enjoyment. Made in Canada.

Ordinary cases of constipation, associated with too little bulk in the diet should yield to Post's Bran Flakes. If your case is abnormal, consult a competent physician at once and follow his advice.

now you'll like BRAN
